FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the proposed information collections and supporting statements should be directed to Tamee Fechhelm at telephone number 301-837-1694 or fax number 301-713-7409.

SUPPLEMENTARY INFORMATION: Pursuant to the Paperwork Reduction Act of 1995 (Pub. L. 104-13), NARA invites the general public and other Federal agencies to comment on proposed information collections. NARA published a notice of proposed collection for these information collections on May 16, 2007 (72 FR 27592 and 27593). No comments were received. NARA has submitted the described information collections to OMB for approval.

In response to this notice, comments and suggestions should address one or more of the following points: (a) Whether the proposed information collections are necessary for the proper performance of the functions of NARA; (b) the accuracy of NARA's estimate of the burden of the proposed information collections; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including the use of information technology; and (e) whether small businesses are affected by these collections. In this notice, NARA is soliciting comments concerning the following information collections:

1. *Title:* Item Approval Request List.
OMB Number: 3095-0025.

Agency Form Number: NA Form 14110 and 14110A.

Type of Review: Regular.

Estimated Total Annual Burden Hours: 704 hours.

Abstract: The information collection is prescribed by 36 CFR 1254.72. The collection is prepared by researchers who cannot visit the appropriate NARA research room or who request copies of records as a result of visiting a research room. NARA offers limited provisions to obtain copies of records by mail and requires requests to be made on prescribed forms for certain bodies of records. NARA uses the Item Approval Request List form to track reproduction requests and to provide information for customers and vendors.

2. *Title:* Microfilm Rental Order Form.

OMB Number: 3095-0059.

Agency Form Number: NA Form 14127.

Type of Review: Regular.

Affected Public: Individuals or households.

Estimated Time Per Response: 10 minutes.

Frequency of Response: On occasion.

Estimated Total Annual Burden Hours: 867 hours.

Abstract: The NARA microfilm publications provides ready access to records for research in a variety of fields including history, economics, political science, law, and genealogy. NARA emphasizes microfilming groups of records relating to the same general subject or to a specific geographic area. For example, the decennial population censuses from 1790 to 1930 and their related indexes are available on microfilm. Census records constitute the vast majority of microfilmed records available currently through the rental program.

ACTION: Submission for OMB Review; Comment Request.

SUMMARY: Under the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3501 *et seq.*), and as part of its continuing effort to reduce paperwork and respondent burden, the National Science Foundation (NSF) is inviting the general public and other Federal agencies to comment on this proposed continuing information collection. This is the second notice for public comment; the first was published in the **Federal Register** at 72 FR 29002 and no substantial comments were received. NSF is forwarding the proposed submission to the Office of Management and Budget (OMB) for clearance simultaneously with the publication of this second notice.

DATES: Comments regarding these information collections are best assured of having their full effect if received by OMB within 30 days of publication in the **Federal Register**.

ADDRESSES: Written comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of NSF, including whether the information will have practical utility; (b) the accuracy of NSF's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; or (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Office of Information and Regulatory Affairs of OMB, Attention: Desk Officer for National Science Foundation, 725 17th Street, NW., Room 10235, Washington, DC 20503, and to Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Boulevard, Suite 295, Arlington, VA 22230 or send e-mail to splimpto@nsf.gov. Copies of the submission may be obtained by calling (703) 292-7556.

FOR FURTHER INFORMATION CONTACT:

Suzanne H. Plimpton, NSF Reports Clearance Officer at (703) 292-7556 or send e-mail to splimpto@nsf.gov.

An agency may not conduct or sponsor a collection of information

unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

SUPPLEMENTARY INFORMATION:

Title: FY 2007 and FY 2009 Survey of Science and Engineering Research Facilities.

Type of Request: Intent to seek approval to reinstate an information collection for three years.

Proposed Project: The National Science Foundation Survey of Science and Engineering Research Facilities is a Congressionally mandated (Pub. L. 99-159), biennial survey that has been conducted since 1986. The survey collects data on cyber infrastructure and on the amount, condition, and costs of the physical facilities used to conduct science and engineering research. It was expected by Congress that this survey would provide the data necessary to describe the status and needs of science and engineering research facilities and to formulate appropriate solutions to documented needs. During the FY 2003 and FY 2005 survey cycles, data were collected from a population of approximately 475 research-performing colleges and universities. This survey population was supplemented with approximately 190 nonprofit biomedical research institutions receiving research support from the National Institutes of Health. Beginning with the FY 2003 cycle, a new section was added to the survey requesting information on the computing and networking capacity at the surveyed institutions, an increasingly important part of the infrastructure for science and engineering research. Other important changes include updating the networking and computing section, based on technological changes that may occur.

Use of the Information: Analysis of the Facilities Survey data will provide updated information on the status of scientific and engineering research facilities and capabilities. The information can be used by Federal policy makers, planners, and budget analysts in making policy decisions, as well as by institutional academic officials, the scientific/engineering establishment, and state agencies and legislatures that fund universities.

Burden on the Public: Based on pretests, the time to complete the research space section of the survey (Part 1) ranged from 10 to 85 hours with

an average of 40 hours. The time to complete the computing and networking section of the survey (Part 2) averaged 60 minutes. Therefore, in total, the time per academic institution to complete the survey is expected to average approximately 41 hours. Assuming a 94% response rate, this would result in an estimated burden of 18,368 hours in FY 2007 and a similar burden in FY 2009. $[(.94 \text{ response rate} \times 477 \text{ institutions}) \times 41 \text{ hours} = 18,368]$.

Because biomedical research organizations generally are not as large, diverse or complex as colleges and universities, there is substantially less variation in the survey completion time. On average, completion time per biomedical research organization for Part 1 of the survey was 4 hours. For Part 2 of the survey, average completion time per biomedical research organization was 1 hour. Therefore, in total, the time per biomedical research organization to complete the survey is expected to average approximately 5 hours. Assuming a 94% response rate, this would result in an estimated burden of 895 hours in FY 2007 and a similar burden in FY 2009. $[(.94 \text{ response rate} \times \text{institutions})] \times 5 \text{ hours} = 895]$

Total burden hours for academic institutions and biomedical institutions are 19,263.

Dated: July 26, 2007.
