

limit, July 3, 2007, is impracticable because the Department must analyze complex issues regarding Ivaco Rolling Mills 2004 L.P.'s and Sivaco Ontario's corporate structures, their affiliations and corporate relationships, levels of trade, and cost of production. Because it is not practicable to complete the review within the time specified under the Act, in accordance with section 751(a)(3)(A) of the Act, the Department is extending the time limit for completion of the preliminary results by 120 days to October 31, 2007. The deadline for the final results of this administrative review continues to be 120 days after the publication of the preliminary results.

We are issuing and publishing this notice in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: May 16, 2007.

Stephen J. Claeys,

Deputy Assistant Secretary for Import Administration.

Certain Hot-Rolled Carbon Steel Flat Products from the Netherlands; Final Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On December 11, 2006, we published in the **Federal Register** the preliminary results of this administrative review. *See Certain Hot-Rolled Carbon Steel Flat Products from the Netherlands; Preliminary Results of Antidumping Duty Administrative Review*, 71 FR 71523 (December 11, 2006) (*Preliminary Results*). This review covers imports of subject merchandise from Corus Staal BV (Corus Staal) to the United States during the period November 1, 2004, to October 31, 2005. Based on our analysis of the comments received, we have made changes to the margin calculation. However, the final results do not differ from the preliminary results. The final weighted-average dumping margin for the reviewed firm is listed below in the section entitled "Final Results of Review."

EFFECTIVE DATE: May 22, 2007.

FOR FURTHER INFORMATION CONTACT:

David Cordell or Robert James, AD/CVD Operations, Office 7, Import

Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230, telephone: (202) 482-0409 or (202) 482-0649, respectively.

SUPPLEMENTARY INFORMATION:

Background

On December 11, 2006, we published in the **Federal Register** the preliminary results of this administrative review. *See Preliminary Results*. In response to the Department's invitation to comment on the preliminary results of this review, Corus (respondent) and domestic interested party Mittal Steel USA Inc. (Mittal Steel) filed case briefs on January 17, 2007. Corus, Mittal Steel and petitioner United States Steel Corporation (U.S. Steel) submitted rebuttal briefs on January 24, 2007, and on January 25, 2007, domestic interested party Nucor Corporation (Nucor) filed a rebuttal brief. On March 23, 2007, the Department extended the final results by 35 days. *See Certain Hot-Rolled Carbon Steel Flat Products from the Netherlands; Antidumping Duty Administrative Review; Extension of Time Limit*, 72 FR 13744 (March 23, 2007).

On May 4, 2007, Corus submitted a request for the Department to rescind the review in light of the Department's *Final Results for the Section 129 Determination: Certain Hot-rolled Carbon Steel from the Netherlands* (April 9, 2007) and the U.S. Trade Representative's instructions to the Department to implement those findings under Section 129 of the Uruguay Round Agreements Act. *See Implementation of the Findings of the WTO Panel in US-Zeroing (EC): Notice of Determinations under Section 129 of the Uruguay Agreements Act and Revocations and Partial Revocations of Certain Antidumping Duty Orders*, 72 FR 25, 261 (May 4, 2007). On May 11, 2007, Mittal Steel and Nucor submitted responses to Corus Staal's request. The request for rescission is well past the deadline for such requests and furthermore Corus Staal itself did not request the review, thus making it ineligible to request rescission. *See* 19 CFR 351.213(d)(1). Corus' arguments regarding the section 129 determination are addressed in the Issues and Decisions Memorandum, (Decision Memorandum) which accompanies this Notice, at issue 4.

Period of Review

The period of review (POR) is November 1, 2004, to October 31, 2005.

Scope of the Order

For purposes of this order, the products covered are certain hot-rolled carbon steel flat products of a rectangular shape, of a width of 0.5 inch or greater, neither clad, plated, nor coated with metal and whether or not painted, varnished, or coated with plastics or other non-metallic substances, in coils (whether or not in successively superimposed layers), regardless of thickness, and in straight lengths, of a thickness of less than 4.75 mm and of a width measuring at least 10 times the thickness. Universal mill plate (*i.e.*, flat-rolled products rolled on four faces or in a closed box pass, of a width exceeding 150 mm, but not exceeding 1250 mm, and of a thickness of not less than 4.0 mm, not in coils and without patterns in relief) of a thickness not less than 4.0 mm is not included within the scope of the order.

Specifically included within the scope of this order are vacuum degassed, fully stabilized (commonly referred to as interstitial-free (IF)) steels, high strength low alloy (HSLA) steels, and the substrate for motor lamination steels. IF steels are recognized as low carbon steels with micro-alloying levels of elements such as titanium or niobium (also commonly referred to as columbium), or both, added to stabilize carbon and nitrogen elements. HSLA steels are recognized as steels with micro-alloying levels of elements such as chromium, copper, niobium, vanadium, and molybdenum. The substrate for motor lamination steels contains micro-alloying levels of elements such as silicon and aluminum.

Steel products to be included in the scope of this order, regardless of definitions in the Harmonized Tariff Schedule of the United States (HTS), are products in which: (i) iron predominates, by weight, over each of the other contained elements; (ii) the carbon content is 2 percent or less, by weight; and (iii) none of the elements listed below exceeds the quantity, by weight, respectively indicated:

- 1.80 percent of manganese, or
- 2.25 percent of silicon, or
- 1.00 percent of copper, or
- 0.50 percent of aluminum, or
- 1.25 percent of chromium, or
- 0.30 percent of cobalt, or
- 0.40 percent of lead, or
- 1.25 percent of nickel, or
- 0.30 percent of tungsten, or
- 0.10 percent of molybdenum, or
- 0.10 percent of niobium, or
- 0.15 percent of vanadium, or
- 0.15 percent of zirconium.

All products that meet the physical and chemical description provided

above are within the scope of this order unless otherwise excluded. The following products, by way of example, are outside or specifically excluded from the scope of this order:

- Alloy hot-rolled steel products in which at least one of the chemical elements exceeds those listed above (including, *e.g.*, ASTM specifications A543, A387, A514, A517, A506).
- Society of Automotive Engineers (SAE)/American Iron and Steel Institute (AISI) grades of series 2300 and higher.
- Ball bearings steels, as defined in the HTS.
- Tool steels, as defined in the HTS.
- Silico-manganese (as defined in the HTS) or silicon electrical steel with a silicon level exceeding 2.25 percent.
- ASTM specifications A710 and A736.
- USS Abrasion-resistant steels (USS AR 400, USS AR 500).
- All products (proprietary or otherwise) based on an alloy ASTM specification (sample specifications: ASTM A506, A507).
- Non-rectangular shapes, not in coils, which are the result of having been processed by cutting or stamping and which have assumed the character of articles or products classified outside chapter 72 of the HTS.

The merchandise subject to this order is classified in the HTS at subheadings:

7208.10.15.00, 7208.10.30.00, 7208.10.60.00, 7208.25.30.00, 7208.25.60.00, 7208.26.00.30, 7208.26.00.60, 7208.27.00.30, 7208.27.00.60, 7208.36.00.30, 7208.36.00.60, 7208.37.00.30, 7208.37.00.60, 7208.38.00.15, 7208.38.00.30, 7208.38.00.90, 7208.39.00.15, 7208.39.00.30, 7208.39.00.90, 7208.40.60.30, 7208.40.60.60, 7208.53.00.00, 7208.54.00.00, 7208.90.00.00, 7211.14.00.90, 7211.19.15.00, 7211.19.20.00, 7211.19.30.00, 7211.19.45.00, 7211.19.60.00, 7211.19.75.30, 7211.19.75.60, and 7211.19.75.90. Certain hot-rolled flat-rolled carbon steel flat products covered by this order, including: vacuum degassed fully stabilized; high strength low alloy; and the substrate for motor lamination steel may also enter under the following tariff numbers: 7225.11.00.00, 7225.19.00.00, 7225.30.30.50, 7225.30.70.00, 7225.40.70.00, 7225.99.00.90, 7226.11.10.00, 7226.11.90.30, 7226.11.90.60, 7226.19.10.00, 7226.19.90.00, 7226.91.50.00, 7226.91.70.00, 7226.91.80.00, and

7226.99.00.00. Subject merchandise may also enter under 7210.70.30.00, 7210.90.90.00, 7211.14.00.30, 7212.40.10.00, 7212.40.50.00, and 7212.50.00.00. Although the HTS subheadings are provided for convenience and U.S. Customs purposes, the written description of the scope of this order is dispositive.

Analysis of Comments Received

All issues raised in the case and rebuttal briefs by parties to this administrative review are addressed in the Decision Memorandum from Stephen J. Claeys, Deputy Assistant Secretary for AD/CVD Operations, to David M. Spooner, Assistant Secretary for Import Administration, dated May 15, 2007, which is hereby adopted by this notice. A list of the issues which parties have raised and to which we have responded, all of which are in the Decision Memorandum, is attached to this notice as an appendix. Parties can find a complete discussion of all issues raised in this review and the corresponding recommendations in this public memorandum, which is on file in the Central Records Unit, room B-099 of the main Department building. In addition, a complete version of the Decision Memorandum can be accessed directly via the Internet at www.ia.ita.doc.gov. The paper copy and electronic version of the Decision Memorandum are identical in content.

Duty Absorption

In the *Preliminary Results*, the Department found that Corus Staal absorbed antidumping duties on all U.S. sales in accordance with section 751(a)(4) of the Tariff Act of 1930, as amended (the Tariff Act). Corus Staal has failed to provide evidence that the unaffiliated customers in the United States will pay the full duty ultimately assessed on the subject merchandise. See Comment 6 of the Issues and Decisions Memorandum. Thus, for the final results of this review, we continue to find that Corus Staal absorbed antidumping duties.

Changes Since the Preliminary Results

Based on our analysis of the comments received, we have made the following changes to the margin calculation:

- We corrected a clerical error that erroneously compared U.S. control numbers to comparison market product codes.
- We corrected a clerical error involving the CEP profit rate. These changes are discussed in the relevant sections of the Decision Memorandum.

Final Results of Review

We determine that the following weighted-average percentage margin exists for the period November 1, 2004, to October 31, 2005:

Manufacturer/Exporter	Weighted Average Margin (percentage)
Corus Staal BV	2.52

Assessment

The Department shall determine, and the CBP shall assess, antidumping duties on all appropriate entries. In accordance with 19 CFR 351.212(b)(1), we have calculated importer-specific assessment rates for the merchandise based on the ratio of the total amount of antidumping duties calculated for the examined sales made during the POR to the total customs value of the sales used to calculate those duties. The Department will issue appropriate *ad valorem* assessment instructions directly to CBP 15 days after publication of these final results of review. We will direct CBP to assess the resulting assessment rate against the entered customs values for the subject merchandise on each of the importer's entries during the POR.

Cash Deposit Requirements

On May 4, 2007, the Department published a FR notice that, *inter alia*, revoked this order, effective April 23, 2007. See *Implementation of the Findings of the WTO Panel in US – Zeroing (EC): Notice of Determinations Under Section 129 of the Uruguay Round Agreements Act and Revocations and Partial Revocations of Certain Antidumping Duty Orders*, 72 FR 25,261 (May 4, 2007). Therefore, there is no need to issue new cash deposit instructions for this administrative review.

Notification to Interested Parties

This notice also serves as a final reminder to importers of their responsibility under 19 C.F.R. § 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of the antidumping duties occurred and the subsequent assessment of double antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective orders (APOs) of their responsibility concerning the disposition of proprietary information

disclosed under APO in accordance with 19 C.F.R. § 351.305, that continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This determination is issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: May 15, 2007.

David M. Spooner,

Assistant Secretary for Import Administration.

Appendix – Issues in Decision Memorandum

1. Simplified Reporting and Further–Manufactured Imports
2. G&A expenses
3. Constructed Export Price (CEP) Profit Rate
4. Offsetting Dumped Sales with Non–Dumped Sales
5. Classification of JIT Deliveries as CEP Sales
6. Duty Absorption
7. Warranty Expenses
8. Clerical Errors

BILLING CODE 3510–DS–S

DEPARTMENT OF COMMERCE

National Institute of Standards and Technology

Notice of Prospective Grant of Exclusive Patent License

AGENCY: National Institute of Standards and Technology, Commerce.

SUMMARY: This is a notice in accordance with 35 U.S.C. 209(c)(1) and 37 CFR 404.7(a)(1)(i) that the National Institute of Standards and Technology (“NIST”), U.S. Department of Commerce, is contemplating the grant of an exclusive license in the United States of America, its territories, possessions and commonwealths, to NIST’s interest in the invention embodied in U.S. Patent No. 5,620,857 (Application No. 08/473,979), titled “Optical Trap for Detection and Quantitation of Subzeptomolar Quantities of Analytes,” NIST Docket No. 94–042US to Haemonetics Corporation, having a place of business at 400 Wood Road, Braintree, Massachusetts 02184–9114. The grant of the license would be for the field of use: Chemical and biological material sensing and measurement for medical diagnostics.

FOR FURTHER INFORMATION CONTACT: J. Terry Lynch, National Institute of Standards and Technology, Office of Technology Partnerships, 100 Bureau Drive, Stop 2200, Gaithersburg, MD 20899, Phone 301–975–2691.

SUPPLEMENTARY INFORMATION: The prospective exclusive license will be royalty bearing and will comply with the terms and conditions of 35 U.S.C. 209 and 37 CFR 404.7. The prospective exclusive license may be granted unless, within thirty days from the date of this published Notice, NIST receives written evidence and argument which establish that the grant of the license would not be consistent with the requirements of 35 U.S.C. 209 and 37 CFR 404.7. The availability of the invention for licensing was published in the **Federal Register** on June 24, 2003.

U.S. Patent No. 5,620,857 is owned by the U.S. government, as represented by the Secretary of Commerce. Tightly focused beams of laser light are used as “optical tweezers” to trap and manipulate polarizable objects such as microspheres of glass or latex with diameters on the order of 4.5 .mu.m. When analytes are allowed to adhere to the microspheres, small quantities of these analytes can be manipulated, thus allowing their detection and quantitation even when amounts and concentrations of the analytes are extremely small. Illustrative examples include measuring the strength needed to break antibody-antigen bonds and the detection of DNA sequences.

Dated: May 16, 2007.

James M. Turner,

Deputy Director.

BILLING CODE 3510–13–P

DEPARTMENT OF COMMERCE

National Institute of Standards and Technology

[Docket No.: 070427102–7103–01]

Request for Technical Input—Standards in Trade Workshops

AGENCY: National Institute of Standards and Technology, Commerce.

ACTION: Request for workshop recommendations.

SUMMARY: The National Institute of Standards and Technology (NIST) invites interested parties to submit recommendations for workshops covering specific sectors and targeted countries or regions of the world where training in the U.S. system of standards development, conformity assessment,

and metrology may facilitate trade. Prospective workshops will be scheduled for a one week period. This notice is not an invitation for proposals to fund grants, contracts or cooperative agreements of any kind. NIST will offer a limited number of workshops, based upon the availability of resources. Recommenders are encouraged to consider Administration priorities outlined in the 2006 National Export Strategy. NIST will consider recommendations based upon which workshops would be most useful to intended audiences.

DATES: All recommendations must be submitted no later than 5 p.m., June 21, 2007.

ADDRESSES: All recommendations must be submitted to Ellen Emard via e-mail(ellen.emard@nist.gov) or by mail to 100 Bureau Drive, Mail Stop 2100, Gaithersburg, MD 20899. The National Export Strategy is available at <http://www.ita.doc.gov/media/publications/>. Additional information about the NIST Standards in Trade Workshops, including schedules and summary reports for workshops held to date and participant information, is available at <http://ts.nist.gov/standards/global/sitdescr.cfm>.

FOR FURTHER INFORMATION CONTACT: Ellen Emard (301) 975–4038, ellen.emard@nist.gov.

SUPPLEMENTARY INFORMATION: The Standards in Trade Workshops are a major activity of the Global Standards and Information Group in the NIST Standards Services Division. The workshops are designed to provide timely information to foreign standards officials on U.S. practices in standards and conformity assessment. Participants are introduced to U.S. technology and principles in metrology, standards development and application, and conformity assessment systems and procedures.

Each workshop is a one week program offering an overview of the roles of the U.S. Government, private sector, and regional and international organizations engaged in standards development and conformity assessment practices. Specific workshop objectives are to: (1) Familiarize participants with U.S. technology and practices in metrology, standardization, and conformity assessment; (2) describe and understand the roles of the U.S. Government and the private sector in developing and implementing standards; (3) understand the structure of the standards and conformity assessment systems in the invited country or countries and the role and responsibilities of organizations
