

which were packaged, labeled, and released for shipment prior to the effective date of the cancellation action.

If the request for voluntary cancellation is granted as discussed above, the Agency intends to issue a cancellation order that will allow persons other than the registrant to continue to sell and/or use existing stocks of cancelled products until such stocks are exhausted, provided that such use is consistent with the terms of the previously approved labeling on, or that accompanied, the cancelled product. The order will specifically prohibit any use of existing stocks that is not consistent with such previously approved labeling. If, as the Agency currently intends, the final cancellation order contains the existing stocks provision just described, the order will be sent only to the affected registrants of the cancelled products. If the Agency determines that the final cancellation order should contain existing stocks provisions different than the ones just described, the Agency will publish the cancellation order in the **Federal Register**.

### Cancellation of Pesticides for Non-payment of Year 2007 Registration Maintenance Fees

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** Since the amendments of October, 1988, the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) has required payment of an annual maintenance fee to keep pesticide registrations in effect. The fee, due January 15, 2007, has gone unpaid for 721 registrations. Section 4(i)(5)(G) of FIFRA provides that the Administrator may cancel these registrations by order and without a hearing; orders to cancel all 721 of these registrations have been issued within the past few days.

**FOR FURTHER INFORMATION CONTACT:** For further information on the maintenance fee program in general, contact by mail: John Jamula, Office of Pesticide Programs (7504P), Environmental Protection Agency, 1200 Pennsylvania Avenue NW, Washington, DC 20460; telephone number: (703) 305-6426; e-mail address: [jamula.john@epa.gov](mailto:jamula.john@epa.gov).

#### SUPPLEMENTARY INFORMATION:

##### I. Important Information

###### A. Does this apply to me?

You may be potentially affected by this notice if you are an EPA registrant with any approved product registration(s). Although this action may be of particular interest to persons who produce or use pesticides, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the information in this notice, consult the person listed in the **FOR FURTHER INFORMATION CONTACT** section.

###### B. How can I get additional information or copies of support documents?

1. *Docket.* EPA has established a docket for this action under docket identification [ID] number EPA-HQ-OPP-2007-0508. Publicly available docket materials are available either in the electronic docket at <http://regulations.gov> or in hard copy at the Office of Pesticide Programs (OPP) Regulatory Public Docket in Rm. S-4400, One Potomac Yard (South Building), 2777 S. Crystal Drive, Arlington, VA. The hours of operation of this Docket Facility are from 8:30 a.m. to 4:00 p.m. Monday through Friday, excluding legal holidays. The Docket telephone number is (703) 305-5805.

2. *Electronic access.* You may access this **Federal Register** document electronically through the EPA Internet under the "Federal Register" listings at <http://www.epa.gov/fedrgstr>.

##### II. Introduction

Section 4(i)(5) of FIFRA as amended in October 1988 (Public Law 100-532), December 1991 (Public Law 102-237), and again in August 1996 (Public Law 104-170), requires that all pesticide registrants pay an annual registration maintenance fee, due by January 15 of each year, to keep their registrations in effect. This requirement applies to all registrations granted under section 3 as well as those granted under section 24(c) to meet special local needs. Registrations for which the fee is not paid are subject to cancellation by order and without a hearing.

The Food, Agriculture, Conservation, and Trade Act Amendments of 1991,

Public Law 102-237, amended FIFRA to allow the Administrator to reduce or waive maintenance fees for minor agricultural use pesticides when he determines that the fee would be likely to cause significant impact on the availability of the pesticide for the use. The Agency has waived the fee for 182 minor agricultural use registrations at the request of the registrants.

In fiscal year 2007, maintenance fees were collected in one billing cycle. The Pesticide Registration Improvement Act (PRIA) was passed by Congress in January 2004. PRIA became effective in March 2004 and authorized the Agency to collect \$21 million in maintenance fees in fiscal year 2007. In late December 2006, all holders of either section 3 registrations or section 24(c) registrations were sent lists of their active registrations, along with forms and instructions for responding. They were asked to identify which of their registrations they wished to maintain in effect, and to calculate and remit the appropriate maintenance fees. Most responses were received by the statutory deadline of January 15. A notice of intent to cancel was sent in mid-February to companies who did not respond and to companies who responded, but paid for less than all of their registrations. Since mailing the notices, EPA has maintained a toll-free inquiry number through which the questions of affected registrants have been answered.

Maintenance fees have been paid for about 15,730 section 3 registrations, or about 96% of the registrations on file in December. Fees have been paid for about 2,193 section 24(c) registrations, or about 86 percent of the total on file in December. Cancellations for non-payment of the maintenance fee affect about 466 Section 3 registrations and about 255 Section 24(c) registrations.

The cancellation orders generally permit registrants to continue to sell and distribute existing stocks of the canceled products until January 15, 2008, one year after the date on which the fee was due. Existing stocks already in the hands of dealers or users, however, can generally be distributed, sold or used legally until they are exhausted. Existing stocks are defined as those stocks of a registered pesticide product which are currently in the U.S. and which have been packaged, labeled and released for shipment prior to the effective date of the action.

The exceptions to these general rules are cases where more stringent restrictions on sale, distribution, or use of the products have already been imposed, through Special Reviews or other Agency actions. These general

provisions for disposition of stocks should serve in most cases to cushion the impact of these cancellations while the market adjusts.

### III. Listing of Registrations Canceled for Non-payment

Table 1 lists all of the Section 24(c) registrations, and Table 2 Lists all of the Section 3 registrations which were canceled for non-payment of the 2007 maintenance fee. These registrations have been canceled by order and without hearing. Cancellation orders were sent to affected registrants via certified mail in the past several days. The Agency is unlikely to rescind cancellation of any particular registration unless the cancellation resulted from Agency error.
