

(DHS), the current academic status of the alien, including whether the alien is maintaining status as a full-time student, or whether an exchange visitor is satisfying the terms and conditions of his or her program, and any disciplinary action taken by the institution or exchange visitor program sponsor against the alien as a result of a conviction of a crime. The Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism (USA PATRIOT) Act of 2001, Public Law 107-56 (October 26, 2001), subsequently amended IIRIRA and added the requirement that information be collected on the date of entry and port-of-entry. On October 30, 2001, the President issued Homeland Security Directive No. 2 (Directive 2) requiring DHS to conduct periodic, ongoing review of all institutions certified to accept nonimmigrant students. On May 14, 2002 the Enhanced Border Security and Visa Entry Reform Act of 2002 (Border Security Act), Public Law 107-173, 116 Stat. 543 (May 14, 2002), was enacted. It required DHS to recertify all schools approved for attendance by F or M nonimmigrant students within two years of the passage of the Border Security Act. Further, it mandates that DHS conduct an additional recertification of these schools every two years following. Data collection requirements for SEVP certification, oversight and recertification of schools authorized to enroll F or M nonimmigrant students are not specified in the aforementioned legislation, but are enumerated in 8 CFR 214.3 and 214.4. The Student and Exchange Visitor Program (SEVP), a component of U.S. Immigration and Customs Enforcement (ICE), is the program mandated by these laws to carry out these responsibilities.

SUPPLEMENTARY INFORMATION:

I. Abstract

Under Section 101(b) of the Marine Mammal Protection Act of 1972 (MMPA), as amended (16 U.S.C. 1361-1407), Alaska Natives residing in Alaska and dwelling on the coast of the North Pacific or Arctic Ocean may harvest polar bears, northern sea otters, and Pacific walrus for subsistence or handicraft purposes. Section 109(i) of the MMPA authorizes the Secretary of the Interior to prescribe marking, tagging, and reporting regulations applicable to the Alaska Native subsistence and handicraft take.

On behalf of the Secretary, we implemented regulations at 50 CFR 18.23(f) for Alaska Natives harvesting polar bear, northern sea otter, and Pacific walrus. These regulations enable us to gather data on the Alaska Native subsistence and handicraft harvest and on the biology of polar bear, northern sea otter, and Pacific walrus in Alaska to determine what effect such take may be having on these populations. The regulations also provide us with a means of monitoring the disposition of the harvest to ensure that any commercial use of products created from these species meets the criteria set forth in Section 101(b) of the MMPA. The information we collect includes, but is not limited to:

- (1) Date of kill.
- (2) Sex of the animal.
- (3) Kill location.
- (4) Form of transportation used to make the kill of polar bears.
- (5) Amount of time (i.e., hours/days hunted) spent hunting polar bears.
- (6) Type of take (live killed or beach found) for walrus.
- (7) Number of otters present in and number of otters harvested from pod.
- (8) Condition of the bear and whether or not polar bear cubs were present.
- (9) Name of the hunter or possessor of the specified parts at the time of marking, tagging, and reporting.

DATES: Written comments must be received at the postal address listed below no later than August 13, 2007.

ADDRESSES: To provide written comments or to obtain a copy of the Draft CCP/EA, please write to: Howard Phillips, Refuge Manager, Pocosin Lakes National Wildlife Refuge, P.O. SUPPLEMENTARY INFORMATION:

Public Availability of Comments: Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. Background: Congress established the 12,000-acre Pungo National Wildlife Refuge in 1963, by the authority of the Migratory Bird Conservation Act of 1929 and the Fish and Wildlife Act of 1956. Pocosin Lakes National Wildlife Refuge was established in 1990. At that time, Pungo Refuge was made a unit of Pocosin Lakes Refuge. The refuge, in northeast North Carolina, consists of 110,106 acres in fee simple ownership, and is made up of the following habitats: 63,896 acres of pocosin wetlands; 4,280 acres of bay forest; 3,124 acres of peatland Atlantic white cedar; 13,649 acres of mixed pine flatwoods; 14,045 acres of hardwood swamp forest; 970 acres of cypress-gum

swamp; 987 acres of marsh; 276 acres of xeric sandhill scrub; 1,250 acres of cropland; 443 acres of moist-soil areas; 446 acres of natural shoreline; and 6,740 acres of open water. These habitats support a variety of wildlife species, including red wolves, red-cockaded woodpeckers, waterfowl, shorebirds, wading birds, marsh birds, and neotropical migratory songbirds.

The refuge hosts approximately 80,000 visitors annually who participate in hunting, fishing, wildlife observation, wildlife photography, and environmental education and interpretation. Because of the estimated number of people stopping at the Tyrrell County Visitor Center (460,000), which is located immediately adjacent to the refuge's visitor center and Scuppernong River Interpretive Boardwalk, actual refuge visitation is likely much higher; perhaps exceeding 200,000.

Significant issues addressed in the Draft CCP/EA include: managing impoundments to create optimum habitat for migrating waterfowl, shorebirds, wading birds, and aquatic organisms; managing and providing optimum habitat for threatened and endangered species; managing marshes and pine forests with prescribed fire; monitoring, managing, and eradicating invasive pest plants and animals; restoring natural hydrology on the refuge; surveying for waterfowl, shorebirds, wading birds, and neotropical migratory songbirds; providing adequate law enforcement; providing outreach and interpretive opportunities to the public; providing quality hunting and fishing opportunities; and managing access for public use activities.

Also addressed in the Draft CCP/EA are compatibility determinations for the following uses: (1) Hunting; (2) Fishing; (3) Wildlife Observation and Photography; (4) Environmental Education and Interpretation; (5) Refuge Access for Public Uses; (6) Trapping of Selected Furbearers for Management; (7) Collecting Reptiles and Amphibians; (8) Refuge Resource Research Studies; (9) Cooperative Farming; (10) Commercial Photography; (11) Commercial Tours and Guiding; (12) Wood and Reed Gathering; (13) Meetings of Non-Service Agencies and Organizations on the
