## ENVIRONMENTAL PROTECTION AGENCY

### 40 CFR Part 70

[EPA-R09-OAR-2007-0090; FRL-8303-4]

### Clean Air Act Proposed Full Approval of Revisions to the State of Hawaii Operating Permit Program

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** EPA is proposing to approve revisions to the State of Hawaii's ("Hawaii" or "State") operating permit program that amend Hawaii's regulations for insignificant emissions units (IEUs). In an April 1, 2002 Notice of Deficiency published in the **Federal Register**, EPA notified Hawaii of EPA's finding that Hawaii's provisions for IEUs did not meet minimum Federal requirements. Hawaii has revised its program to correct the deficiency identified in the Notice of Deficiency and this action proposes full approval of those revisions.

**DATES:** Written comments must be received by May 21, 2007.

**ADDRESSES:** Submit comments, identified by docket number EPA-R09-OAR-2007-0090, by one of the following methods:

1. *Federal eRulemaking Portal:* [www.regulations.gov](http://www.regulations.gov). Follow the online instructions.

2. *E-mail:* [Rios.Gerardo@epa.gov](mailto:Rios.Gerardo@epa.gov).

3. *Mail or deliver to:* Gerardo Rios, Permits Office Chief, Air Division (AIR-3), EPA Region IX, 75 Hawthorne Street, San Francisco, California 94105.

**Instructions:** All comments will be included in the public docket without change and may be made available online at [www.regulations.gov](http://www.regulations.gov), including any personal information provided, unless the comment includes Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Information that you consider CBI or otherwise protected should be clearly identified as such and should not be submitted through [www.regulations.gov](http://www.regulations.gov) or e-mail. [www.regulations.gov](http://www.regulations.gov) is an "anonymous access" system, and EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send e-mail

directly to EPA, your e-mail address will be automatically captured and included as part of the public comment. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment.

**Docket:** The index to the docket for this action is available electronically at [www.regulations.gov](http://www.regulations.gov) and in hard copy at EPA Region IX, 75 Hawthorne Street, San Francisco, California. While all documents in the docket are listed in the index, some information may be publicly available only at the hard copy location (e.g., copyrighted material), and some may not be publicly available in either location (e.g., CBI). To inspect the hard copy materials, please schedule an appointment during normal business hours with the contact listed in the **FOR FURTHER INFORMATION CONTACT** section.

**FOR FURTHER INFORMATION CONTACT:** Robert Baker, EPA Region IX, at (415) 972-3979, ([Baker.Robert@epa.gov](mailto:Baker.Robert@epa.gov)).

**SUPPLEMENTARY INFORMATION:** This proposal addresses revisions to the following local rule, 11-60.1-82(e), in State of Hawaii operating permits program. In the Rules and Regulations section of this **Federal Register**, we are approving the revision in direct final action without prior proposal because we believe the revisions made to the program to resolve the Notice of Deficiency are not controversial. If we receive adverse comments, however, we will publish a timely withdrawal of the direct final rule and address the comments in a subsequent action based on this proposed rule. Please note that if we receive adverse comment on an amendment, paragraph, or section of this rule, we may adopt as final those provisions of the revision that are not the subject of the adverse comment.

We do not plan to open a second comment period, so anyone interested in commenting should do so at this time. If we do not receive adverse comments, no further activity is planned. For further information, please see the direct final action.

Dated: April 4, 2007.

**Jane Diamond,**

*Acting Regional Administrator, Region IX.*

## DEPARTMENT OF HOMELAND SECURITY

### Federal Emergency Management Agency

#### 44 CFR Part 67

[Docket No. FEMA-B-7714]

### Proposed Flood Elevation Determinations

**AGENCY:** Federal Emergency Management Agency, DHS.

**ACTION:** Proposed rule.

**SUMMARY:** Technical information or comments are requested on the proposed Base (1% annual chance) Flood Elevations (BFEs) and proposed BFEs modifications for the communities listed below. The BFEs are the basis for the floodplain management measures that the community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

**DATES:** The comment period is ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in each community.

**ADDRESSES:** The proposed BFEs for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the table below.

**FOR FURTHER INFORMATION CONTACT:** William R. Blanton, Jr., Engineering Management Section, Mitigation Division, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646-3151.

**SUPPLEMENTARY INFORMATION:** The Federal Emergency Management Agency (FEMA) proposes to make determinations of BFEs and modified BFEs for each community listed below, in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed BFEs and modified BFEs, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own, or pursuant to policies established by other Federal, State or regional entities. These proposed elevations are used to meet

the floodplain management requirements of the NFIP and are also used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in these buildings.

*National Environmental Policy Act.* This proposed rule is categorically excluded from the requirements of 44 CFR part 10, Environmental Consideration. An environmental impact assessment has not been prepared.

*Regulatory Flexibility Act.* As flood elevation determinations are not within the scope of the Regulatory Flexibility Act, 5 U.S.C. 601–612, a regulatory flexibility analysis is not required.

*Regulatory Classification.* This proposed rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

*Executive Order 13132, Federalism.* This proposed rule involves no policies that have federalism implications under Executive Order 13132.

*Executive Order 12988, Civil Justice Reform.* This proposed rule meets the applicable standards of Executive Order 12988.

#### List of Subjects in 44 CFR Part 67

Administrative practice and procedure, Flood insurance, Reporting and recordkeeping requirements.

Accordingly, 44 CFR part 67 is proposed to be amended as follows:

#### PART 67—[AMENDED]

1. The authority citation for part 67 continues to read as follows:

**Authority:** 42 U.S.C. 4001 *et seq.*; Reorganization Plan No. 3 of 1978, 3 CFR, 1978 Comp., p. 329; E.O. 12127, 44 FR 19367, 3 CFR, 1979 Comp., p. 376.

#### § 67.4 [Amended]

2. The tables published under the authority of § 67.4 are proposed to be amended as follows:

State	City/town/county	Source of flooding	Location	#Depth in feet above ground. *Elevation in feet (NGVD) +Elevation in feet (NAVD)	
				Existing	Modified
Kaycee, Wyoming					
WY .....	Town of Kaycee ....	North Fork Powder River ..	Approximately 5,150 feet downstream from Highway 196—at the downstream corporate limits of Kaycee, Wyoming.	None	+4639
			Approximately 180 feet downstream from I-25 North—at the upstream corporate limits of Kaycee, Wyoming.	None	+4656

\*National Geodetic Vertical Datum.

+North American Vertical Datum.

#Depth in feet above ground.

##### Endangered and Threatened Species; Proposed Endangered Status for the Cook Inlet Beluga Whale

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Proposed rule; request for comments.

**SUMMARY:** We, NMFS, have completed a comprehensive status review of the Cook Inlet population of beluga whale

(*Delphinapterus leucas*) under the Endangered Species Act (ESA). Based on the findings from the status review and consideration of the factors affecting this species, we have concluded the Cook Inlet beluga whale constitutes a distinct population segment (DPS) that is in danger of extinction throughout its range. Accordingly, we are now issuing a proposed rule to list the Cook Inlet beluga whale DPS as an endangered species. We are soliciting information on issues relevant to the listing of the Cook Inlet beluga whale DPS under the ESA. Although we are not proposing to designate critical habitat at this time, we are also soliciting information on essential physical and biological features of Cook Inlet beluga whale habitat.

**DATES:** Comments on this proposed rule must be received by close of business on June 19, 2007. Requests for public
