

final EIS, the Forest Service is required to respond to substantive comments received during the comment period that pertain to the environmental consequences discussed in the draft EIS and applicable laws, regulations, and policies considered in making the decision. Substantive comments are defined as "comments within the scope of the proposed action, specific to the proposed action, and have a direct relationship to the proposed action, and include supporting reasons for the responsible official to consider" (36 CFR 215.2). Submission of substantive comments is a prerequisite for eligibility to appeal under the 36 CFR part 215 regulations.

Comment Requested

This notice of intent initiates the scoping process, which guides the development of the environmental impact statement.

Early Notice of Importance of Public Participation in Subsequent Environmental Review

A draft environmental impact statement will be prepared for comment. The comment period on the draft environmental impact statement will be 45 days from the date the Environmental Protection Agency publishes the notice of availability in the **Federal Register**.

The Forest Service believes, at this early stage, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of draft environmental impact statements must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 533 (1978). Also, environmental objections that could be raised at the draft environmental impact statement stage, but that are not raised until after completion of the final environmental impact statement may be waived or dismissed by the courts. *City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th Cir. 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45-day comment period, so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final environmental impact statement.

To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the draft environmental impact statement should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft environmental impact statement. Comments may also address the adequacy of the draft environmental impact statement or the merits of the alternatives formulated and discussed in the statement. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

Comments received, including the names and addresses of those who comment, will be considered part of the public record on this proposal and will be available for public inspection.

20, 2007, the Committee for Purchase
From People Who Are Blind or Severely
Disabled published notice (72 FR 19878)
of proposed additions to the
Procurement List.Comments were received from two
cap manufacturers who are not current
contractors for the cap requirement
(Cap, Utility, Camouflage Pattern, Air
Force (ABU)) which was proposed for
addition to the Procurement List. Both
manufacturers objected to the statement
in the Regulatory Flexibility Act
Certification contained in the
Committee's notice of proposed
addition to the Procurement List that
the proposed addition "will not have a
significant impact on a substantial
number of small entities." These two
companies claimed that developments
in the military headwear industry,
including additions to the Procurement
List, had severely reduced their
opportunities in the industry, as well as
reducing the number of small entities
participating in the industry from five to
two."Small entities" as defined by the
Regulatory Flexibility Act at 5 U.S.C.
601(6) include small nonprofit agencies
as well as small businesses. There are at
least five nonprofit agencies
participating in the Committee's
program which are currently producing
military headwear. Even if seven small
entities could be considered a
substantial number, the positive impact
on five of them should balance the
negative impact noted by the two
manufacturers. Consequently, the
