Section 408(q) of the FFDCA, 21 U.S.C. 346a(q), requires EPA to review tolerances and exemptions for pesticide residues in effect as of August 2, 1996, to determine whether the tolerance or exemption meets the requirements of section 408(b)(2) or (c)(2) of FFDCA. This review was completed by August 3, 2006.

Aliphatic Alcohols Reregistration Eligibility Decision; Notice of Availability

AGENCY: Environmental Protection
Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the availability of EPA's Reregistration Eligibility Decision (RED) for the pesticide aliphatic alcohols, and opens a public comment period on this document. The Agency's risk assessments and other related documents also are available in the aliphatic alcohols Docket. The aliphatic alcohols subject to this RED include 1-hexanol, 1-octanol, 1-decanol and 1-dodecanol, and are used as a growth regulator for tobacco sucker control, and as a Lepidopteran pheromone in apple and pear orchards. EPA has reviewed aliphatic alcohols through a modified, 1-phase, low risk process with a public comment period following the publication of the RED. Through this process, EPA is ensuring that all pesticides meet current health and safety standards.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

This action is directed to the public in general, and may be of interest to a wide range of stakeholders including environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. What Should I Consider as I Prepare My Comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through [regulations.gov](http://www.regulations.gov) or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD ROM that you mail to EPA, mark the outside of the disk or CD ROM as CBI and then identify electronically within the disk or CD ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the

public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When submitting comments, remember to:

- i. Identify the document by docket ID number and other identifying information (subject heading, **Federal Register** date and page number).
- ii. Follow directions. The Agency may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.
- iii. Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.
- iv. Describe any assumptions and provide any technical information and/or data that you used.
- v. If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.
- vi. Provide specific examples to illustrate your concerns and suggest alternatives.
- vii. Explain your views as clearly as possible, avoiding the use of profanity or personal threats.
- viii. Make sure to submit your comments by the comment period deadline identified.

II. Background

A. What Action is the Agency Taking?

Under section 4 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), EPA is reevaluating existing pesticides to ensure that they meet current scientific and regulatory standards. EPA has completed a Reregistration Eligibility Decision (RED) for the pesticide, aliphatic alcohols under section 4(g)(2)(A) of FIFRA. The aliphatic alcohols subject to this RED include 1-hexanol, 1-octanol, 1-decanol and 1-dodecanol, and are used as a growth regulator for tobacco sucker control, and as a Lepidopteran pheromone in apple and pear orchards. EPA has determined that the data base to support reregistration is substantially complete and that products containing aliphatic alcohols are eligible for reregistration, provided the label amendments described in the RED are implemented. Upon submission of any required product specific data under section 4(g)(2)(B) and any necessary changes to the registration and labeling (either to address concerns identified in the RED or as a result of product specific data), EPA will make a final reregistration decision under section 4(g)(2)(C) for products containing aliphatic alcohols.

EPA is applying the principles of public participation to all pesticides undergoing reregistration and tolerance reassessment. The Agency's Pesticide Tolerance Reassessment and Reregistration; Public Participation Process, published in the **Federal Register** on May 14, 2004, (69 FR 26819) (FRL-7357-9) explains that in conducting these programs, EPA is tailoring its public participation process to be commensurate with the level of risk, extent of use, complexity of issues, and degree of public concern associated with each pesticide. Due to its uses, low human health and ecological risks, and other factors, the aliphatic alcohols were reviewed through a modified, 1-phase, low risk process.

The reregistration program is being conducted under Congressionally mandated time frames, and EPA recognizes the need both to make timely decisions and to involve the public. The Agency is issuing the aliphatic alcohols RED for public comment. This comment period is intended to provide an opportunity for public input and a mechanism for initiating any necessary amendments to the RED. All comments should be submitted using the methods in **ADDRESSES**, and must be received by EPA on or before the closing date. These comments will become part of the Agency Docket for aliphatic alcohols. Comments received after the close of the comment period will be marked "late." EPA is not required to consider these late comments.

The Agency will carefully consider all comments received by the closing date and will provide a Response to Comments Memorandum in the Docket and regulations.gov. If any comment significantly affects the document, EPA also will publish an amendment to the RED in the **Federal Register**. In the absence of substantive comments requiring changes, the aliphatic alcohols RED will be implemented as it is now presented.

B. What is the Agency's Authority for Taking this Action?

Section 4(g)(2) of FIFRA as amended directs that, after submission of all data concerning a pesticide active ingredient, the Administrator shall determine whether pesticides containing such active ingredient are eligible for reregistration, before calling in product specific data on individual end-use products and either reregistering products or taking other "appropriate regulatory action."

Notice of Hearing on Request to Reduce Pre-Harvest Interval (PHI) for EBDC Fungicides on Potatoes

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of Hearing.

SUMMARY: The EPA is issuing this Hearing Notice under the authority set forth in 40 CFR part 164 subpart D (subpart D hearing). A subpart D hearing is required when a registrant wants to modify an existing cancellation order that was issued after the opportunity for a hearing. In 1992, EPA issued a Notice of Intent to Cancel (NOIC) registrations containing EBDCs for use on certain crops. The crop at issue for this hearing notice is potatoes. The NOIC stated that use of EBDCs on potatoes would be canceled unless the registrants modified their pesticide product labels. At issue in this notice is the 1992 requirement to extend the preharvest interval (PHI) to reduce the dietary risk. EPA issued the 1992 NOIC with an opportunity for a hearing. EPA and the registrants reached a settlement, including the agreement to amend labels to extend the PHI to 14 days. The purpose of this notice is to announce that EPA has determined that the petition requesting a modification of the cancellation order has merit and to announce an opportunity for a hearing.

DATES: Requests to participate in the hearing announced by this notice must be received by the Office of the Hearing Clerk at the address given below by August 10, 2007. A pre-hearing conference will be held and the evidentiary hearing will commence as soon thereafter as practicable, according to the schedule outlined herein.

ADDRESSES: Submit your request to participate in the hearing, identified by docket identification (ID) number EPA-HQ-OPP-2007-0181, by the following method:

- Mail: Office of Hearing Clerk, USEPA, 1200 Pennsylvania Ave., N.W., Washington, DC 20460.
- Hand delivery: Office of the Hearing Clerk, 1099 14th St., NW., Suite 350, Washington, DC 20005.
