

use, or transfer material licensed by the NRC.

5. *The number of annual respondents:* 4,650.

6. *The number of hours needed annually to complete the requirement or request:* 35,674 hours (4,553 reporting [approximately 0.98 hours per response] and 31,121 recordkeeping [approximately 6.7 hours per recordkeeper]).

7. *Abstract:* Title 10 of the Code of Federal Regulations, Part 19, requires licensees to advise workers on an annual basis of any radiation exposure they may have received as a result of NRC-licensed activities or when certain conditions are met. These conditions apply during termination of the worker's employment, at the request of a worker, former worker, or when the worker's employer (the NRC licensee) must report radiation exposure information on the worker to the NRC. Part 19 also establishes requirements for instructions by licensees to individuals participating in licensed activities and options available to these individuals in connection with Commission inspections of licensees to ascertain compliance with the provisions of the Atomic Energy Act of 1954, as amended, Title II of the Energy Reorganization Act of 1974, and regulations, orders and licenses thereunder regarding radiological working conditions. The worker should be informed of the radiation dose he or she receives because: (a) That information is needed by both a new employer and the individual when the employee changes jobs in the nuclear industry; (b) the individual needs to know the radiation dose received as a result of an accident or incident (if this dose is in excess of the 10 CFR Part 20 limits) so that he or she can seek counseling about future work involving radiation, medical attention, or both, as desired; and (c) since long-term exposure to radiation may be an adverse health factor, the individual needs to know whether the accumulated dose is being controlled within NRC limits. The worker also needs to know about health risks from occupational exposure to radioactive materials or radiation, precautions or procedures to minimize exposure, worker responsibilities and options to report any licensee conditions which may lead to or cause a violation of Commission regulations, and individual radiation exposure reports which are available to him.

Submit, by August 13, 2007, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to

properly perform its functions? Does the information have practical utility?

2. Is the burden estimate accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

A copy of the draft supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O-1 F21, Rockville, MD 20852. OMB clearance requests are available at the NRC worldwide Web site: <http://www.nrc.gov/public-involve/doc-comment/omb/index.html>. The document will be available on the NRC home page site for 60 days after the signature date of this notice.

Comments and questions about the information collection requirements may be directed to the NRC Clearance Officer, Margaret A. Janney (T-5 F52), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, by telephone at 301-415-7245, or by Internet electronic mail to INFOCOLLECTS@NRC.GOV.

Dated at Rockville, Maryland, this 7th day of June 2007.

For the Nuclear Regulatory Commission.

Margaret A. Janney,
NRC Clearance Officer, Office of Information Services.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-243]

The Oregon State University; Notice of Acceptance for Docketing of the Application and Notice of Opportunity for Hearing Regarding Renewal of the Oregon State University Research Reactor Facility License No. R-106 for an Additional 20-Year Period

The U.S. Nuclear Regulatory Commission (NRC or the Commission) is considering an application for the renewal of Facility License No. R-106, which authorizes the Oregon State University (the licensee) to operate the Oregon State University Research Reactor (OSTR) at a maximum steady-state thermal power of 1.1 megawatts (MW) thermal power. The renewed license would authorize the applicant to operate the OSTR for an additional 20 years beyond the period specified in the current license. The current license for the OSTR expired on August 15, 2006.

On October 5, 2004, as supplemented on August 8, 2005, May 24, 2006, November 10, 2006 and November 21, 2006, the Commission's staff received an application from the licensee filed pursuant to 10 CFR part 50.51(a), to renew Facility License No. R-106 for the OSTR. Because the license renewal application was filed in a timely manner in accordance with 10 CFR 2.109, the license will not be deemed to have expired until the license renewal application has been finally determined.

The Commission's staff has determined that the licensee has submitted sufficient information in accordance with 10 CFR 50.33 and 50.34 that the application is acceptable for docketing. The current Docket No. 50-243 for Facility License No. R-106, will be retained. The docketing of the renewal application does not preclude requesting additional information as the review proceeds, nor does it predict whether the Commission will grant or deny the application. Prior to a decision to renew the license, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations.

Within sixty (60) days after the date of publication of this **Federal Register** Notice, the applicant may file a request for a hearing, and any person whose interest may be affected by this proceeding and who wishes to participate as a party in the proceeding must file a written request for a hearing and a petition for leave to intervene with respect to the renewal of the license. Requests for a hearing and a petition for leave to intervene shall be filed in accordance with the Commission's "Rules of Practice for Domestic Licensing Proceedings" in 10 CFR part 2. Interested persons should consult a current copy of 10 CFR 2.309, which is available at the Commission's Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland 20852 and is accessible from the Agency Public Electronic Reading Room on the Internet at the NRC Web site, <http://www.nrc.gov/readingrm/doc-collections/cfr>. Persons who do not have access to the NRC Web site or who encounter problems in accessing the documents located in the Electronic Reading Room should contact the NRC's PDR reference staff at 1-800-397-4209, or by e-mail at pdr@nrc.gov. If a request for a hearing or a petition for leave to intervene is filed within the 60-day period, the Commission or a presiding officer designated by the Commission or by the Chief Administrative Judge of the Atomic Safety and Licensing Board

Panel will rule on the request and/or petition; and the Secretary or the Chief Administrative Judge of the Atomic Safety and Licensing Board will issue a notice of a hearing or an appropriate order. In the event that no request for a hearing or petition for leave to intervene is filed within the 60-day period, the NRC may, upon completion of its evaluations and upon making the findings required under 10 CFR parts 50 and 51, renew the license without further notice.

As required by 10 CFR 2.309, a petition for leave to intervene shall set forth with the particular interest of the petitioner in the proceeding, and how that interest may be affected by the results of the proceeding. The petition must specifically explain the reasons why intervention should be permitted with particular reference to the following factors: (1) The nature of the requestor's/petitioner's right under the Atomic Energy Act to be made a party to the proceeding; (2) the nature and extent of the requestor's/petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any decision or order which may be entered in the proceeding on the requestor's/petitioner's interest. The petition must also set forth the specific contentions which the petitioner/requestor seeks to have litigated at the proceeding.

Each contention must consist of a specific statement of the issue of law or fact to be raised or controverted. In addition, the requestor/petitioner shall provide a brief explanation of the bases of each contention and a concise statement of the alleged facts or the expert opinion that supports the contention on which the requestor/petitioner intends to rely in proving the contention at the hearing. The requestor/petitioner must also provide references to those specific sources and documents of which the requestor/petitioner is aware and on which the requestor/petitioner intends to rely to establish those facts or expert opinion. The requestor/petitioner must provide sufficient information to show that a genuine dispute exists with the applicant on a material issue of law or fact.¹

Contentions shall be limited to matters within the scope of the action under consideration. The contention must be one that, if proven, would

entitle the requestor/petitioner to relief. A requestor/petitioner who fails to satisfy these requirements with respect to at least one contention will not be permitted to participate as a party.

Each contention shall be given a separate numeric or alpha designation within one of the following groups:

1. Technical—primarily concerns/ issues relating to technical and/or health and safety matters discussed or referenced in the applicant's safety analysis for the OSTR license renewal application.

2. Environmental—primarily concerns issues relating to matters discussed or referenced in the Environmental Report for the license renewal application.

3. Miscellaneous—does not fall into one of the categories outlined above.

As specified in 10 CFR 2.309, if two or more requestors/petitioners seek to co-sponsor a contention, the requestors/petitioners shall jointly designate a representative who shall have the authority to act for the requestors/petitioners with respect to that contention. If a requestor/petitioner seeks to adopt the contention of another sponsoring requestor/petitioner, the requestor/petitioner who seeks to adopt the contention must either agree that the sponsoring requestor/petitioner shall act as the representative with respect to that contention, or jointly designate with the sponsoring requestor/petitioner a representative who shall have the authority to act for the requestors/petitioners with respect to that contention.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing. A request for a hearing or a petition for leave to intervene must be filed by: (1) First class mail addressed to the Office of the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemaking and Adjudications Staff; (2) courier, express mail, and expedited delivery services: Office of the Secretary, Sixteenth Floor, One White Flint North, 11555 Rockville Pike, Rockville, Maryland, 20852, Attention: Rulemaking and Adjudications Staff; (3) E-mail addressed to the Office of the Secretary, (U.S. Nuclear Regulatory Commission, HEARINGDOCKET@NRC.GOV; or (4) facsimile transmission addressed to the Office of the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC., Attention: Rulemakings and Adjudications Staff at 301-415-1101, verification number is 301-415-1966. A copy of the request for hearing and

petition for leave to intervene must also be sent to the Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, and it is requested that copies be transmitted either by means of facsimile transmission to 301-415-3725 or by e-mail to OGCMailCenter@nrc.gov. A copy of the request for hearing and petition for leave to intervene should also be sent to the licensee. The licensee's contact for this is Dr. Steven R. Reese, Director, Radiation Center, Oregon State University, 100 Radiation Center, Corvallis, OR 97331-5903.

Non-timely requests and/or petitions and contentions will not be entertained absent a determination by the Commission, the presiding officer, or the Atomic Safety and Licensing Board that the petition, request and/or contentions should be granted based on a balancing of the factors specified in 10 CFR 2.309 (c)(1)(i)-(viii).

Detailed guidance which the NRC uses to review applications for the renewal of non-power reactor licenses can be found in the document NUREG-1537, entitled "Guidelines for Preparing and Reviewing Applications for the Licensing of Non-Power Reactors," can be obtained from the Commission's PDR. The NRC maintains an Agencywide Documents Access and Management System (ADAMS), which provides text and image files of NRC's public documents. The detailed review guidance (NUREG-1537) may be accessed through the NRC's Public Electronic Reading Room on the Internet at <http://www.nrc.gov/reading-rm/adams.html> under ADAMS accession number ML042430055 for part one and ML042430048 for part two. Copies of the application to renew the facility license for the OSTR are available for public inspection at the Commission's PDR, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland 20852-2738. The initial application and other related documents may be accessed through the NRC's Public Electronic Reading Room, at the address mentioned above, under ADAMS Accession Nos.: ML071430452, ML043270077, ML071300010, ML052290051, ML061310209, ML061510355, ML062060026, ML063210182, and ML063320500. Persons who do not have access to ADAMS, or if there are problems in accessing the documents located in ADAMS, may contact the NRC Public Document Room Reference staff at 1-800-397-4209, 301-415-4737, or by e-mail to pdr@nrc.gov.

Dated at Rockville, Maryland, this 7th day of June 2007.

¹ To the extent that the applications contain attachments and supporting documents that are not publicly available because they are asserted to contain safeguards or proprietary information, petitioners desiring access to this information should contact the applicant or applicant's counsel and discuss the need for a protective order.

For the Nuclear Regulatory Commission.

 BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-333]

Entergy Nuclear Fitzpatrick, LLC, and Entergy Nuclear Operations, Inc.; James A. Fitzpatrick Nuclear Power Plant; Notice of Availability of the Draft Supplement 31 to the Generic Environmental Impact Statement for License Renewal of Nuclear Plants, and Public Meeting for the License Renewal of James A. Fitzpatrick

Notice is hereby given that the U.S. Nuclear Regulatory Commission (NRC, Commission) has published a draft plant-specific supplement to the Generic Environmental Impact Statement for License Renewal of Nuclear Plants (GEIS), NUREG-1437, regarding the renewal of operating license DPR-59 for an additional 20 years of operation for the James A. FitzPatrick Nuclear Power Plant (JAFNPP). JAFNPP is located on Lake Ontario in Oswego County, approximately seven miles northeast of the City of Oswego, New York. Possible alternatives to the proposed action (license renewal) include no action and reasonable alternative energy sources.

The draft Supplement 31 to the GEIS is publicly available at the NRC Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852, or from the NRC's Agencywide Documents Access and Management System (ADAMS). The ADAMS Public Electronic Reading Room is accessible at <http://adamswebsearch.nrc.gov/dologin.htm>. The Accession Number for the draft Supplement 31 to the GEIS is ML071420019. Persons who do not have access to ADAMS, or who encounter problems in accessing the documents located in ADAMS, should contact the NRC's PDR reference staff by telephone at 1-800-397-4209, or 301-415-4737, or by e-mail at pdr@nrc.gov. In addition, the libraries: Penfield Library SUNY, 7060 State Route 104, Oswego, NY 13126 and Oswego Public Library, 140-142 East Second Street, Oswego, NY 13126 have agreed to make the draft supplement to the GEIS available for public inspection.

Any interested party may submit comments on the draft supplement to

the GEIS for consideration by the NRC staff. To be considered, comments on the draft supplement to the GEIS and the proposed action must be received by September 5, 2007; the NRC staff is able to assure consideration only for comments received on or before this date. Comments received after the due date will be considered only if it is practical to do so. Written comments on the draft supplement to the GEIS should be sent to: Chief, Rulemaking, Directives, and Editing Branch, Division of Administrative Services, Office of Administration, Mailstop T-6D59, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Comments may be hand-delivered to the NRC at 11545 Rockville Pike, Room T-6D59, Rockville, Maryland, between 7:30 a.m. and 4:15 p.m. on Federal workdays. Electronic comments may be submitted to the NRC by e-mail at FitzPatrickEIS@nrc.gov. All comments received by the Commission, including those made by Federal, State, local agencies, Native American Tribes, or other interested persons, will be made available electronically at the Commission's PDR in Rockville, Maryland, and through ADAMS.

The NRC staff will hold a public meeting to present an overview of the draft plant-specific supplement to the GEIS and to accept public comments on the document. The public meeting will be held on August 1, 2007, at the Scriba Town Municipal Building, 42 Creamery Road, Oswego, New York 13126. There will be two sessions to accommodate interested parties. The first session will convene at 1:30 p.m. and will continue until 4:30 p.m., as necessary. The second session will convene at 7 p.m. with a repeat of the overview portions of the meeting and will continue until 10 p.m., as necessary. Both meetings will be transcribed and will include: (1) A presentation of the contents of the draft plant-specific supplement to the GEIS, and (2) the opportunity for interested government agencies, organizations, and individuals to provide comments on the draft report. Additionally, the NRC staff will host informal discussions one hour prior to the start of each session at the same location. No comments on the draft supplement to the GEIS will be accepted during the informal discussions. To be considered, comments must be provided either at the transcribed public meeting or in writing. Persons may pre-register to attend or present oral comments at the meeting by contacting Ms. Jessie M. Muir, the NRC Environmental Project Manager at 1-800-368-5642, extension 0491, or by e-mail at

FitzPatrickEIS@nrc.gov no later than July 18, 2007. Members of the public may also register to provide oral comments before the start of each session. Individual, oral comments may be limited by the time available, depending on the number of persons who register. If special equipment or accommodations are needed to attend or present information at the public meeting, the need should be brought to Ms. Muir's attention no later than July 18, 2007, to provide the NRC staff adequate notice to determine whether the request can be accommodated.

For Further Information, Contact: Ms. Jessie M. Muir, Environmental Branch B, Division of License Renewal, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Mail Stop O-11F1, Washington, DC 20555-0001. Ms. Muir may be contacted at the aforementioned telephone number or e-mail address.

Dated at Rockville, Maryland, this 8th day of June, 2007.

For the Nuclear Regulatory Commission.

Rani L. Franovich,
*Branch Chief, Environmental Branch B,
 Division of License Renewal, Office of Nuclear
 Reactor Regulation.*

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-498 and 50-499]

STP Nuclear Operating Company; South Texas Project, Units 1 and 2, Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (NRC) is considering issuance of amendments to Title 10 of the Code of Federal Regulations (10 CFR) Part 50, Section 50.92, for Facility Operating Licenses numbered NPF-76 and NPF-80, issued to STP Nuclear Operating Company (the licensee), for operation of the South Texas Project, Units 1 and 2, located in Matagorda County. Therefore, as required by 10 CFR 51.21, the NRC is issuing this environmental assessment and finding of no significant impact.

Environmental Assessment

Identification of the Proposed Action

The proposed action would change the name of one licensee Texas Genco LP (Texas Genco), to NRG South Texas LP.

The proposed action is in accordance with the licensee's application dated April 4, 2006.
