SUPPLEMENTARY INFORMATION:

Summary

The purpose of the 2007 Tether
 Challenge is to develop very strong

tether material for use in various
 structural applications. The competition
 requires a 50% improvement in
 breaking force from year to year, starting
 with a commercially available tether in
 2006. Additional requirements (such as
 operating temperature range, vacuum
 compatibility, and controlled electrical
 conductivity) will be added in future
 years.

I. Challenge Basis and Prize Amount

The complete 2007 Tether Challenge
 purse is \$500,000. The 2007 Tether
 Challenge will be conducted in two
 rounds. The first round will pit tethers
 from two teams directly against each
 other to determine the team with the
 strongest tether. The second round will
 determine if the first-round winner(s) is/
 are at least 50% stronger than a house
 tether that represents off-the-shelf
 materials. If it is (or they are), that/those
 team(s) will win the competition and
 share the prize purse.

II. Eligibility

The Centennial Challenges Program
 has established the following language
 in the 2007 Tether Challenge Team
 Agreement governing eligibility. For this
 section, challenge is the 2007 Tether
 Challenge.

A team is an individual or private
 entity, or a group of individuals or
 private entities, that register to
 participate in challenge. A team is
 comprised of a team leader and team
 members. A team leader is, by
 definition, also a team member.

Team members are participants on the
 team that are not the team leader. To be
 eligible to win the challenge prize, an
 individual or entity, (a) In the case of a
 private entity, shall be incorporated in
 and maintain a primary place of
 business in the United States, and (b) in
 the case of an individual, whether
 participating individually or as a
 member of a group, shall be a citizen or
 permanent resident of the United States.

A team leader is a single private entity
 or individual which is the sole agent
 representing a team regarding its
 participation in challenge. In the case of
 the team leader that is a private entity,
 it must appoint an individual who is an
 officer of the private entity to represent
 the team leader. All team members will
 apply to register for the challenge
 through team leader and must receive
 written concurrence by Spaceward.

All team members must execute an
 "Adoption of Agreement" committing to
 all terms of this agreement. By signing
 below, team leader represents that all
 team members have executed the
 Adoption of Agreement and that no one
 else will become a member of the team

or participate in the challenge until
 such new team member has signed this
 agreement. Spaceward may disqualify
 any team if it discovers that a person is
 acting as a team member who has not
 signed this agreement. Team leader will
 provide Spaceward with a copy of the
 "Adoption of Agreement" signed by
 each team member.

Any U.S. Government organization or
 organization principally or substantially
 funded by the Federal Government,
 including Federally Funded Research
 and Development Centers, Government-
 owned, contractor operated (GOCO)
 facilities, and University Affiliated
 Research Centers, are ineligible to be a
 team leader or team member.

SUPPLEMENTARY INFORMATION:

Summary

The 2007 Beam Power Challenge is designed to promote the development of new power distribution technologies. These technologies can be applied to many aspects of space exploration, including surface- or space-based point-to-point power transmission or delivery for robotic and/or human expeditions to planetary surfaces. This challenge may also support the development of far-term space infrastructure concepts such as space elevators and solar power satellites.

This challenge requires teams to design and build a climber (a machine that can go up and down a tether ribbon) while carrying a payload. Power will be beamed from a transmitter to a receiver on the climber.

I. Challenge Basis and Prize Amount

The 2007 Beam Power Challenge total purse is \$500,000. Each climber must climb to a specified height traveling at a minimum speed of 1 meter per second. The teams with the highest score (the product of average velocity and payload mass normalized by the climber mass) will win the competition.

II. Eligibility

The Centennial Challenges Program has established the following language in the 2007 Beam Power Challenge Team Agreement governing eligibility. For this section, CHALLENGE is the 2007 Beam Power Challenge.

All TEAM MEMBERS must execute an "Adoption of AGREEMENT" committing to all terms of this AGREEMENT. By signing below, TEAM LEADER represents that all Team Members have executed the Adoption of Agreement and that no one else will become a member of the TEAM or participate in the CHALLENGE until such new TEAM MEMBER has signed this Agreement. SPACEWARD may disqualify any TEAM if it discovers that a person is acting as a TEAM MEMBER who has not signed this Agreement. TEAM LEADER will provide SPACEWARD with a copy of the "Adoption of Agreement" signed by each team member.

Any U.S. Government organization or organization principally or substantially funded by the Federal Government, including Federally Funded Research and Development Centers, Government-owned, contractor operated (GOCO) facilities, and University Affiliated Research Centers, are ineligible to be a TEAM LEADER or TEAM MEMBER.
