

and restructuring of its forces in order to sustain the broad range of operations required for national and global stability.

The PEIS is being prepared to comply with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321 *et seq.*) and meet Army NEPA procedures, which are outlined in Environmental Analysis of Army Actions (32 CFR part 651). These regulations require the Army to consider the environmental impacts of its proposed action and alternatives and to solicit the views of the public so it can make an informed final decision regarding how to proceed.

Proposed alternatives to grow the Army could involve three primary action depending on the installation being analyzed. These actions include the construction of housing and quality of life facilities (i.e., schools, gymnasiums, hospitals), the construction of new training ranges and infrastructure, and changes in the intensity of use of maneuver land and firing ranges associated with the increased frequency of training events. Evaluations will include strategic military and national security considerations for new stationing actions at locations which, if selected, are capable of supporting the National Security Strategy (2006), the QDR (2006), National Military Strategy, and the Army Campaign Plan. These strategic guidance documents have been incorporated into the Army's decision-making process. All of these individual components will be considered in the Army's PEIS for growth of the force in order to ensure a range of reasonable alternatives are carried forward which support the Nation's security requirements.

Based on public scoping and the factors discussed above, the Army will refine its range of reasonable alternatives to the extent possible to accommodate both mission requirements and quality of life considerations. In reaching its decision, the Army will assess and consider public concerns. The PEIS compares the direct, indirect, and cumulative environmental effects that may result from stationing actions connected with initiatives to grow the Army. The primary environmental issues to be analyzed will include those identified as the result of the scoping process and installation-specific considerations. These issues may include impacts to soil, water and air quality, airspace conflicts, natural and cultural resources, land use compatibility, noise, socioeconomics, environmental justice, energy use, human health and safety

considerations, and infrastructure and range/training requirements.

Scoping and Public Comment: All interested members of the public, federally-recognized Indian Tribes, Native Alaskans, Native Hawaiian groups, federal, state, and local agencies are invited to participate in the scoping process for the preparation of the PEIS. Written comments identifying environmental issues, concerns and opportunities to be analyzed in the PEIS will be accepted for 30 days following publication of this Notice of Intent in the **Federal Register**. Comments may be sent to Mr. Robert E. DiMichele at the above address.

Dated: May 11, 2007.

*Deputy Assistant Secretary of the Army,
(Environment, Safety, and Occupational Health).*

Caledonia Energy Partners, L.L.C. Notice of Proposed Changes in FERC Gas Tariff

May 9, 2007.

Take notice that on May 7, 2007, Caledonia Energy Partners, L.L.C. (Caledonia) tendered for filing as part of its FERC Gas Tariff, Original Volume No. 1, the following tariff sheets, with an effective date of June 7, 2007:

First Revised Sheet No. 19.
Original Sheet No. 19A.
First Revised Sheet No. 24.
First Revised Sheet No. 50.
Original Sheet No. 50A.
First Revised Sheet No. 70.

Caledonia states that the purpose of this filing is to submit substitute tariff sheets that will implement changes to its effective FERC Gas Tariff which Caledonia initially proposed to make to the pro forma tariff that was incorporated into its application for a certificate of public convenience and necessity under section 7 of the Natural Gas Act. Because Caledonia has commenced operations pursuant to Commission authorization, it now has an effective tariff. Consequently, Caledonia believes that any changes should be proposed to that tariff rather than the pro forma tariff. Caledonia

proposes June 7, 2007 as the effective date of its proposed tariff sheets.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed in accordance with the provisions of Section 154.210 of the Commission's regulations (18 CFR 154.210). Anyone filing an intervention or protest must serve a copy of that document on the Applicant. Anyone filing an intervention or protest on or before the intervention or protest date need not serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>.
