Title: Financial Information Security Request Form.

OMB Number: 0596-0204.

Expiration Date of Approval: 9/30/2007.

Type of Request: Extension of a currently approved collection.

Abstract: The majority of the Forest Service's financial records are in databases stored at the National Finance Center (NFC). The Forest Service uses employees and contractors to maintain these financial records. The employees and contractors must have access to NFC to perform their duties.

The Forest Service uses an electronic form, FS-6500-214—Financial Information Security Request, to apply to NFC for access for a specific employee or contractor. Due to program management decisions and budget constraints, it has been determined that contractors will need to complete and submit the form. No Forest Service employees are available to complete and submit the form requesting contractor access to NFC.

The contractor and the Forest Service Lotus Notes Database provide the information necessary to complete form FS-6500-214. The contractor verifies completion of two courses within the last year: Privacy Act Basics and IT (Information Technology) Security. The contractor then enters the Lotus Notes short name assigned by the Forest Service. Using the Lotus Notes short name, the screen is populated with information that the contractor can change if incorrect: Name, work email, work telephone number, and job title. The contractor checks the box for a nonfederal employee and provides the expiration date of the contract. The contractor then selects the databases and actions needed. Based on the database(s) selected, the contractor provides additional information regarding the financial systems, work location, access scope, etc. Once the form is submitted to the client security officer, a one-page agreement automatically prints, which the contractor and client security officer sign. The agreement is a certification statement that acknowledges the contractor's recognition of the sensitive nature of the information and agrees to use the information only for authorized purposes. The information collected is shared with those managing or overseeing the financial systems used by the Forest Service, this includes auditors.

Type of Respondents: Contracted employees.

Estimated Annual Number of Respondents: 50.

SUPPLEMENTARY INFORMATION:

Background

On March 20, 2007, the Department published its final results of the twelfth administrative review for CORE from Korea for the period from August 1, 2004, through July 31, 2005. See *Notice of Final Results of the Twelfth Administrative Review of the Antidumping Duty Order on Certain Corrosion-Resistant Carbon Steel Flat Products from the Republic of Korea*, 72 FR 13086 (March 20, 2007) (*Final Results*), and accompanying Issues and Decision Memorandum from Stephen J. Claeys, Deputy Assistant Secretary for Import Administration, to David M. Spooner, Assistant Secretary for Import Administration.

On March 20, 2007, pursuant to 19 CFR 351.224(c), United States Steel Corporation (U.S. Steel) submitted comments alleging a ministerial error, and requesting that the Department correct this alleged ministerial error. Specifically, U.S. Steel alleged that the Department failed to use Union's actual weight-based gross unit price in calculating the dumping margin.
