Estimated Time Per Response: 15 minutes to 1 hour (average).

Frequency of Response: On occasion reporting requirement and recordkeeping requirement.

Obligation to Respond: Required to obtain or retain benefits.

Total Annual Burden: 7,087 hours.

Total Annual Cost: \$113,600.

Privacy Act Impact Assessment: Yes.

Nature and Extent of Confidentiality:

This information collection contains personally identifiable information (PII). The FCC has a system of records notice (SORN), FCC/WTB-1, "Wireless Services Licensing Records," to cover the collection, maintenance, use(s), and destruction of this PII, which respondents may provide to the FCC as part of the information collection requirement(s). This SORN was published in the **Federal Register** on April 5, 2006 (71 FR 17234, 17269).

Needs and Uses: The Commission will submit this information collection to the OMB as a revision after this 60 day comment period to obtain the full three-year clearance from them. This information collection will be used by the Commission for the following purposes: (1) To facilitate the successful coexistence of incumbent and geographic area paging licensees; (2) to lessen the administrative burden on licensees and to simplify the paging licensing database; (3) to determine the partitioned service areas and the geographic area licensee's remaining service area of parties to a partitioning agreement; (4) to determine whether a geographic area licensee and parties to partitioning and disaggregation agreements have met the applicable coverage requirement for their respective service areas; (5) to determine whether an applicant is eligible to receive bidding credits as a small business; (6) to determine the real parties in interest of any joint bidding agreements; and (8) to determine the appropriate unjust enrichment compensation to be remitted to the government.

OMB Control Number: 3060-0865.

The FCC has a system of records notice (SORN), FCC/WTB-1, "Wireless Services Licensing Records," to cover the collection, maintenance, use(s), and destruction of this PII, which respondents may provide to the FCC as part of the information collection requirement(s). This SORN was published in the **Federal Register** on April 5, 2006 (71 FR 17234, 17269).

Needs and Uses: The Commission will submit this information collection to the OMB as an extension (no change in reporting requirements) after this 60 day comment period to obtain the full three-year clearance from them.

The Commission has adjusted the number of respondents because they increased; therefore, the burden hours have also increased.

The purpose of this information collection is to continually streamline and simplify processes for wireless applicants and licensees, who previously used a myriad of forms for various wireless services and types of requests, in order to provide the Commission, information that has been collected in separate databases, each for a different group of services. Such processes have resulted in unreliable reporting, duplicate filings for the same licensees/applicants, and higher cost burdens to licensees/applicants. By streamlining the Universal Licensing System (ULS), the Commission eliminates the filing of duplicative applications for wireless carriers; increases the accuracy and reliability of licensing information; and enables all wireless applicants and licensees to file all licensing-related applications and other filings electronically, thus increasing the speed and efficiency of the application process. The ULS also benefits wireless applicants/licensees by reducing the cost of preparing applications, and speeds up the licensing process in that the Commission can introduce new entrants more quickly into this already competitive industry. Finally, ULS enhances the availability of licensing information to the public which has access to all publicly available wireless

licensing information on-line, including maps depicting a licensee's geographic service area.

Written comments should be received within 60 days of this notice.

Proposed Project

Focus Group Testing and Survey on Radiological Event Messages for Public Health Workers—New—National Center for Environmental Health (NCEH), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

In January 2003, CDC held a roundtable to specifically address communications needs likely to arise in the aftermath of a terrorist event involving mass casualties. Hospital administrators and clinicians, public health practitioners, and emergency planners emphasized the gaps in their training and in their knowledge of how to respond to nuclear or radiological events.

Concurrent with this, CDC began working with the Association of Schools
