

participants in connection with the deposit of Foreign Securities with DTC and/or as a condition to engaging in transactions in Foreign Securities through the facilities of DTC, DTC would have the right and could adopt associated procedures to determine in accordance with Rule 5 Section 1 of the DTC Rules and its obligations as a registered clearing agency subject to regulation by the Commission whether any other or additional documentation would be required.

Section 17A(a)(2)(A) of the Act directs the Commission to facilitate the establishment of a national system for the prompt and accurate clearance and settlement of securities transactions and the establishment of linked or coordinated facilities for clearance and settlement. The deposit and book-entry transfer of Foreign Securities through the facilities of DTC in accordance with the criteria and procedures set forth in the proposed Policy Statement would (1) enable DTC to provide its participants with prompt and accurate clearance and settlement of their cross-border securities transactions, (2) enable DTC to enhance and extend its linkages with foreign depositories and exchanges and (3) enable DTC to support the cross-border initiatives of U.S. broker-dealers, banks and exchanges.

(B) Self-Regulatory Organization's Statement on Burden on Competition

DTC does not believe that the proposed rule change would impose any burden on competition.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments relating to the proposed rule change have been solicited or received by DTC from members, participants or other persons. DTC will notify the Commission of any written comments it receives.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within thirty five days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to ninety days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(a) By order approve the proposed rule change or

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-55941; File No. SR-ISE-2007-36]

Self-Regulatory Organizations; International Securities Exchange, LLC; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change as Modified by Amendment No. 1 Thereto Relating to API Fees

June 21, 2007.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on May 17, 2007, the International Securities Exchange, LLC (the "Exchange" or the "ISE") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which Items have been substantially prepared by the Exchange. On June 11, 2007, the ISE submitted Amendment No. 1 to the proposed rule change.³ ISE has designated this proposal as one establishing or changing a due, fee, or other charge imposed by ISE under Section 19(b)(3)(A)(ii) of the Act⁴ and Rule 19b-4(f)(2) thereunder,⁵ which renders the proposal effective upon filing with the Commission. The Commission is publishing this notice to solicit comments on the proposed rule change, as amended, from interested persons.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of this proposed rule change is to adopt a High Throughput User Session/API fee for members.⁷ ISE currently has three categories of authorized logins: (1) Quoting, order entry and listening (allowing the user to enter quotes, orders, and perform all other miscellaneous functions, such as setting parameters, pulling quotes and performing linkage functions (e.g., sending and receiving P and P/A orders, laying off orders, etc.)); (2) order entry and listening (allowing the user to enter orders and perform all other miscellaneous functions, such as setting parameters, pulling quotes and performing linkage functions (but not quote)); and (3) listening (allowing the user only to query the system and to respond to other broadcasts).

An ISE market maker currently receives an allocation of 1,000,000 quotes per day per user. If a firm submits more quotes than those allocated, i.e., 1,000,000 quotes per day per user as measured on an average in a single month, the firm is charged for additional users depending upon the number of quotes submitted.⁸ Each

month, the total number of quotes submitted by a market maker firm across all bins (i.e., the group of options to which the market maker is appointed) is divided by the number of trading days, resulting in the average quotes per day. This number is then divided by 1,000,000 and rounded up to the nearest whole number, resulting in an implied number of users based on quotes. Members are invoiced on a monthly basis for the greater of (a) the greatest number of users authorized to login into the system, or (b) the number of implied users based on quotes.

ISE currently charges \$950 per month for each quoting session for up to 1,000,000 quotes per day, on average for a month. Members are charged an additional user fee of \$950 for each incremental usage of up to 1,000,000 quotes per day per user.

There are certain third party vendors used by members to connect to the ISE that currently permit only single logins, thus restricting a member's activity when utilizing these applications. To address this limitation, ISE has created a "High Throughput User" that permits an ISE Market Maker to quote up to 2,000,000 quotes per day in a month. A "High Throughput User" would be able to enter quotes, orders, and perform all other miscellaneous functions, such as setting parameters, pulling quotes and performing linkage functions (e.g., sending and receiving P and P/A orders, laying off orders, etc.). The Exchange proposes to charge "High Throughput Users" a fee of \$1,900 per month. Members will be charged an additional user fee of \$1,900 for each incremental usage of up to 2,000,000 quotes per day per user.

2. Statutory Basis

The basis under the Act for this proposed rule change is the requirement under Section 6(b)(4)⁹ that an exchange have an equitable allocation of reasonable dues, fees and other charges among its members and other persons using its facilities. In particular, the Exchange believes this fee will allow its market making members to maximize their quoting ability.

B. Self-Regulatory Organization's Statement on Burden on Competition

The proposed rule change does not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

The Exchange has not solicited, and does not intend to solicit, comments on this proposed rule change. The Exchange has not received any unsolicited written comments from members or other interested parties.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing proposed rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act¹⁰ and Rule 19b-4(f)(2)¹¹ thereunder because it establishes or changes a due, fee, or other charge imposed by the Exchange. At any time within 60 days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.¹²

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:
