SUPPLEMENTARY INFORMATION:

I. Background

The ETA 207 Report, Nonmonetary Determination Activities, contains state data on the number and types of issues that are adjudicated when

unemployment insurance (UI) claims are filed. It also has data on the number of disqualifications that are issued for reasons associated with a claimant's separation from employment and reasons related to a claimant's continuing eligibility for benefits. These data are used by the Office of Workforce Security (OWS) to determine workload counts for allocation of administrative funds, to analyze the ratio of disqualifications to determinations, and to examine and evaluate the program effect of nonmonetary activities.

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. Current Actions

The continued collection of the information contained on the ETA 207 report is necessary to enable the OWS to continue evaluating state performance in the nonmonetary determination area and to continue using the data as a key input to the administrative funding process.
