

under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). The State submittal, which is the subject of this rule, is based upon counterpart Federal regulations for which an economic analysis was prepared and certification made that such regulations would not have a significant economic effect upon a substantial number of small entities. In making the determination as to whether this rule would have a significant economic impact, the Department relied upon the data and assumptions for the counterpart Federal regulations.

Small Business Regulatory Enforcement Fairness Act

This rule is not a major rule under 5 U.S.C. 804(2), the Small Business Regulatory Enforcement Fairness Act. This rule: (a) Does not have an annual effect on the economy of \$100 million; (b) Will not cause a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; and (c) Does not have significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of U.S.-based enterprises to compete with foreign-based enterprises. This determination is based upon the fact

that the State submittal, which is the subject of this rule, is based upon counterpart Federal regulations for which an analysis was prepared and a determination made that the Federal regulation was not considered a major rule.

Unfunded Mandates

This rule will not impose an unfunded mandate on State, local, or tribal governments or the private sector of \$100 million or more in any given year. This determination is based upon the fact that the State submittal, which is the subject of this rule, is based upon counterpart Federal regulations for which an analysis was prepared and a determination made that the Federal regulation did not impose an unfunded mandate.

List of Subjects in 30 CFR Part 948

Abandoned mine reclamation programs, Intergovernmental relations, Surface mining, Underground mining.

Dated: December 1, 2006.

H. Vann Weaver,
Acting Regional Director, Appalachian Region.

■ For the reasons set out in the preamble, 30 CFR part 948 is amended as set forth below:

PART 948—West Virginia

- 1. The authority citation for part 948 continues to read as follows:

Authority: 30 U.S.C. 1201 *et seq.*

- 2. Section 948.20 is amended by revising the heading and paragraph (b) as follows:

§ 948.20 Approval of State abandoned mine lands reclamation plan.

* * * * *

(b) West Virginia Department of Environmental Protection, Office of Abandoned Mine Lands and Reclamation, 601 57th Street SE., Charleston, West Virginia 25304–2345, Telephone (304) 926–0485.

- 3. Section 948.25 is amended by revising the heading, and adding in the table a new entry in chronological order by “Date of final publication” to read as follows:

§ 948.25 Approval of West Virginia abandoned mine lands reclamation plan amendments.

* * * * *

Original amendment submission date	Date of final publication	Citation/description
June 27, 2006	January 17, 2007	Amendment includes AML enhancement requirements and other revisions to West Virginia's AMLR Plan dated June 16, 2006.

BILLING CODE 4310–05–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Parts 60, 61, and 63

[FRL–8269–6]

Delegation of Authority to the States of Iowa, Missouri and Nebraska for New Source Performance Standards (NSPS), National Emission Standards for Hazardous Air Pollutants (NESHAP); and Maximum Achievable Control Technology (MACT) Standards

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of delegation of authority.

SUMMARY: The states of Iowa, Missouri and Nebraska have submitted updated regulations for delegation of EPA

authority for implementation and enforcement of NSPS, NESHAP, and MACT. The submissions cover new EPA standards and, in some instances, revisions to standards previously delegated. EPA's review of the pertinent regulations shows that they contain adequate and effective procedures for the implementation and enforcement of these Federal standards. This action informs the public of delegations to the above-mentioned agencies.

DATES: This document is effective on January 17, 2007. The dates of delegation can be found in the **SUPPLEMENTARY INFORMATION** section of this document.

ADDRESSES: Copies of documents relative to this action are available for public inspection during normal business hours at the Environmental Protection Agency, Air Planning and Development Branch, 901 North 5th Street, Kansas City, Kansas 66101. The interested persons wanting to examine

these documents should make an appointment with the office at least 24 hours in advance.

Effective immediately, all notifications, applications, reports, and other correspondence required pursuant to the newly delegated standards and revisions identified in this document must be submitted with respect to sources located in the jurisdictions identified in this document, to the following addresses:

Iowa Department of Natural Resources, Air Quality Bureau, 7900 Hickman Road, Urbandale, Iowa 50322

Missouri Department of Natural Resources, Air Pollution Control Program, PO Box 176, Jefferson City, MO 65102–0176

Nebraska Department of Environmental Quality, Air Quality Division, 1200 “N” Street, Suite 400, PO Box 98922, Lincoln, NE 68509

Duplicates of required documents must also continue to be submitted to

the EPA Regional Office at the above address.

FOR FURTHER INFORMATION CONTACT:
Gwen Yoshimura at (913) 551-7073, or by e-mail at yoshimura.gwen@epa.gov.

SUPPLEMENTARY INFORMATION: The supplementary information is organized in the following order:

What does this action do?
What is the authority for delegation?
What does delegation accomplish?
What has been delegated?
What has not been delegated?
List of Delegation Tables

Table I—NSPS, 40 CFR part 60

Table II—NESHAP, 40 CFR part 61

Table III—NESHAP, 40 CFR part 63

What does this action do?

The EPA is providing notice of an update to its delegable authority for implementation and enforcement of the Federal standards shown in the tables below to the states of Iowa, Missouri and Nebraska. This action updates the delegation tables previously published at 70 FR 36515 (June 24, 2005). The EPA has established procedures by which these agencies are automatically delegated the authority to implement the standards when they adopt regulations which are identical to the Federal standards. We then periodically provide notice of the new and revised standards for which delegation has been given.

What is the authority for delegation?

1. Section 111(c)(1) of the Clean Air Act (CAA) authorizes EPA to delegate authority to any state agency which

submits adequate regulatory procedures for implementation and enforcement of the NSPS program. The NSPS are codified at 40 CFR part 60.

2. Section 112(l) of the CAA and 40 CFR part 63, subpart E, authorize the EPA to delegate authority to any state or local agency which submits adequate regulatory procedures for implementation and enforcement of emission standards for hazardous air pollutants. The hazardous air pollutant standards are codified at 40 CFR parts 61 and 63, respectively.

What does delegation accomplish?

Delegation confers primary responsibility for implementation and enforcement of the listed standards to the respective state and local air agencies. However, EPA also retains the concurrent authority to enforce the standards.

What has been delegated?

Tables I, II, and III below list the delegated standards. Each item listed in the Subpart column has two relevant dates listed in each column for each state. The first date in each block is the reference date to the CFR contained in the state rule. In general, the state or local agency has adopted the applicable standard through the date as noted in the table. The second date is the most recent effective date of the state agency rule for which the EPA has granted the delegation. This notice specifically addresses revisions to the columns for Iowa, Missouri, and Nebraska.

What has not been delegated?

1. The EPA regulations effective after the first date specified in each block have not been delegated, and authority for implementation of these regulations is retained solely by EPA.

2. In some cases, the standards themselves specify that specific provisions cannot be delegated. In such cases, a specific section of the standard details what authorities can and cannot be delegated. You should review the applicable standard in the CFR for this information.

3. In some cases, the state rules do not adopt the Federal standard in its entirety. Each state rule (available from the respective agency) should be consulted for specific information.

4. In some cases, existing delegation agreements between the EPA and the agencies limit the scope of the delegated standards. Copies of delegation agreements are available from the state agencies, or from this office.

5. With respect to 40 CFR part 63, subpart A, General Provisions (see Table III), the EPA has determined that sections 63.6(g), 63.6(h)(9), 63.7(e)(2)(ii) and (f), 63.8(f), and 63.10(f) cannot be delegated. Additional information is contained in an EPA memorandum titled “Delegation of 40 CFR Part 63 General Provisions Authorities to State and Local Air Pollution Control Agencies” from John Seitz, Director, Office of Air Quality Planning and Standards, dated July 10, 1998.

Summary of This Action

All sources subject to the requirements of 40 CFR parts 60, 61, and 63 are also subject to the equivalent requirements of the above-mentioned state or local agencies.

This notice informs the public of delegations to the above-mentioned agencies of the above-referenced Federal regulations.

Authority: This notice is issued under the authority of sections 101, 110, 112, and 301 of the CAA, as amended (42 U.S.C. 7401, 7410, 7412, and 7601).

Dated: January 6, 2007.

John B. Askew,

Regional Administrator, Region 7.

BILLING CODE 6560-50-P

DEPARTMENT OF TRANSPORTATION**Federal Railroad Administration****49 CFR Part 219**

[Docket No. 2001-11213, Notice No. 10]

RIN 2130-AA81

**Alcohol and Drug Testing:
Determination of Minimum Random
Testing Rates for 2007**

AGENCY: Federal Railroad Administration (FRA), DOT.

ACTION: Notice of determination.

SUMMARY: Using data from Management Information System annual reports, FRA has determined that the 2005 rail industry random testing positive rates were 0.73 percent for drugs and 0.17 percent for alcohol. Because the industry-wide random drug testing positive rate has remained below 1.0 percent for the last two years, the Federal Railroad Administrator (Administrator) has determined that the minimum annual random drug testing rate for the period January 1, 2007,

through December 31, 2007, will remain at 25 percent of covered railroad employees. In addition, because the industry-wide random alcohol testing violation rate has remained below 0.5 percent for the last two years, the Administrator has determined that the minimum random alcohol testing rate will remain at 10 percent of covered railroad employees for the period January 1, 2007, through December 31, 2007.

DATES: This notice is effective upon publication.

FOR FURTHER INFORMATION CONTACT:

Lamar Allen, Alcohol and Drug Program Manager, Office of Safety Enforcement, Mail Stop 25, Federal Railroad Administration, 1120 Vermont Avenue, NW., Washington, DC 20005 (telephone 202 493-6313); or Kathy Schnakenberg, FRA Alcohol/Drug Program Specialist (telephone 816 561-2714).

SUPPLEMENTARY INFORMATION:**Administrator's Determination of 2007 Minimum Random Drug and Alcohol Testing Rates**

In a final rule published on December 2, 1994 (59 FR 62218), FRA announced that it will set future minimum random drug and alcohol testing rates according to the rail industry's overall positive rate, which is determined using annual railroad drug and alcohol program data taken from FRA's Management Information System. Based on this data, the Administrator publishes a **Federal Register** notice each year, announcing the minimum random drug and alcohol testing rates for the following year. See 49 CFR 219.602, 608.

Under this performance-based system, FRA may lower the minimum random drug testing rate to 25 percent of covered railroad employees whenever the industry-wide random drug positive rate is less than 1.0 percent for two calendar years while testing at a 50 percent minimum rate. For both drugs and alcohol, FRA reserves the right to

consider other factors, such as the number of positives in its post-accident testing program, before deciding whether to lower annual minimum random testing rates. If the industry-wide random drug positive rate is 1.0 percent or higher in any subsequent calendar year, FRA will return the minimum random drug testing rate to 50 percent of covered railroad employees.

If the industry-wide random alcohol violation rate is less than 1.0 percent but greater than 0.5 percent, the minimum random alcohol testing rate will be 25 percent of covered railroad employees. FRA will raise the minimum random rate to 50 percent of covered railroad employees if the industry-wide random alcohol violation rate is 1.0 percent or higher in any subsequent calendar year. FRA may lower the minimum random alcohol testing rate to 10 percent of covered railroad employees whenever the industry-wide violation rate is less than 0.5 percent for two calendar years while testing at a higher rate.

In this notice, FRA announces that the minimum random drug testing rate will remain at 25 percent of covered railroad employees for the period January 1, 2007, through December 31, 2007, because the industry random drug testing positive rate was below 1.0 percent for the last two years (.073 in 2005 and .094 in 2004). The minimum random alcohol testing rate will remain at 10 percent of covered railroad employees for the period January 1, 2007, through December 31, 2007, because the industry-wide violation rate for alcohol has remained below 0.5 percent for the last two years (.017 in 2005 and .018 in 2004). Railroads remain free, as always, to conduct random testing at higher rates.

Issued in Washington, DC on January 9, 2007.

Joseph H. Boardman,

Administrator.
