#### SUPPLEMENTARY INFORMATION:

1. The Commission announces the release of ten research studies on media ownership intended to inform the Commission's comprehensive review of its broadcast ownership policies undertaken in rulemaking proceeding MB Docket No. 06-121 involving the issues raised by the opinion of the U.S. Court of Appeals for the Third Circuit in *Prometheus v. FCC*, 373 F.3d 372 (2004) and its quadrennial review of its broadcast ownership rules and certain other rules, 2006 *Quadrennial Review Further Notice of Proposed Rule Making*, 71 FR 45511, August 9, 2006. The studies, which were conducted by outside researchers and by Commission staff, examine a range of issues that impact diversity, competition, and localism, three important policy goals of those rules. Pursuant to this public notice, the Commission seeks public comment on the studies, which are available on the Commission's Web site at <http://www.fcc.gov/ownership/studies.html>. The Commission will incorporate the studies and the public comments in the record of this proceeding. The studies will also be peer-reviewed and the Commission intends to use the data collected in the studies, as well as the comments, to inform its decisions in the ownership proceeding.

2. The following is a list of the media ownership studies released on July 31, 2007 and their respective authors and professional affiliations:

*Study 1: How People Get News and Information.* This study surveys

consumers about their use of media. It identifies consumers' primary, secondary, and tertiary sources of news and information and the frequency with which consumers access these sources. The author is Nielsen Media Research, Inc.

*Study 2: Ownership Structure and Robustness of Media.* This study describes the ownership structure and robustness of current media, including broadcast television, cable television, satellite television, broadcast radio, satellite radio, newspapers, and the Internet. The information gathered concerning the current media marketplace is compared to the state of the media marketplace when the Commission last reviewed its ownership rules in the years 2002-2003. The authors are Kiran Duwadi, Scott Roberts, and Andrew Wise, FCC; and the Technical Appendix author is Anthony Bush, FCC.

*Study 3: Television Station Ownership Structure and the Quantity and Quality of TV Programming.* This study analyzes the effect of ownership structure and robustness (as described in Study 2) on various measures of the quantity and the quality of different types of TV programming, including local news and public affairs, minority programming, children's programming, family programming, religious programming, and violent and indecent content. The author is Gregory S. Crawford, Department of Economics, University of Arizona.

*Study 4: News Operations.* This study, which is divided into four sections, collects data on the size and scope of the news operations of radio and television stations and newspapers. It also analyzes the relationship between the nature of the news operations and market characteristics, including ownership structure and robustness. *Section I is The Impact of Ownership Structure on Television Stations' News and Public Affairs Programming* by author Daniel Shiman, FCC; *Section II is Ownership Structure, Market Characteristics and the Quantity of News and Public Affairs Programming: An Empirical Analysis of Radio Airplay*, by author Kenneth Lynch, FCC; *Section III is Factors that Affect a Radio Station's Propensity to Adopt a News Format*, by author Craig Stroup, FCC; and *Section IV is The Effect of Ownership and Market Structure on News Operations*, by author Pedro Almoguera, FCC.

*Study 5: Station Ownership and Programming in Radio.* This study uses station-level data to examine how ownership structure affects the programming and audience of radio
