

watersheds pursuant to the Federal Endangered Species Act (ESA). Chinook salmon and steelhead trout were similarly listed in 1997 and 1999, respectively. Through the proposed distribution, storage, and use of recycled water for agricultural purposes, the SCWA has identified a strategy to reduce reliance on diversions from the Russian River and other natural waterways.

The use of recycled water for irrigation for agricultural purposes has been occurring in California since 1890 (California Recycled Water Task Force 2003). By the year 2000, there were 234 wastewater treatment plants providing recycled water for agricultural and landscape purposes in California (California Recycled Water Task Force 2003). Today, recycled water in California is being used for a variety of purposes, such as irrigation for row crops, vineyard, pasture, stock feed, nursery products, turf in parks and schoolyards, and landscaping. In Sonoma County, the City of Santa Rosa, Town of Windsor, and the Airport-Larkfield-Wikiup Sanitation Zone currently provide recycled water for irrigation of about 7,200 acres of agricultural land.

The SCWA regulates the flow of the Russian River for the benefit of agricultural, municipal, and instream beneficial uses. The use of recycled water and conjunctive use of surface and groundwater supplies within the SCWA service area are all important factors in evaluating the management of the regional water supply. SCWA believes the use of recycled water to offset surface and groundwater sources used by agricultural entities in the Russian River, Alexander, North Alexander, and Dry Creek valleys to benefit fisheries in the Russian River watershed. The recycled water would be used for agricultural purposes consistent with the California Code of Regulations, Title 22, pertaining to the use of tertiary-treated recycled water.

Additional Information

If special assistance is required at the public hearings, please contact Mr. David Cuneo at (707) 547-1935 (*e-mail: david@scwa.ca.gov*). Please notify Mr. Cuneo as far in advance of the hearings as possible to enable the SCWA to secure the needed services. If a request cannot be honored, the requestor will be notified.

Comments received in response to this notice will become part of the administrative record and are subject to public inspection. Our practice is to make comments, including names, home addresses, home phone numbers, and e-mail addresses of respondents, available for public review. Individual respondents may request that we withhold their names and/or home addresses, etc., but if you wish us to consider withholding this information, you must state this prominently at the beginning of your comments. In addition, you must present a rationale for withholding this information. This rationale must demonstrate that disclosure would constitute a clearly unwarranted invasion of privacy. Unsupported assertions will not meet this burden. In the absence of exceptional, documentable circumstances, this information will be released. We will always make submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.

Dated: December 11, 2006.

Kirk C. Rodgers,

Regional Director, Mid-Pacific Region.

BILLING CODE 4310-MN-P

INTERNATIONAL BOUNDARY AND WATER COMMISSION, UNITED STATES AND MEXICO

Notice of Availability of a Final Environmental Assessment and Finding of No Significant Impact for Improvements to the Mission and Common Levee Systems, in the Lower Rio Grande Flood Control Project, Located in Hidalgo County, TX

AGENCY: United States Section, International Boundary and Water Commission (USIBWC), United States and Mexico.

ACTION: Notice of Availability of Final Environmental Assessment (EA) and Finding of No Significant Impact (FONSI).

SUMMARY: Pursuant to Section 102(2)(c) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Final Regulations (40 CFR parts 1500 through 1508); and the United States Section's Operational Procedures for Implementing Section 102 of NEPA, published in the **Federal Register** September 2, 1981, (46 FR 44083); the United States Section hereby gives notice that the Final Environmental Assessment and Finding of No Significant Impact for Improvements to the Mission and Common Levee Systems, in the Lower Rio Grande Flood Control Project, located in Hidalgo County, Texas are available.

FOR FURTHER INFORMATION CONTACT:

Gilbert G. Anaya, Supervisory Environmental Protection Specialist; Environmental Management Division; United States Section, International Boundary and Water Commission; 4171 N. Mesa, C-100; El Paso, Texas 79902. Telephone: (915) 832-4702, *e-mail: gilbertanaya@ibwc.state.gov*.

SUPPLEMENTARY INFORMATION:

Background

The USIBWC is considering raising the 12.0-mile Mission Levee System and the 5.3-mile Common Levee System to meet current flood control requirements. The proposed action would increase the height of the levee up to 8 feet depending on location. The height increase would also result in expansion of the levee footprint by lateral extension of the structure. Levee footprint increases for both the Mission and Common Levee systems would occur within the USIBWC right-of-way and extend primarily toward the riverside of the existing levee. Along sections of the Mission Levee System, structural improvements such as slurry walls may be required in segments with

seepage potential. In an approximate 1-mile reach, a mechanically stabilized earth structure would be built along the existing levee crown to avoid footprint extension beyond the existing right-of-way easements. A number of natural resources management areas are located near or adjacent to the levee system, including units of the Lower Rio Grande Valley Wildlife Refuge System and the Bentsen-Rio Grande Valley State Park.

The Environmental Assessment assesses potential environmental impacts of the Proposed Action and the No Action Alternative. Potential impacts on natural, cultural, and other resources were evaluated and mitigation measures were incorporated into the Proposed Action. A Finding of No Significant Impact was issued for the Proposed Action based on a review of the facts and analyses contained in the Environmental Assessment.

The USIBWC is authorized to construct, operate, and maintain any project or works projected by the United States of America on the Lower Rio Grande Flood Control Project (LRGFCP) as authorized by the Act of the 74th Congress, Sess. I Ch. 561 (H.R. 6453), approved August 19, 1935 (49 Stat. 660), and codified at 22 U.S.C. Section 277, 277a, 277b, 277c, and Acts amendatory thereof and supplementary thereto. The LRGFCP was constructed to protect urban, suburban, and highly developed irrigated farmland along the Rio Grande delta in the United States and Mexico.

The USIBWC, in cooperation with the TPWD, prepared this Final Environmental Assessment for the proposed action of raising the Mission and Common Levee Systems located in Hidalgo County, Texas to improve flood control. These two adjacent levee systems are part of the LRGFCP that extends approximately 180 miles from the Town of Peñitas in south Texas to the Gulf of Mexico. The Mission Levee extends approximately 12 miles along the Rio Grande, downstream from the Town of Peñitas. The Common Levee System, approximately 5.3 miles long, consists of the Common Levee and Anzalduas Dike, which connects the Common Levee to Anzalduas Dam.

Availability

Electronic copies of the Final EA and FONSI are available from the USIBWC Home Page at <http://www.ibwc.state.gov>.

Dated: March 16, 2007.

Susan Daniel,
General Counsel.

BILLING CODE 7010-01-P

DEPARTMENT OF LABOR

Office of the Secretary

Submission for OMB Review: Comment Request

March 22, 2007.

The Department of Labor (DOL) has submitted the following public information collection requests (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-13, 44 U.S.C. chapter 35). A copy of each ICR, with applicable supporting documentation, may be obtained from RegInfo.gov at <http://www.reginfo.gov/public/do/PRAMain> or by contacting Darrin King on 202-693-4129 (this is not a toll-free number)/e-mail: king.darrin@dol.gov.

Comments should be sent to Office of Information and Regulatory Affairs, Attn: OMB Desk Office for the Employment Standards Administration (ESA), Office of Management and Budget, Room 10235, Washington, DC 20503, Telephone: 202-395-7316/Fax: 202-395-6974 (these are not a toll-free numbers), within 30 days from the date of this publication in the **Federal Register**.

The OMB is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriated automated, electronic, mechanical, or other technologies collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Agency: Employment Standards Administration.

Type of Review: Extension without change of currently approved collection.

Title: Employment Information Form.

OMB Number: 1215-0001.

Form Number: WH-3.

Frequency: On occasion.

Type of Response: Reporting.

Affected Public: Individuals or households.

Estimated Number of Respondents: 3,500.

Estimated Number of Annual Responses: 3,500.

Estimated Average Response Time: 20 minutes.

Estimated Total Annual Burden Hours: 11,667.

Total Estimated Annualized capital/startup costs: \$0.

Total Estimated Annual Costs (operating/maintaining systems or purchasing services): \$0.

Description: Form WH-3 is an optional form complainants (e.g., current and former employees, unions, and, competitor employers) may use to provide information about alleged violations of the labor standards administered by the Wage and Hour Division (WHD) of the U.S. Department of Labor. Complaints themselves or WHS staff, using information provided by the complainants, complete the forms. WHD staff use the completed to obtain information about employer compliance with the provisions of the various labor standards laws enforced by the WHD and to determine if the agency has jurisdiction to investigate the alleged violation(s). WHD makes for form available in both English and Spanish. When the WHD schedules to complaint-based investigation, the agency makes the completed Form WH-3 part of the investigation case file.

Agency: Employment Standards Administration.

Type of Review: Extension without change of currently approved collection.

Title: Claim for Reimbursement-Assisted Reemployment.

OMB Number: 1215-0178.

Form Number: CA-2231.

Frequency: Quarterly.

Type of Response: Reporting.

Affected Public: Private Sector: Business and other for-profit.

Estimated Number of Respondents: 20.

Estimated Number of Annual Responses: 80.

Estimated Average Response Time: 30 minutes.

Estimated Total Annual Burden Hours: 40.

Total Annualized capital/startup costs: \$0.

Total Annual Costs (operating/maintaining systems or purchasing services): \$34.

Description: Information collected on Form CA-2231 provides DOL with the necessary remittance information for the employer, documents the hours of work, certifies the payment of wages to the claimant for which reimbursement is sought, and summarizes the nature and costs of the wage reimbursement
