SUPPLEMENTARY INFORMATION:

Title: Fixed Residential Moving Cost Schedule.

Background: Relocation assistance payments to owners and tenants who move personal property for a Federal or federally-assisted program or project is governed by the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended (Uniform Act). 49 Code of Federal Regulations (CFR), Part 24, is the implementing regulation for the Uniform Act. 49 CFR 24.301 addresses payments for actual and reasonable moving and related expenses. The fixed residential moving cost schedule is an administrative alternative to reimbursement of actual moving costs. This option provides flexibility for the agency and affected property owners and tenants. The FHWA requests the State Departments of Transportation (State DOTs) to analyze moving cost data periodically to assure that the fixed residential moving cost schedules accurately reflect reasonable moving and related expenses. The regulation allows State DOTs flexibility in determining how to collect the cost data in order to reduce the burden of government regulation. Updated State fixed residential moving costs are submitted to the FHWA electronically.

Respondents: State Departments of Transportation (52, including the District of Columbia and Puerto Rico).

Frequency: Once every 3 years.

Estimated Average Burden per Response: 24 hours per respondent.

Estimated Total Annual Burden Hours: 24 hours for each of the 52 State Departments of Transportation. The total is 1,248 burden hours, once every 3 years, or 416 hours annually.

Electronic Access: Internet users may access all comments received by the U.S. DOT Dockets, Room PL-401, by using the universal resource locator (URL): <http://dms.dot.gov>, 24 hours each day, 365 days each year. Please follow the instructions online for more information and help.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended; and 49 CFR 1.48.

Issued on: March 16, 2007.

Environmental Impact Statement: Prince George's and Charles Counties, MD

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of Intent.

SUMMARY: The FHWA is issuing this notice to advise the public that an environmental impact statement (EIS) will be prepared for a proposed multi-modal transportation improvement project in Charles and Prince George's Counties, Maryland. The purpose of the EIS is to provide information and analyses for decisions on the project in accordance with the policies and purposes of the National Environmental Policy Act.

FOR FURTHER INFORMATION CONTACT: Mr. Daniel W. Johnson, Environmental Program Manager, Federal Highway Administration, City Crescent Building, 10 South Howard Street, Suite 2450, Telephone: (410) 779-7154.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the Maryland State Highway Administration, U.S. Army Corps of Engineers, and the U.S. Environmental Protection Agency will prepare an environmental impact statement (EIS) to improve mobility and safety along the U.S. 301 corridor in the Waldorf area of Charles and Prince George's Counties for a distance of approximately 13 miles.

Existing and projected growth in population and development is creating traffic congestion in southern Maryland along existing US 301 between US 301/MD 5 Interchange at T.B. and Turkey Hill Road/Washington Avenue. The local roadway network will reach capacity and will be unable to accommodate this increased travel demand. Improvements within the corridor will address safety problems and accommodate existing and projected travel demand.

Alternatives under consideration include (1) taking no action (2) widening the existing US 301 roadway (3) constructing a limited access highway on new location. Transit components and transportation system

management/travel demand management (TSM/TDM) strategies would be incorporated with all of the proposed alternatives. The study will include an overview of future corridor preservation needs southward from the proposed improvement study limits.

Letters describing the proposed action and soliciting comments will be sent to appropriate Federal, State, local agencies, private organizations, and citizens who have previously expressed or are known to have an interest in this project. Public involvement will be solicited through the project development process. A series of Public Workshops is scheduled for March 2007. Subsequently, a Public Hearing is anticipated for early 2008. The Draft EIS will be available for public and agency review and comment prior to the Public Hearing. Public notice will be given of the time and place of these meetings and the availability of the Draft EIS for review.

To ensure that the full range issues related to this proposed action are addressed and all significant issues identified, comments and suggestion are invited from all interested parties. Comments or questions concerning these proposed actions and EIS should be directed to the FHWA at the address provided above.

(Catalog of Federal Domestic Assistance Program Number 20.205, Highway Research, Planning and Construction. The regulation implementing Executive Order 12372 regarding intergovernmental consultation of Federal programs and activities apply to this program).

Dated: March 6, 2007.

Daniel W. Johnson,

Environmental Program Manager, Baltimore, Maryland.
