

Corporation and Hebei Wuxin Metals & Minerals Trading Co., Ltd. (collectively, "Hebei Metals") filed a lawsuit with the CIT challenging the Department's Final Determination. Hebei Metals challenged the surrogate coal value, the surrogate steel-pallet value, and the exclusion of certain items in the calculation of the surrogate financial ratios. On September 11, 2003, the CIT issued on behalf of Hebei Metals, an injunction enjoining the Department from issuing instructions to liquidate entries of lawn and garden steel fence posts from the PRC. See *Hebei Metals & Minerals Import & Export Corporation, et. al. v. United States*, Court No. 03-00442 (September 11, 2003).

On July 19, 2004, the CIT first remanded this case to the Department to address three aspects of the Department's antidumping duties calculation in the *Final Determination*: (1) the use of an Indian import price, based on Indian Import Statistics, rather than an Indian domestic price, based on Tata Energy Research Institute's Energy Data Directory & Yearbook ("Teri Data") for the surrogate value for coal, (2) the inclusion of a Swedish import value in the surrogate value for steel-pallet packing material, and (3) exclusion of internal consumption from raw material expenditures in the calculation of surrogate ratios for selling, general, and administrative ("SG&A") expenses and profit. See *Hebei Metals & Minerals Import & Export Corporation, et. al. v. United States*, Slip Op. 04-88 (CIT July 19, 2004) ("First Remand").

On October 20, 2004, the Department issued the *Final Results of Redetermination Pursuant to Remand, Hebei Metals & Minerals Imp. & Exp. Corp. And Hebei Wuxin Metals & Minerals Trading Co., Ltd. v. United States* (October 20, 2004) ("First Remand Redetermination") in the above-referenced investigation pursuant to the CIT's remand order on July 19, 2004. In its redetermination the Department (1) concluded that substantial evidence indicated that the use of the Indian import prices for the surrogate value of coal yielded a more accurate surrogate value than the domestic coal value on the record; (2) pursuant to the Court's instructions, excluded the Swedish import value from the calculation of the surrogate value for steel pallets; and (3) concluded that substantial record evidence demonstrated the significance of internal consumption, and its removal from the denominator increased the accuracy of the ratios.

On March 10, 2005, the CIT issued a second remand. See *Hebei Metals & Minerals Import & Export Corporation*

and *Hebei Wuxin Metals & Minerals Trading Co., Ltd. v. United States*, Slip Op. 05-32 (CIT March 10, 2005) ("Second Remand"). In the Second Remand, the CIT determined that (1) the Department's selection of a surrogate coal value was arbitrary and unsupported by substantial evidence and, therefore, remanded this issue to the Department for reconsideration; (2) the Department had adequately complied with the CIT's instructions to exclude a Swedish import value from the calculation of the surrogate value for steel pallets and, therefore, the issue was no longer before the Court; and (3) the Department provided a reasonable explanation as to why it is not appropriate to remove any amounts from the numerators of the SG&A and factory overhead surrogate financial ratios and, therefore, sustained the Department's determination. *Id.*

On July 20, 2005, the Department issued its *Second Remand Redetermination*. In its second redetermination, the Department determined that the Teri Data, placed on the record by Hebei Metals, was the best source of data for the selection of a surrogate value for coal in this proceeding because it was complete and comprehensive in that it covers all sales of all types of coal made by Coal India Limited and its subsidiaries and because it was exclusive of duties and taxes. On September 22, 2005, the CIT sustained the Department's *Second Remand Redetermination*. See *Court Decision in Hebei Metals*, Slip Op. 05-126. The CIT's final judgment was not in harmony with the Department's *Final Determination*. No party appealed the CIT's decision. As there is now a final and conclusive court decision in this case, we are amending our *Final Determination*.

Amended Final Determination

As the litigation in this case has concluded, the Department is amending the *Final Determination*. The revised dumping margin in the amended final determination is as follows:

Exporter	Margin
Hebei Metals & Minerals Import & Export Corporation	6.49 percent

The PRC-wide rate continues to be 15.61 percent as determined in the Department's *Final Determination*. Within five business days of publication of this notice, the Department will issue instructions to U.S. Customs and Border Protection ("CBP") to revise the cash deposit rates for the company listed

above, effective as of the publication date of this notice. Because Hebei Metals received a preliminary injunction, we will also instruct CBP to liquidate all entries, for which no review was requested, at the new cash deposit rate.

This notice is published in accordance with sections 735(d) and 777(i) of the Tariff Act of 1930, as amended.

Dated: June 8, 2007.

David M. Spooner,

Assistant Secretary for Import Administration

National Oceanic and Atmospheric Administration

RIN 0648-XA69

Schedules for Atlantic Shark Identification Workshops and Protected Species Safe Handling, Release, and Identification Workshops

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public workshops.

SUMMARY: NMFS announces Atlantic Shark Identification Workshops and Protected Species Safe Handling, Release, and Identification Workshops to be held in July, August, and September of 2007. Fishermen and shark dealers are required to attend a workshop to meet new regulatory requirements and maintain valid permits. The Atlantic Shark Identification Workshops are mandatory for all federally permitted Atlantic shark dealers. The Protected Species Safe Handling, Release, and Identification Workshops are mandatory for vessel owners and operators who use bottom longline, pelagic longline, or gillnet gear, and have also been issued shark or swordfish limited access permits. Additional free workshops will be held throughout 2007.

DATES: The Atlantic Shark Identification Workshop will be held July 12, August 9, and September 6, 2007.

The Protected Species Safe Handling, Release, and Identification Workshop will be held July 3, 10, 17, 25, August 1, 16, 30, and September 5, 11, 19, 2007. See **SUPPLEMENTARY INFORMATION** for further details.

ADDRESSES: The Atlantic Shark Identification Workshop will be held in

Vero Beach, FL; Westwego, LA; and, Greenville, NC.

The Protected Species Safe Handling, Release, and Identification Workshop will be held in North Charleston, SC; Panama City, FL; Daytona Beach, FL; Tampa, FL; Dedham, MA; Portsmouth, VA; Kenner, LA; Ronkonkoma, NY; Port Saint Lucie, FL; and, Manahawkin, NJ. See **SUPPLEMENTARY INFORMATION** for further details on workshop locations.

The workshop schedules, registration information, and a list of frequently asked questions regarding these workshops are posted on the internet at: <http://www.nmfs.noaa.gov/sfa/hms/workshops/>.

FOR FURTHER INFORMATION CONTACT: Greg Fairclough by phone:(727) 824-5399, or by fax: (727) 824-5398.

SUPPLEMENTARY INFORMATION:

Atlantic Shark Identification Workshop

Effective December 31, 2007, an Atlantic shark dealer may not receive, purchase, trade, or barter for Atlantic shark unless a valid Atlantic Shark Identification workshop certificate is on the premises of each business listed under the shark dealer permit (71 FR 58057; October 2, 2006). Dealers who attend and successfully complete a workshop will be issued a certificate for each place of business that is permitted to receive sharks.

Dealers may send a proxy to a Atlantic Shark Identification Workshop, however, if a dealer opts to send a proxy, the dealer must designate a proxy for each place of business covered by the dealer's permit. Only one certificate will be issued to each proxy. A proxy must be a person who: is currently employed by a place of business covered by the dealer's permit; is a primary participant in the identification, weighing, and/or first receipt of fish as they are offloaded from a vessel; and fills out dealer reports. Additionally, after December 31, 2007, an Atlantic shark dealer may not renew a Federal shark dealer permit unless valid Atlantic Shark Identification Workshop certificates for each business location have been submitted with the permit renewal application.

Workshop Dates, Times, And Locations

1. July 12, 2007, from 9 a.m. – 3 p.m. Leisure Square – TUFF Room; Vero Beach Recreation Dept. *, 3705 16th Street, Vero Beach, FL 32960. *This activity is not sponsored by the City of Vero Beach.

2. August 9, 2007, from 9:30 a.m. – 3 p.m. Jefferson Parish Public Library – Westwego Branch, 635 4th Street, Westwego, LA 70094.

3. September 6, 2007, from 9 a.m. – 3 p.m. Walter L. Stasavich Science and Nature Center, 1000 Mumford Road, Greenville, NC 27858.

Registration

To register for a scheduled Atlantic Shark Identification Workshop, please contact Eric Sander by email at esander@peoplepc.com or by phone at (386) 852-8588.

Registration Materials

To ensure that workshop certificates are linked to the correct permits, participants will need to bring the following items with them to the workshop:

Atlantic shark dealer permit holders must bring proof that the individual is an agent of the business (such as articles of incorporation), a copy of the applicable permit, and proof of identification.

Atlantic shark dealer proxies must bring documentation from the shark dealer acknowledging that the proxy is attending the workshop on behalf of the Atlantic shark dealer, a copy of the appropriate permit, and proof of identification.

Workshop Objectives

The Atlantic Shark Identification Workshops are designed to reduce the number of unknown and improperly identified sharks reported in the dealer reporting form and increase the accuracy of species-specific dealer-reported information. Reducing the number of unknown and improperly identified sharks will improve quota monitoring and the data used in stock assessments. These workshops will train shark dealer permit holders or their proxies to properly identify Atlantic shark carcasses.

Protected Species Safe Handling, Release, and Identification Workshop

Effective January 1, 2007, shark limited access and swordfish limited access permit holders must submit a copy of their Protected Species Safe Handling, Release, and Identification Workshop certificate in order to renew either permit (71 FR 58057; October 2, 2006). As such, vessel owners whose permits expire in mid-2007 must attend one of the free workshops offered in July, August, or September 2007. New shark and swordfish limited access permit applicants must attend a Protected Species Safe Handling, Release, and Identification Workshop and must submit a copy of their workshop certificate before such permits will be issued.

In addition to certifying permit holders, all longline and gillnet vessel operators fishing on a vessel issued a limited access swordfish or limited access shark permit are required to attend the Protected Species Safe Handling, Release, and Identification workshops. Vessels that have been issued a limited access swordfish or limited access shark permit may not fish unless both the vessel owner and operator have valid workshop certificates. Vessel operators must possess on board the vessel valid workshop certificates for both the vessel owner and the operator at all times.

Workshop Dates, Times, And Locations

1. July 3, 2007, from 9 a.m. – 5 p.m. Holiday Inn, 5264 International BLVD., North Charleston, SC 29407.

2. July 10, 2007, from 9 a.m. – 5 p.m. Holiday Inn Select, 2001 Martin Luther King Jr. BLVD., Panama City, FL 32405.

3. July 17, 2007, from 9 a.m. – 5 p.m. Hilton Garden Inn, 189 Midway Avenue, Daytona Beach, FL 32114.

4. July 25, 2007, from 9 a.m. – 5 p.m. Hilton Garden Inn, 10309 Highland Manor Drive, Tampa, FL 33610.

5. August 1, 2007, from 9 a.m. – 5 p.m. Holiday Inn, 55 Ariadne Road, Dedham, MA 02026.

6. August 16, 2007, from 9 a.m. – 5 p.m. Hawthorn Hotel and Suites, 506 Dinwiddie Street, Portsmouth, VA 23704.

7. August 30, 2007, from 9 a.m. – 5 p.m. Hilton New Orleans Airport, 901 Airline Drive, Kenner, LA 70062.

8. September 5, 2007, from 9 a.m. – 5 p.m. Hilton Garden Inn, 3485 Veterans Memorial Highway, Ronkonkoma, NY 11779.

9. September 11, 2007, from 9 a.m. – 5 p.m. Holiday Inn, 10120 S. Federal Highway, Port Saint Lucie, FL 34952.

10. September 19, 2007, from 9 a.m. – 5 p.m. Holiday Inn, 151 Route 72 East, Manahawkin, NJ 08050.

Registration

To register for a scheduled Protected Species Safe Handling, Release, and Identification Workshop, please contact Aquatic Release Conservation ((877) 411-4272), 1870 Mason Ave., Daytona Beach, FL 32117.

Registration Materials

To ensure that workshop certificates are linked to the correct permits, participants will need to bring the following items with them to the workshop:

Individual vessel owners must bring a copy of the appropriate permit(s), a copy of the vessel registration or documentation, and proof of identification.

Representatives of a business owned or co-owned vessel must bring proof that the individual is an agent of the business (such as articles of incorporation), a copy of the applicable permit(s), and proof of identification.

Vessel operators must bring proof of identification.

Workshop Objectives

The Protected Species Safe Handling, Release, and Identification Workshops are designed to teach longline and gillnet fishermen the required techniques for the safe handling and release of entangled and/or hooked protected species, such as sea turtles, marine mammals, and smalltooth sawfish. Identification of protected species will also be taught at these workshops in an effort to improve reporting. Additionally, individuals attending these workshops will gain a better understanding of the requirements for participating in these fisheries. The overall goal for these workshops is to provide participants the skills needed to reduce the mortality of protected species, which may prevent additional regulations on these fisheries in the future.

Grandfathered Permit Holders

Participants in the industry-sponsored workshops on safe handling and release of sea turtles that were held in Orlando, FL (April 8, 2005) and in New Orleans, LA (June 27, 2005) were issued a NOAA workshop certificate in December 2006 that is valid for three years. Grandfathered permit holders must include a copy of this certificate when renewing limited access shark and limited access swordfish permits each year. Failure to provide a valid NOAA workshop certificate may result in a permit denial. Authority: 16 U.S.C. 971 *et seq.* and 1801 *et seq.*

Dated: June 7, 2007.

James P. Burgess,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-S

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Announcement of Weeks Bay National Estuarine Research Reserve Revised Management Plan Including a Boundary Expansion

AGENCY: Estuarine Reserves Division, Office of Ocean and Coastal Resource Management, National Ocean Service,

National Oceanic and Atmospheric Administration, U.S. Department of Commerce.

ACTION: Notice of Approval and Availability of the Final Revised Management Plan for the Weeks Bay National Estuarine Research Reserve.

SUMMARY: Notice is hereby given that the Estuarine Reserves Division, Office of Ocean and Coastal Resource Management, National Ocean Service, National Oceanic and Atmospheric Administration (NOAA), U.S. Department of Commerce has approved the revised management plan, which includes an expansion of the boundary of the reserve, for the Weeks Bay National Estuarine Research Reserve.

The Weeks Bay Reserve was designated in February 1986 pursuant to Section 315 of the Coastal Zone Management Act of 1972, as amended, 16 U.S.C. 1461. The reserve has been operating under a management plan approved in 1998. Pursuant to 15 CFR Section 921.33(c), a state must revise their management plan every five years. The submission of this plan fulfills this requirement and sets a course for successful implementation of the goals and objectives of the reserve.

The mission of the Weeks Bay Reserve is to provide leadership to promote informed management of estuarine and coastal habitats through scientific understanding and encourage good stewardship practices through partnerships, public education, and outreach programs. The management plan establishes three goals consistent with the reserve's mission. These goals are (1) protect and improve habitat and biological diversity within the boundary of the Reserve, (2) improve decisions affecting estuarine and coastal resources, and (3) promote education, stewardship, and scientific research focusing on estuarine ecosystems. Organized in a framework of programmatic goals and objectives, the Weeks Bay Reserve's management plan identifies specific strategies or actions for research, education/interpretation, public access, construction, acquisition, and resource protection, restoration, and manipulation. Overall, the plan seeks to accomplish the mission of the reserve by facilitating scientific research, encouraging stewardship, and addressing the local education and outreach needs.

Specifically, stewardship is encompassed under resource protection, habitat restoration, and resource manipulation plans. These plans address reserve efforts to evaluate natural and anthropogenic processes that affect the reserve and its habitats,

support for research and monitoring of important resources, restore and protect natural habitats and to actively educate the public to inform resource management.

Research and monitoring support independent research projects within the reserve and its vicinity with resources and background data. Staff and visiting researchers conduct monitoring and research within the boundaries of the reserve and Weeks Bay watershed and use GIS to map critical habitats. Research and monitoring results are made available to others and is translated to public and private users through education, training and outreach programs.

Education at the reserve targets a wide variety of audiences including students, teachers, adults, resource users and coastal decision-maker audiences. The reserve's comprehensive approach to education including a K-12 education program, outreach and a coastal training program are designed to increase knowledge of the target audiences about Alabama estuaries.

Public access at Weeks Bay Reserve includes improving and enhancing water access to facilitate the implementation of reserve programs. Also, the reserve will reduce impacts on natural resources and maximize public outreach by designating specific areas (i.e., boardwalks) and create guidelines for public access.

Administration at the reserve includes supporting the staffing and budget necessary to carry out the goals and objectives of the plan. The administration of the Weeks Bay Reserve is a collective effort involving the Alabama Department of Conservation and Natural Resources (ADCNR), other state or local agencies and organizations, and the Reserve Advisory Committee. An established administrative framework implements and coordinates Reserve programs under the plan.

The boundary expansion incorporates adjacent state-owned coastal and submerged lands within the Weeks Bay Coastal Area. Incorporating these lands increases the size of the reserve from 6,192 acres to 6,525 acres. The expansion provides a broader and more representative diversity of wetland and water habitats found within the old boundary of the reserve. Habitats within the new boundary of the reserve include tidal freshwater riverine, emergent and forested wetland communities.

FOR FURTHER INFORMATION CONTACT: Matthew J. Chasse at (301) 563-1198 or Laurie McGilvray at (301) 563-1158 of NOAA's National Ocean Service,
