Commission**

[Docket No. IC07-515-000; FERC-515]

**Commission Information Collection
Activities, Proposed Collection;
Comment Request; Extension**

May 30, 2007.

AGENCY: Federal Energy Regulatory
Commission.

ACTION: Notice.

SUMMARY: In compliance with the
requirements of section 3506(c)(2)(a) of
the Paperwork Reduction Act of 1995
(Pub. L. No. 104-13), the Federal Energy
Regulatory Commission (Commission) is
soliciting public comment on the
specific aspects of the information
collection described below.

DATES: Comments on the collection of
information are due August 9, 2007.

ADDRESSES: Copies of sample filings of
the proposed collection of information
can be obtained from the Commission's
Web site (<http://www.ferc.gov/docs-filings/elibrary.asp>) or from the Federal
Energy Regulatory Commission, Attn:
Michael Miller, Office of the Executive
Director, ED-34, 888 First Street NE.,
Washington, DC 20426. Comments may
be filed either in paper format or
electronically. Those parties filing
electronically do not need to make a
paper filing. For paper filing, the
original and 14 copies of such
comments should be submitted to the
Secretary of the Commission, Federal
Energy Regulatory Commission, 888
First Street, NE., Washington, DC 20426
and refer to Docket No. IC07-515-000.
Documents filed electronically via the
Internet must be prepared in
WordPerfect, MS Word, Portable
Document Format, or ASCII format. To
file the document, access the
Commission's Web site at <http://www.ferc.gov>
and click on "Make an e-
Filing" and then follow the instructions
for each screen. First time users will
have to establish a user name and
password. The Commission will send an
automatic acknowledgement to the

sender's e-mail address upon receipt of
comments.

All comments may be viewed, printed
or downloaded remotely via the Internet
through FERC's homepage using the
eLibrary link. For user assistance,
contact FERConlinesupport@ferc.gov or
toll-free at (866) 208-3676 or for TTY,
contact (202) 502-8659.

FOR FURTHER INFORMATION CONTACT:

Michael Miller may be reached by
telephone at (202) 502-8415, by fax at
(202) 273-0873, and by e-mail at
michael.miller@ferc.gov.

SUPPLEMENTARY INFORMATION:

The
information collected under the
requirements of FERC-515
"Hydropower Licensing: Declaration of
Intention" (OMB No. 1902-0079) is
used by the Commission to implement
the statutory provisions of Part I,
Sections 23(b) of the Federal Power Act
16 U.S.C. 817. Section 23(b) authorized
the Commission to make a
determination as to whether it has
jurisdiction over a proposed
hydroelectric project. Section 23(b) also
requires that any person intending to
construct project works on a navigable
commerce clause water must file a
declaration of their intention with the
Commission. If the Commission finds
the proposed project will have an
impact on "interstate or foreign
commerce", then the person intending
to construct the project must obtain a
Commission license or exemption
before starting construction. Such sites
are generally on streams defined as U.S.
navigation waters, and over which the
Commission has jurisdiction under its
authority to regulate foreign and
interstate commerce. The information is
collected in the form of a written
application, declaring the applicant's
intent and used by Commission staff to
research the jurisdictional aspects of the
project. This research includes
examining maps and land ownership
records to establish whether or not there
is Federal jurisdiction over the lands
and waters affected by the project. A
finding of non-jurisdictional by the
Commission eliminates a substantial
paperwork burden for the applicant who
might otherwise have to file for a license
or exemption application. The
Commission implements these filing
requirements in the Code of Federal
Regulations (CFR) under 18 CFR part 24.

Action: The Commission is requesting
a three-year extension of the current
expiration date, with no changes to the
existing collection of data.

Burden Statement: Public reporting
burden for this collection is estimated
as:

Number of respondents annually (1)	Number of responses per respondent (2)	Average burden hours per response (3)	Total annual burden hours (1)×(2)×(3)
10	1	80 hours	800 hours.

The estimated total cost to respondents is \$46,976 (800 hours divided by 2,080 hours per employee per year times \$122,137 per year average salary per employee. The cost per respondent = \$4,698.

The reporting burden includes the total time, effort, or financial resources expended to generate, maintain, retain, disclose, or provide the information including: (1) Reviewing instructions; (2) developing, acquiring, installing, and utilizing technology and systems for the purposes of collecting, validating, verifying, processing, maintaining, disclosing and providing information; (3) adjusting the existing ways to comply with any previously applicable instructions and requirements; (4) training personnel to respond to a collection of information; (5) searching data sources; (6) completing and reviewing the collection of information; and (7) transmitting, or otherwise disclosing the information.

The estimate of cost for respondents is based upon salaries for professional and clerical support, as well as direct and indirect overhead costs. Direct costs include all costs directly attributable to providing this information, such as administrative costs and the cost for information technology. Indirect or overhead costs are costs incurred by an organization in support of its mission. These costs apply to activities which benefit the whole organization rather than any one particular function or activity.

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology

e.g. permitting electronic submission of responses.

Kimberly D. Bose,

Secretary.

SUPPLEMENTARY INFORMATION: The information collected under the requirements of FERC-511 "Application for Transfer of License" (OMB No. 1902-0069) is used by the Commission to implement the statutory provisions of section 4(e) and 8 of the Federal Power Act (FPA) (16 U.S.C. 792-828c.). Section 4(e) authorizes the Commission to issue licenses for the construction, operation and maintenance of reservoirs, powerhouses and transmissions lines or other facilities necessary for development and improvement of navigation and for the development, transmission, and utilization of power from bodies of water Congress has jurisdiction over. Section 8 of the FPA provides that the voluntary transfer of any license can only be made with the written approval of the Commission. Any successor to the licensee may assign the rights of the original licensee but is subject to all of the conditions of the license. The information filed with the Commission is a mandatory requirement contained in the format of a written application for transfer of license, executed jointly by the parties of the proposed transfer. The transfer of a license may be occasioned by the sale or merger of a licensed hydroelectric project. It is used by the Commission's staff to determine the qualifications of the proposed transferee to hold the license, and to prepare the transfer of the license order. The Commission implements these filing requirements in the Code of Federal Regulations (CFR) under 18 CFR part 9.

Action: The Commission is requesting a three-year extension of the current
