

conducting these programs, EPA is tailoring its public participation process to be commensurate with the level of risk, extent of use, complexity of issues, and degree of public concern associated with each pesticide. Due to its uses, risks, and other factors, rotenone was reviewed through the modified 4-Phase process. Through this process, EPA worked extensively with stakeholders and the public to reach the regulatory decisions for rotenone.

The reregistration program is being conducted under Congressionally mandated time frames, and EPA recognizes the need both to make timely decisions and to involve the public. The Agency is issuing the rotenone RED for public comment. This comment period is intended to provide an additional opportunity for public input and a mechanism for initiating any necessary amendments to the RED. All comments should be submitted using the methods in **ADDRESSES**, and must be received by EPA on or before the closing date. These comments will become part of the Agency Docket for rotenone. Comments received after the close of the comment period will be marked "late." EPA is not required to consider these late comments.

The Agency will carefully consider all comments received by the closing date and will provide a Response to Comments Memorandum in the Docket and regulations.gov. If any comment significantly affects the document, EPA also will publish an amendment to the RED in the **Federal Register**. In the absence of substantive comments requiring changes, the rotenone RED will be implemented as it is now presented.

B. What is the Agency's Authority for Taking this Action?

Section 4(g)(2) of FIFRA as amended directs that, after submission of all data concerning a pesticide active ingredient, the Administrator shall determine whether pesticides containing such active ingredient are eligible for reregistration, before calling in product specific data on individual end-use products and either reregistering products or taking other "appropriate regulatory action."

An agency may not conduct or sponsor a collection of information unless it displays a current valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid

control number. Comments are requested concerning: (a) Whether the proposed collections of information are necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written PRA comments should be submitted on or before June 22, 2007. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Jasmeet Sehra, Office of Management and Budget (OMB), Room 10236 NEOB, 725 17th Street, NW., Washington, DC 20503, or via fax at (202) 395-5167 or via Internet at Jasmeet_K._Seehra@omb.eop.gov, and to Cathy Williams, Federal Communications Commission, Room 1-C823, 445 12th Street, SW., Washington, DC 20554, or via the Internet to PRA@fcc.gov. SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-XXXX.
Title: Section 76.41, Franchise Application Process.

Form Number: Not applicable.
Type of Review: New collection.
Respondents: State, local or tribal government.

Number of Respondents: 6,006.
Estimated Time per Response: 0.5 hours-4 hours.

Frequency of Response: On occasion reporting requirement.

Total Annual Burden: 54,000 hours.
Total Annual Cost: None.

Privacy Impact Assessment: No impact(s).

Nature of Response: Required to obtain or retain benefits

Confidentiality: No need for confidentiality required.

Needs and Uses: The Commission has assessed the effects of the application filing requirements used to calculate the

time frame in which a local franchising authority shall make a decision, and find that those requirements will benefit companies with fewer than 25 employees by providing such companies with specific application requirements of a reasonable length. The new requirements serve to streamline the existing practice of franchise negotiation and review. Therefore, we believe that the new requirements will reduce burdens on companies with fewer than 25 employees. We anticipate this specificity will streamline this process for companies with fewer than 25 employees, and that these requirements will not burden these companies.

Federal Communications Commission.
