

production and handling operations, producers and handlers should be able to use them in their operations as soon as possible. A 7-day period for interested persons to comment on this rule is provided. Interested persons have already been provided with 30 days of public comment on these 38 substances in advance of the NOSB meetings held May 6–8, 2002 and March 27–29, 2007. The NOSB considered these comments during their reviews and concluded that the petitioners had provided sufficient evidence for adding these 38 substances to the National List. Since many producers, handlers and certifying agents may have misinterpreted National List regulations § 205.606 to mean that any non-organic agricultural product that was not commercially available in organic form could be used in organic products without being individually listed on the National List, these 38 substances currently are being used in organic products. These 38 substances will be prohibited for use in organic products beginning June 9, 2007, unless they are added to the National List. Loss of the use of any of these products would disrupt the trade of food products currently being labeled as “organic”. Therefore, the continued allowed use of these products as ingredients in foods labeled as “organic” is necessary to prevent possible significant business disruption for organic producers and handlers. AMS believes that a 7-day period for interested persons to comment on this proposed rule is appropriate.

#### **Drawbridge Operation Regulations; Little River (S–20) Bridge, Atlantic Intracoastal Waterway Mile 347.3, Horry County, SC**

**AGENCY:** Coast Guard, DHS.

**ACTION:** Notice of proposed rulemaking; withdrawal.

**SUMMARY:** The Coast Guard is withdrawing its notice of proposed rulemaking concerning the proposed change to the regulation of the Little River (S–20) Bridge. The requested change was to place a twenty minute regulation on the bridge in lieu of “on demand”. The withdrawal is based on limited vessel openings, comments received from the public, and the addition of a new high level fixed bridge within close proximity of the draw bridge which should help alleviate traffic congestion.

**DATES:** The notice of proposed rulemaking is withdrawn on May 15, 2007.

**FOR FURTHER INFORMATION CONTACT:** Mr. Barry Dragon, Project Officer, Seventh Coast Guard District, Bridge Branch, at (305) 415-6743.

**SUPPLEMENTARY INFORMATION:**

**Background**

On April 3, 2006, we published a notice of proposed rulemaking entitled "Drawbridge Operation Regulations; Little River (S-20) Bridge, Atlantic Intracoastal Waterway Mile 347.3, Horry County, SC" in the **Federal Register** (71 FR 16527). The rulemaking concerned changing the current "on demand" schedule to an on the hour, twenty minutes past the hour and forty minutes pass the hour schedule.

**Withdrawal**

A new high level fixed bridge was constructed within close proximity of the moveable bridge, thereby providing an alternative for existing traffic and allowing for a reduction of vehicular traffic on the moveable bridge. The Little-River Bridge crosses the Atlantic Intracoastal Waterway and has an average of fewer than two openings per hour. Additionally, all of the comments received during the comment period of the notice of proposed rulemaking were in favor of keeping the current "on demand" schedule.

**Authority:** This action is taken under the authority of 33 U.S.C. 499; Department of Homeland Security Delegation No. 0170.1; 33 CFR 1.05-1(g); section 117.255 also issued under the authority of Pub. L. 102-587, 106 Stat. 5039.

**ENVIRONMENTAL PROTECTION AGENCY**

**40 CFR Parts 52 and 81**

**[EPA-R03-OAR-2006-0840; FRL-8314-2]**

**Approval and Promulgation of Air Quality Implementation Plans; Pennsylvania; Redesignation of the Lancaster 8-Hour Ozone Nonattainment Area to Attainment and Approval of the Associated Maintenance Plan and 2002 Base-Year Inventory**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** EPA is proposing to approve a redesignation request and State Implementation Plan (SIP) revisions submitted by the Commonwealth of Pennsylvania. The Pennsylvania Department of Environmental Protection (PADEP) is requesting that the Lancaster ozone nonattainment area ("Lancaster Area" or "Area") be redesignated as attainment for the 8-hour ozone national ambient air quality standard (NAAQS). The Area is comprised of Lancaster County, Pennsylvania. EPA is proposing to approve the ozone redesignation request for the Lancaster Area. In conjunction with its redesignation request, the Commonwealth submitted a SIP revision consisting of a maintenance plan for the Lancaster Area that provides for continued attainment of the 8-hour ozone NAAQS for 11 years after redesignation. EPA is proposing to make a determination that the Lancaster Area has attained the 8-hour ozone NAAQS, based upon three years of complete, quality-assured ambient air quality monitoring data for 2003-2005. EPA's proposed approval of the 8-hour ozone redesignation request is based on its determination that the Lancaster Area has met the criteria for redesignation to attainment specified in the Clean Air Act (CAA). In addition, the Commonwealth of Pennsylvania has also submitted a 2002 base-year inventory for the Lancaster Area, and EPA is proposing to approve that inventory for the Lancaster Area as a SIP revision. EPA is also providing information on the status of its adequacy determination for the motor vehicle emission budgets (MVEBs) that are identified in the maintenance plan for the Lancaster Area for purposes of transportation conformity, and is also proposing to approve those MVEBs. EPA is proposing approval of the redesignation request and of the maintenance plan and 2002 base-year

inventory SIP revisions in accordance with the requirements of the CAA.
