

DEPARTMENT OF AGRICULTURE**Submission for OMB Review;
Comment Request**

May 16, 2007.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments regarding (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), OIRA_Submission@OMB.EOP.GOV or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling (202) 720-8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Animal and Plant Health Inspection Service

Title: U.S. Origin Health Certificate.
OMB Control Number: 0579-0020.

Summary of Collection: As part of its mission to facilitate the export of U.S. animals and products, the U.S. Department of Agriculture, Animal and Plant Health Inspection Service (APHIS), Veterinary Services (VS), maintains information regarding the import health requirements of other countries for animals and animal

products exported from the United States. Most countries require a certification that the animals are disease free. The VS form 17-140, U.S. Origin Health Certificate, is used to meet these requirements. The form is authorized by 21 U.S.C. 112.

Need and Use of the Information: The U.S. Origin Health Certificate is used in connection with the exportation of animals to foreign countries and is completed and authorized by APHIS veterinarian. The information collected is used to: (1) Establish that the animals are moved in compliance with USDA regulations, (2) verify that the animals destined for export are listed on the health certificate by means of an official identification, (3) verify to the consignor and consignee that the animals are healthy, (4) prevent unhealthy animals from being exported and (5) satisfy the import requirements of receiving countries. The collection of this information helps to prevent unhealthy animals from being exported from the United States. If these certifications were not provided, other countries would not accept animals from the United States.

Description of Respondents: Farms; Business or other for-profit.

Number of Respondents: 3,067.

Frequency of Responses:

Recordkeeping; Reporting: On occasion.

Total Burden Hours: 30,024.

Animal and Plant Health Inspection Service

Title: Interstate Movement of Certain Tortoises.

OMB Control Number: 0579-0156.

Summary of Collection: The Animal and Plant Health Inspection Service (APHIS) regulates the importation and interstate movement of certain animals and animal products to prevent the introduction into or dissemination within the United States of pests and diseases of livestock. The regulations in 9 CFR part 93 prohibit the importation of the leopard tortoise, the African spurred tortoise, and the Bell's hingeback tortoise to prevent the introduction and spread of exotic ticks known to be vectors of heartwater disease, an acute, infectious disease of cattle and other ruminants. The regulations in 9 CFR part 74 prohibit the interstate movement of those tortoises that are already in the United States unless the tortoises are accompanied by a health certificate or certificate of veterinary inspection.

Need and Use of the Information: APHIS will collect information to ensure that the interstate movement of these tortoises poses no risk of spreading exotic ticks within the United

States. The collected information is used for the purposes of identifying each specific tortoise and documenting the State of its health so that the animals can be transported across State and national boundaries. If the information is not collected APHIS would be forced to continue their complete ban on the interstate movement of leopard, African spurred, and Bell's hingeback tortoises, a situation that could prove economically disastrous for a number of U.S. tortoises breeders..

Description of Respondents:

Individuals or households; State, Local or Tribal Government.

Number of Respondents: 150.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 249.

Ruth Brown,

Departmental Information Collection Clearance Officer.

BILLING CODE 3410-34-P

DEPARTMENT OF AGRICULTURE**Forest Service****Navy Timber Sale Environmental Impact Statement**

AGENCY: Forest Service, USDA.

ACTION: Revised Notice of Intent to prepare an Environmental Impact Statement.

SUMMARY: This NOI revises information supplied in the NOI previously published in the **Federal Register** Vol. 71, No. 14 (pages 3454-3455) on January 23, 2006. The Department of Agriculture, Forest Service, will prepare an Environmental Impact Statement (EIS) on a proposal to harvest timber in the Navy Timber Sale project area on the Wrangell Ranger District, Tongass National Forest. The Proposed Action is to harvest 54 million board feet of sawtimber and 7.7 million board feet of utility from approximately 4,700 acres in one or more offerings and would construct approximately 17 miles of National Forest System road and 16 miles of temporary road to facilitate access for logging. The Proposed Action includes harvest units and road construction within Inventoried Roadless Areas, as identified in the Forest Plan SEIS. The Proposed Action includes the use of the existing Log Transfer Facility (LTF) at Anita Bay as well as the construction of a new LTF at the entrance to Burnett Inlet near Navy Creek. The Proposed Action includes a non-significant amendment to the Forest Plan to modify the

boundaries of the Burnett, Anita Bay, Mosman and Quiet small old-growth reserves. The Forest Supervisor will decide if and how much timber harvest and road building will occur within the project area, as well as modify the existing small old-growth reserves. The decision will be documented in a Record of Decision based on the information disclosed in the EIS.

DATES: A public mailing outlining the project timeline and public involvement opportunities (Schedule of Proposed Actions) was distributed quarterly from January 2006 to April 2007. Additional opportunities for comment will be provided after release of the Draft Environmental Impact Statement (DEIS). The DEIS is projected to be filed with the Environmental Protection Agency (EPA) in Fall 2007 and will begin a 45-day comment period. The Final Environmental Impact Statement (FEIS) and Record of Decision are anticipated to be published in Spring 2008.

ADDRESSES: Please send written comments to Wrangell Ranger District, Attn: Navy EIS, PO Box 51, Wrangell, AK 99929. Electronic comments can be e-mailed to comments-alaska-tongass-wrangell@fs.fed.us. Please include the word "Navy" in the subject line.

FOR FURTHER INFORMATION CONTACT: Jamie Roberts, Planning Team Leader, or Mark Hummel, District Ranger, Wrangell Ranger District, P.O. Box 51, Wrangell, AK 99929, telephone (907) 874-2323.

SUPPLEMENTARY INFORMATION: The Navy project area is located on central Etolin Island approximately 22 air miles southwest of Wrangell, Alaska. The project area is within portions of Value Comparison Units #464, 465, 466, 467 and 468. Portions of three Inventoried Roadless Areas, North Etolin #232, Mosman #233 and South Etolin #234, as identified in the Forest Plan SEIS, are located within the project area. Timber harvest and road building is proposed within the Inventoried Roadless Areas. The project area includes four small old-growth reserves (Mosman, Quiet, Anita Bay and Burnett) as designated in the Forest Plan. A Forest Plan amendment would be required if a decision is made to modify any old-growth reserve. The Forest Supervisor will decide if and how much timber harvest and road building will occur within the project areas, as well as whether to modify the existing small old-growth reserves. The decision will be based on the information that is disclosed in the EIS. The Forest Supervisor will consider comments, responses, the disclosure of environmental effects, and applicable

laws, regulations, and policies in making the decision. The rationale for the decision will be included in the Record of Decision.

Purpose and Need for Action: The purpose and need for the Navy Timber Sale is: (1) To manage suitable lands to achieve 1997 Forest Plan goals and objectives in order to reach the desired future conditions prescribed for the Land Use Designations; (2) to assist in providing a continuous wood supply to meet society's needs; (3) and to contribute to the job market and the overall economy of southeast Alaska.

Public Participation: Public participation has been an integral component of the study process and will continue to be especially important at several points during the analysis. The Forest Service will continue to seek information, comments and assistance from tribal governments, federal, state and local agencies, individuals and organizations that may be interested in or affected by the proposed activities. Written scoping comments have been solicited through a scoping package that was sent to persons on the project mailing list in November 2005. Additional written scoping comments have been solicited through a scoping package that was sent to persons on the project mailing list concurrent with the publication of the initial NOI in January 2006. Subsistence hearings, as provided for in Title VIII, Section 810 of the Alaska National Interest Lands Conservation Act (ANILCA), will be provided, if necessary, during the comment period on the DEIS.

Electronic Filing Address: Electronic comments can be e mailed to comments-alaska-tongass-wrangell@fs.fed.us. Please include the word "Navy" in the subject line.

Issues: Based on the comments received from the public and resource specialists the issues identified for analysis in the EIS include: (1) The effect of timber harvest on the local and regional economies; (2) the effect of the location of small Old-growth Reserves on wildlife habitat; (3) the effect of habitat fragmentation, due to harvest and road building, on wildlife habitat; (4) the effect of timber harvest and road construction on Inventories Roadless Areas and unroaded areas; (5) and effects to aquatic resources and from increased access in the Navy Drainage due to timber harvest, road construction and LTF construction.

Range of Alternatives: The range of alternatives that are being developed to respond to the significant issues, besides no action, range from 18-98 million board feet.

Draft Environmental Impact Statement: A Draft Environmental Impact Statement (DEIS) will be prepared for comment. The comment period on the DEIS will be 45 days from the date the Environmental Protection Agency publishes the Notices of Availability in the **Federal Register**. The Forest Service believes, at this early stage, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of Draft Environmental Impact Statements must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553 (1978). Also, environmental objections that could be raised at the DEIS stage but that are not raised until after completion of the Final Environmental Impact Statement (FEIS) may be waived or dismissed by the courts. *City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th Cir. 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the comment period so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the FEIS. To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the DEIS should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the DEIS or the merits of the alternatives formulated and discussed in the statement. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points. Comments received, including the names and addresses of those who comment, will be considered part of the public record on this proposal and will be available for public inspection.

Responsible Official: Forrest Cole, Forest Supervisor, Tongass National Forest, Federal Building, Ketchikan, Alaska 99901, is the responsible official. The responsible official will consider comments, responses, the disclosure of environmental effects, and applicable laws, regulations, and policies in

making the decision. The rationale for the decision will be included in the Record of Decision.

(Authority: 40 CFR 1501.7 and 1508.22; Forest Service Handbook 1909.15, Section 21)

Dated: May 14, 2007.

Forrest Cole,

Forest Supervisor.

BILLING CODE 3410-11-M

DEPARTMENT OF COMMERCE

Bureau of Industry and Security

Deemed Export Advisory Committee; Notice To Solicit Meeting Speakers and Presentations

The Deemed Export Advisory Committee (DEAC), which advises the Secretary of Commerce on deemed export licensing policy, will meet on Tuesday, June 19, 2007 from approximately 8:30 a.m. to 12:30 p.m. The DEAC is a Federal Advisory Committee that was established under the auspices of the Federal Advisory Committee Act, as amended, 5 U.S.C. app. 2. The meeting location will be Boston, MA, with exact details to be announced in a subsequent Federal Register Notice. At this time, the Department of Commerce, Bureau of Industry and Security (BIS), would like to solicit stakeholders from industry, academia and other backgrounds to address the DEAC members on June 19 in an open session on issues related to deemed exports and, in particular, their organizations' perspectives and concerns related to U.S. deemed export control policies. Stakeholders are those individuals or organizations who have some experience in or knowledge of export control regulations and policies, who must apply these rules in the course of normal business or whose operations are directly impacted by those export regulations and policies mandated by the U.S. government. BIS seeks to have an equal number of presenters from industry, academia, and other backgrounds. There may be up to three presenters from each group and speaking time may be limited to 10 minutes or less per speaker depending on the number of interested parties. Speakers may be selected on the basis of one or more of the following criteria (not in any order of importance): (1) Demonstrated experience in and knowledge of export control regulations; (2) demonstrated ability to provide DEAC members with relevant information related to deemed export

policies and issues; (3) the degree to which the organization is impacted by the U.S. Government's export policies and regulations; and (4) industry area or academic type of institution represented. BIS reserves the right to limit the number of participants based on time considerations. For planning purposes, BIS requests that (1) that interested parties inform BIS of their commitment, via e-mail or telephone call, to address the DEAC no later than 5 p.m. EST May 30, 2007, as well as provide a brief outline of the topics to be discussed by this same deadline; and, (2) that once interested parties receive confirmation of their participation at the meeting, they provide either an electronic or paper copy of any prepared remarks/presentations no later than 5 p.m. EST June 12, 2007. Interested parties may contact Ms. Yvette Springer at Yspringer@bis.doc.gov or (202) 482-2813. The purpose of this solicitation is only to accept speakers for the June 19, 2007 DEAC meeting. However, all members of the public may submit written comments to BIS at any time for the DEAC's consideration.

Dated: May 16, 2007.

Yvette Springer,

Committee Liaison Officer.

International Trade Administration

[A-570-806]

Silicon Metal From the People's Republic of China: Preliminary Results of the 2005/2006 New Shipper Reviews

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce ("the Department") is currently conducting the 2005/2006 new shipper reviews of the antidumping duty order on silicon metal from the People's Republic of China ("PRC"). We preliminarily determine that sales have been made below normal value ("NV") with respect to certain exporters and that certain exporters are entitled to a separate rate in the new shipper reviews. If these preliminary results are adopted in our final results of these reviews, we will instruct U.S. Customs and Border Protection ("CBP") to assess antidumping duties on entries of subject merchandise during the period of review ("POR") for which the importer-specific assessment rates are above *de minimis*.

Interested parties are invited to comment on these preliminary results. We will issue the final results no later than 120 days from the date of publication of this notice.

EFFECTIVE DATE: May 21, 2007.

FOR FURTHER INFORMATION CONTACT: Scot Fullerton or Christopher Riker, AD/CVD Operations, Office 9, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-1386 or (202) 482-3441, respectively.

SUPPLEMENTARY INFORMATION:

Background

The Department received timely requests from Shanghai Jinneng International Trade Co., Ltd. ("Shanghai Jinneng") and Jiangxi Gangyuan Silicon Industry Co., Ltd. ("Jiangxi Gangyuan") on June 23, 2006, pursuant to section 751(a)(2)(B) the Tariff Act of 1930, as amended ("the Act"), and in accordance with 19 CFR 351.214(c), for new shipper reviews of the antidumping duty order on silicon metal from the PRC. *See Antidumping Duty Order: Silicon Metal From the People's Republic of China*, 56 FR 26649 (June 10, 1991).

On June 2, 2006, the Department published a notice of opportunity to request an administrative review of the antidumping duty order on silicon metal from the PRC. *See Notice of Opportunity to Request Administrative Review of Antidumping or Countervailing Duty Order, Finding, or Suspended Investigation*, 71 FR 32032 (June 2, 2006).

On July 25, 2006, the Department initiated new shipper reviews of Shanghai Jinneng and Jiangxi Gangyuan covering the period June 1, 2005, through May 31, 2006. *See Silicon Metal From the People's Republic of China: Initiation of Antidumping Duty New Shipper Reviews*, 71 FR 42084 (July 25, 2006).

On December 21, 2006, the Department extended the deadline for the preliminary results of the new shipper reviews until May 14, 2007. *See Notice of Extension of the Preliminary Results of New Shipper Antidumping Duty Reviews: Silicon Metal from the People's Republic of China*, 71 FR 76637 (December 21, 2006).

Scope of Order

The product covered by the order and this review is silicon metal containing at least 96.00 but less than 99.99 percent of silicon by weight, and silicon metal with a higher aluminum content containing between 89 and 96 percent
