

The Commission now announces that it is submitting to the Office of Management and Budget (OMB) a request for extension of approval of that collection of information.

These regulations were issued to reduce hazards of strangulation, suffocation, pinching, bruising, laceration, and other injuries associated with non-full-size cribs. The regulations prescribe performance, design, and labeling requirements for non-full-size cribs. They also require manufacturers and importers of those products to maintain sales records for a period of three years after the manufacture or importation of non-full-size cribs. If any non-full-size cribs subject to provisions of 16 CFR 1500.18(a)(14) and part 1509 fail to comply in a manner severe enough to warrant a recall, the required records can be used by the manufacturer or importer and by the Commission to identify those persons and firms who should be notified of the recall. OMB previously approved the collection of information under control number 3041-0012. OMB's most recent extension of approval will expire on September 30, 2007.

CONSUMER PRODUCT SAFETY COMMISSION

Notification of Request for Extension of Approval of Information Collection Requirements—Safety Standard for Bicycle Helmets

AGENCY: Consumer Product Safety Commission.

ACTION: Notice.

SUMMARY: In the February 12, 2007 *Federal Register* (72 FR 6535), the Consumer Product Safety Commission (CPSC or Commission) published a notice in accordance with provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) to announce the agency's intention to seek an extension of approval of the collection of information in the safety standard for bicycle helmets (16 CFR part 1203). These regulations establish testing and recordkeeping requirements for manufacturers and importers of bicycle helmets subject to the standard. No comments were received in response to the notice. The Commission now announces that it is submitting to the Office of Management and Budget (OMB) a request for extension of approval of that collection of information for a period of three years from the date of approval.

SUPPLEMENTARY INFORMATION: In 1994, Congress passed the "Child Safety Protection Act," which, among other things, included the "Children's Bicycle Helmet Safety Act of 1994" (Pub. L. 103-267, 108 Stat. 726). This law directed the Commission to issue a final standard applicable to bicycle helmets

that would replace several existing voluntary standards with a single uniform standard that would include provisions to protect against the risk of helmets coming off the heads of bicycle riders, address the risk of injury to children, and cover other issues as appropriate. The Commission issued the final bicycle helmet standard in 1998. It is codified at 16 CFR part 1203.

The standard requires all bicycle helmets manufactured after March 10, 1999, to meet impact-attenuation and other requirements. The standard also contains testing and recordkeeping requirements to ensure that bicycle helmets meet the standard's requirements. Certification regulations implementing the standard require manufacturers, importers, and private labelers of bicycle helmets subject to the standard to (1) Perform tests to demonstrate that those products meet the requirements of the standard, (2) maintain records of those tests, and (3) affix permanent labels to the helmets stating that the helmet complies with the applicable standard. The certification regulations are codified at 16 CFR part 1203, Subpart B.

The Commission uses the information compiled and maintained by manufacturers, importers, and private labelers of bicycle helmets subject to the standard to help protect the public from risks of injury or death due to head injury associated with bicycle riding. More specifically, this information helps the Commission determine whether bicycle helmets subject to the standard comply with all applicable requirements. The Commission also uses this information to obtain corrective actions if bicycle helmets fail to comply with the standard in a manner that creates a substantial risk of injury to the public. OMB previously approved the collection of information under control number 3041-0127. OMB's most recent extension of approval will expire on October 31, 2007.

Notification of Request for Extension of Approval of Information Collection Requirements—Recordkeeping Requirements Under the Safety Regulations for Full-Size Cribs

AGENCY: Consumer Product Safety Commission.

ACTION: Notice.

SUMMARY: In the February 12, 2007 **Federal Register** (72 FR 6533), the Consumer Product Safety Commission (CPSC or Commission) published a notice in accordance with provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) to announce the agency's intention to seek an extension of approval of information collection requirements in the safety regulations for full-size cribs. 16 CFR 1500.18(a)(13) and part 1508. Joint comments in

support of the information collection were submitted by the Consumer Federation of America, Consumers Union, Kids in Danger and Keeping Babies Safe, Inc. Commentors state that the ability of the Commission to better communicate news of recalls to retailers and individuals is critical to removing potentially dangerous cribs and the continued collection of information may assist in that effort. The Commission now announces that it is submitting to the Office of Management and Budget (OMB) a request for extension of approval of that collection of information.

These regulations were issued to reduce hazards of strangulation, suffocation, pinching, bruising, laceration, and other injuries associated with full-size cribs.
