

amounts attributed under section 1248(c)(2)) and the earnings and profits attributable to the stock of the distributee accumulated after the liquidation (including amounts attributed under section 1248(c)(2)).

(2) *Special rule regarding section 381.* Solely for purposes of determining the earnings and profits (or deficit in earnings and profits) attributable to stock under this paragraph (c), the attributed earnings and profits of a corporation shall not include earnings and profits that are treated as received or incurred pursuant to section 381(c)(2)(A) and § 1.381(c)(2)–1(a).

(3) *Example.* (i) *Facts.* DC, a domestic corporation, has owned all of the stock of CFC1, a foreign corporation, since its formation on January 1, year 1. CFC1 is an operating company that has owned all of the stock of CFC2, a foreign corporation, since its formation on January 1, year 1. On December 31, year 2, CFC1 has \$200 of accumulated earnings and profits and CFC2 has a (\$200) deficit in earnings and profits. On December 31, year 2, CFC2 distributes all of its assets and liabilities to CFC1 in a liquidation to which section 332 applies. From January 1, year 3, until December 31, year 4, CFC1 accumulates no additional earnings and profits. On December 31, year 4, DC sells its stock in CFC1.

(ii) *Result.* Pursuant to paragraph (c)(1) of this section, there are no earnings and profits attributable to DC's CFC1 stock. This amount consists of the sum of the earnings and profits attributable to the CFC1 stock immediately before the liquidation (100% of the \$200 accumulated earnings and profits of CFC1 and 100% of CFC2's (\$200) deficit in earnings and profits) and the amount of earnings and profits accumulated after the section 332 liquidation (see also section 1248(c)(2)).

(d) *Effective/applicability date.* This section applies to income inclusions that occur on or after July 30, 2007.

Kevin M. Brown,

Deputy Commissioner for Services and Enforcement.

Approved: July 16, 2007.

Partial Withdrawal of Direct Final Rule Revising the California State Implementation Plan, San Joaquin Valley Air Pollution Control District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule; partial withdrawal.

SUMMARY: On May 30, 2007 (72 FR 29886), EPA published a direct final approval of revisions to the California State Implementation Plan (SIP). These revisions concerned San Joaquin Valley Air Pollution Control District (SJVAPCD) Rule 4307, Boilers, Steam Generators and Process Heaters—2.0 MMBtu/hr to 5.0 MMBtu/hr; Rule 4308, Boilers, Steam Generators and Process Heaters—0.075 MMBtu/hr to 2.0 MMBtu/hr; Rule 4309, Dryers, Dehydrators, and Ovens; Rule 4352, Solid Fuel Fired Boilers, Steam Generators and Process Heaters; and Rule 4905, Natural Gas-Fired, Fan-Type Residential Central Furnaces. The direct final action was published without prior proposal because EPA anticipated no adverse comment. The direct final rule stated that if adverse comments were received by June 29, 2007, EPA would publish a timely withdrawal in the **Federal Register**. EPA received timely adverse comments. Consequently, with this revision we are withdrawing the direct final approval of SJVAPCD Rule 4352. EPA will either address the comments in a subsequent final action based on the parallel proposal also published on May 30, 2007 (72 FR 29901), or repropose an alternative action. As stated in the parallel proposal, EPA will not institute a second comment period on a subsequent final action. The other rules approved in the May 30, 2007 direct final action, SJVAPCD Rules 4307, 4308, 4309, and 4905, are not affected by this partial withdrawal and are incorporated into the SIP as of the effective date of the May 30, 2007 direct final action.

DATES: This rule and withdrawal are effective July 30, 2007.

ADDRESSES: EPA has established docket number EPA–R09–OAR–2007–0236 for this action. Approval and Promulgation of Air Quality Implementation Plans; Indiana

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule.

SUMMARY: EPA is approving Indiana's requests to amend its State Implementation Plan (SIP) for control of particulate matter in 326 IAC 6.5–7–13. Indiana submitted the SIP revision requests to EPA on November 1, 2005 and March 20, 2007. The revisions would change the source name from St.

Mary's to Holy Cross Services Corporation (Saint Mary's Campus), and clarify and revise existing particulate matter (PM) emission limits for the boilers at that source to reflect current operating conditions. These revisions will not result in an increase in PM.

DATES: This direct final rule will be effective September 28, 2007, unless EPA receives adverse comments by August 29, 2007. If adverse comments are received, EPA will publish a timely withdrawal of the direct final rule in the **Federal Register** informing the public that the rule will not take effect.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-R05-OAR-2007-0292, by one of the following methods:

1. *http://www.regulations.gov*: Follow the on-line instructions for submitting comments.

2. *E-mail*: mooney.john@epa.gov.

3. *Fax*: (312) 886-5824.

4. *Mail*: John M. Mooney, Chief, Criteria Pollutant Section, Air Programs Branch (AR-18J), U.S. Environmental Protection Agency, 77 West Jackson Boulevard, Chicago, Illinois 60604.

5. *Hand Delivery*: John M. Mooney, Chief, Criteria Pollutant Section, Air Programs Branch (AR-18J), U.S. Environmental Protection Agency, 77 West Jackson Boulevard, Chicago, Illinois 60604. Such deliveries are only accepted during the Regional Office normal hours of operation, and special arrangements should be made for deliveries of boxed information. The Regional Office official hours of business are Monday through Friday, 8:30 a.m. to 4:30 p.m. excluding Federal holidays.

Instructions: Direct your comments to Docket ID No. EPA-R05-OAR-2007-0292. EPA's policy is that all comments received will be included in the public docket without change and may be made available online at *http://www.regulations.gov*, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through *http://www.regulations.gov* or e-mail. The *http://www.regulations.gov* Web site is an "anonymous access" system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an e-mail comment directly to EPA without going through *http://www.regulations.gov*, your e-mail address will be automatically captured

and included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses.

Docket: All documents in the docket are listed in the *http://www.regulations.gov* index. Although listed in the index, some information is not publicly available, e.g., CBI or other information whose disclosure is restricted by statute. SUPPLEMENTARY INFORMATION: Throughout this document whenever "we," "us," or "our" is used, we mean EPA. This supplementary information section is arranged as follows:

- I. To Whom Does This Action Apply?
- II. What Is EPA Approving?
- III. What Are the Changes from the Current Rule?
- IV. What Action Is EPA Taking?
- V. Statutory and Executive Order Reviews.

I. To Whom Does This Action Apply?

This action applies to Holy Cross Services Corporation (Saint Mary's Campus), Notre Dame, Indiana.

II. What Is EPA Approving?

EPA is approving revisions to Indiana's PM SIP for the three boilers located in St. Joseph County, Notre Dame, Indiana. The revisions address

Title 326 of the Indiana Administrative Code (IAC), Rule 6.5-7, Section 13, to clarify and amend existing PM emission limits. They also change the source name from St. Mary's to Holy Cross Services Corporation (Saint Mary's Campus).

Indiana held public hearings on these revisions February 2, and June 1, 2005; June 7, and August 2, 2006.

III. What Are the Changes From the Current Rule?

On March 22, 2006 (71 FR 14383), EPA published a direct final rule approving revisions to the Indiana SIP in 326 IAC 6.5-7 to relocate and recodify PM emission limits for all sources in St. Joseph County, Indiana. Today's action revises 326 IAC 6.5-7, Section 13, which contains particulate emission limits for the boilers at St. Mary's College in Notre Dame, Indiana, to reflect current operating conditions and ownership by Holy Cross Services Corporation of those boilers.

Currently, SIP rule 326 IAC 6.5-7-13 identifies St. Mary's College as the owner, operator and permittee of the subject boilers. It also incorrectly lists boiler number 1 as 100% natural gas-fired, and boilers number 2 and 3 as coal-fired. According to Indiana, however, boilers numbers 1 and 2 are actually gas-fired, with the capability of burning number 2 fuel oil as a back-up, while boiler number 3 exclusively burns natural gas. The revised rule corrects this error. It also tightens the applicable PM limits for the two boilers that have oil-burning capability (boilers number 1 and 2): from 0.110 lbs/MMBTU (12.90 tons/year) to 0.014 lbs/MMBTU (3.9 tons/year).

Finally, the SIP revision amends 326 IAC 6.5-7-13 by correctly identifying the owner, operator and permittee of the St. Mary's boilers as Holy Cross Services.

IV. What Action is EPA Taking?

EPA is approving source-specific revisions to Indiana's PM SIP in 326 IAC 6.5-7 to change the name of the owner, operator and permittee of the three boilers at St. Mary's College to Holy Cross Services Corporation (Saint Mary's Campus), and to revise the PM limits to reflect current operating conditions of the boilers at St. Mary's College.

We are publishing this action without prior proposal because we view this as a noncontroversial amendment and anticipate no adverse comments. However, in the proposed rules section of this **Federal Register** publication, we are publishing a separate document that will serve as the proposal to approve the

state plan if relevant adverse written comments are filed. This rule will be effective September 28, 2007 without further notice unless we receive relevant adverse written comments by August 29, 2007. If we receive such comments, we will withdraw this action before the effective date by publishing a subsequent document that will withdraw the final action. All public comments received will then be addressed in a subsequent final rule based on the proposed action. The EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time. If we do not receive any comments, this action will be effective September 28, 2007.

V. Statutory and Executive Order Reviews

Executive Order 12866: Regulatory Planning and Review

Under Executive Order 12866 (58 FR 51735, October 4, 1993), this action is not a “significant regulatory action” and, therefore, is not subject to review by the Office of Management and Budget.

Executive Order 13211: Actions That Significantly Affect Energy Supply, Distribution, or Use

Because it is not a “significant regulatory action” under Executive Order 12866 or a “significant energy action,” this action is also not subject to Executive Order 13211, “Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use” (66 FR 28355, May 22, 2001).

Regulatory Flexibility Act

This action merely approves state law as meeting Federal requirements and imposes no additional requirements beyond those imposed by state law. Accordingly, the Administrator certifies that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*).

Unfunded Mandates Reform Act

Because this rule approves pre-existing requirements under state law and does not impose any additional enforceable duty beyond that required by state law, it does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4).

Executive Order 13175: Consultation and Coordination With Indian Tribal Governments

This rule also does not have tribal implications because it will not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes, as specified by Executive Order 13175 (59 FR 22951, November 9, 2000).

Executive Order 13132: Federalism

This action also does not have Federalism implications because it does not have substantial direct effects on the states, on the relationship between the national government and the states, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999). This action merely approves a state rule implementing a Federal standard, and does not alter the relationship or the distribution of power and responsibilities established in the Clean Air Act (CAA).

Executive Order 13045: Protection of Children From Environmental Health and Safety Risks

This rule also is not subject to Executive Order 13045 “Protection of Children from Environmental Health Risks and Safety Risks” (62 FR 19885, April 23, 1997), because it approves a state rule implementing a Federal Standard.

National Technology Transfer Advancement Act

In reviewing SIP submissions, EPA’s role is to approve state choices, provided that they meet the criteria of the CAA. In this context, in the absence of a prior existing requirement for the state to use voluntary consensus standards (VCS), EPA has no authority to disapprove a SIP submission for failure to use VCS. It would thus be inconsistent with applicable law for EPA, when it reviews a SIP submission, to use VCS in place of a SIP submission that otherwise satisfies the provisions of the CAA. Thus, the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply.

Paperwork Reduction Act

This rule does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

Congressional Review Act

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. section 804(2).

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by September 28, 2007. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this rule for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

Approval and Promulgation of Implementation Plans; Texas; Clean Air Interstate Rule Nitrogen Oxides Annual Trading Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule.

SUMMARY: EPA is taking a direct final action to approve a revision to the Texas State Implementation Plan (SIP) submitted by the State of Texas on August 4, 2006, as the Texas Clean Air Interstate Rule (CAIR) Nitrogen Oxides (NO_x) Annual Abbreviated SIP. The abbreviated SIP revision EPA is approving includes the Texas methodologies for allocation of annual NO_x allowances for Phase 1 of CAIR, the control periods 2009 through 2014, and for allocating allowances from the compliance supplement pool (CSP) in the CAIR NO_x annual trading program. EPA has determined that the Texas CAIR NO_x Annual Abbreviated SIP revision satisfies the applicable requirements of a CAIR abbreviated SIP

revision. Upon the effective date of approval of the Texas CAIR NO_x Annual Abbreviated SIP revision, EPA by ministerial action will note in the Texas CAIR NO_x Annual Federal Implementation Plan's (FIP) incorporated regulations that the Texas rules for annual NO_x allowances under Phase 1 of CAIR and allocating allowances from the CSP apply, rather than the Federal FIP rules.

The intended effect of this action is to reduce NO_x emissions from the State of Texas that are contributing to nonattainment of the PM_{2.5} National Ambient Air Quality Standard (NAAQS or standard) in downwind states. This action is being taken under section 110 of the Federal Clean Air Act (the Act or CAA).

DATES: This rule is effective on September 28, 2007 without further notice, unless EPA receives relevant adverse comment by August 29, 2007. If EPA receives such comment, EPA will publish a timely withdrawal in the **Federal Register** informing the public that this rule will not take effect.
