DEPARTMENT OF TRANSPORTATION

Pipeline and Hazardous Materials Safety Administration

Office of Hazardous Materials Safety; Notice of Applications for Modification of Special Permit.

AGENCY: Pipeline and Hazardous Materials Safety Administration (PHMSA), DOT.

ACTION: List of Applications for Modification of Special Permit.

SUMMARY: In accordance with the procedures governing the application for, and the processing of, special permits from the Department of Transportation's Hazardous Material Regulations (49 CFR part 107, subpart B), notice is hereby given that the Office of Hazardous Materials Safety has

received the application described herein. This notice is abbreviated to expedite docketing and public notice. Because the sections affected, modes of transportation, and the nature of application have been shown in earlier **Federal Register** publications, they are not repeated here. Request of modifications of special permits (e.g., to provide for additional hazardous materials, packaging design changes, additional mode of transportation, etc.) are described in footnotes to the application number. Application numbers with the suffix "M" denote a modification request. There applications have been separated from the new application for special permits to facilitate processing.

DATES: Comments must be received on or before May 4, 2007.

Address Comments to: Record Center, Pipeline and Hazardous Materials Safety Administration, U.S. Department of Transportation, Washington, DC 20590.

Comments should refer to the application number and be submitted in triplicate. If confirmation of receipt of comments is desired, include a self-addressed stamped postcard showing the special permit number.

FOR FURTHER INFORMATION CONTACT:

Copies of the application are available for inspection in the Records Center, Nassif Building, 400 7th Street, SW., Washington, DC or at <http://dms.dot.gov>.

This notice of receipt of applications for modification of special permit is published in accordance with Part 107 of the Federal hazardous materials transportation law (49 U.S.C. 5117(b); 49 CFR 1.53(b)).

Issued in Washington, DC, on April 12, 2007.

Delmer Billings,

Director, Special Permits & Approvals Programs, Office of Hazardous Materials, Special Permits & Approvals.

BILLING CODE 4909–60–M

DEPARTMENT OF TRANSPORTATION

Pipeline and Hazardous Materials Safety Administration

[Docket No. PHMSA—2006—25803]

Pipeline Safety: Grant of Waiver; Kinder Morgan Louisiana Pipeline, LLC

AGENCY: Pipeline and Hazardous Materials Safety Administration (PHMSA); DOT.

ACTION: Notice; Grant of Waiver.

SUMMARY: The Pipeline and Hazardous Materials Safety Administration (PHMSA) is granting Kinder Morgan Louisiana Pipeline, LLC (KMLP) a waiver of compliance from the Federal pipeline safety regulations for a new natural gas transmission pipeline. The regulations establish the maximum stress level and overpressure protection limits for natural gas pipelines.

SUPPLEMENTARY INFORMATION:

Waiver Request

Pipeline Operator: Kinder Morgan Louisiana Pipeline, LLC (KMLP) petitioned PHMSA on August 2, 2006 for a waiver of compliance with the Federal pipeline safety regulations limiting the operating stress levels for Class 1 locations along the Leg 1 segment of the KMLP pipeline in Louisiana. This waiver would allow KMLP to operate a new natural gas transmission pipeline at a maximum allowable operating pressure (MAOP) corresponding to a pipe stress level up to 80 percent of the steel pipe's specified minimum yield strength (SMYS) in rural areas along the pipeline route. SMYS is defined as the level of stress where steel transitions from elastic to plastic deformation. The

current maximum SMYS level allowed on pipelines in Class 1 locations is 72 percent according to 49 CFR 192.111. Because the proposed operating stress level of 80 percent is higher than the upper limit of the required overpressure protection under existing regulations (i.e., 10 percent over MAOP or 75 percent SMYS), KMLP proposes increasing the overpressure protection limit to 104 percent of the pipeline MAOP or 83 percent SMYS. The pipeline MAOP will be 1,440 psig.

Public Notice

On November 22, 2006 PHMSA published notice of this waiver request in the **Federal Register** (71 FR 67704) inviting interested persons to comment on the request. We did not receive any comments for or against this waiver request as a result of this notice. We also requested and received supplemental information from KMLP. The waiver request, **Federal Register** notice, supplemental information from KMLP, and all other pertinent documents are
