

the public or for limited inspection.” Contact information for individual reporters is collected, but only for purposes of quality control/quality assurance questions regarding the report. Responses are voluntary. We intend to release data collected on the National Biological Information Infrastructure Web site <http://www.nbii.gov>, but all personal data about the reporter—name, address, phone number, and/or e-mail address—are removed from the publicly accessible database. The database complies with all Department of the Interior requirements and policies for security and data integrity.

Frequency: The frequency is once, unless the reporter voluntarily submits more than one observation.

Estimated Number and Description of Respondents: Approximately 50–100 public citizens annually.

Estimated Annual Reporting and Recordkeeping “Hour” Burden: The currently approved “hour” burden for the NARCAM data collection form is 150 hours. We estimate the public reporting burden averages 30 minutes per response. This includes the time for reviewing instructions, and completing and reviewing the information. Because many individuals submit more than one malformation report during a single online session, some respondents will exceed the average of 30 minutes per reporting session. The approved “hour” burden of 150 hours is calculated based upon the total number of average annual malformation reports, and not the average number of citizens submitting a report.

Estimated Annual Reporting and Recordkeeping “Non-Hour Cost” Burden: We have identified no “non-hour cost” burden associated with the NARCAM form.

Public Disclosure Statement: The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information, you are not obligated to respond.

Comments: Before submitting an ICR to OMB, PRA section 3506(c)(2)(A) requires each agency “* * * to provide notice * * * and otherwise consult with members of the public and affected agencies concerning each proposed collection of information * * *”. Agencies must specifically solicit comments to: (a) Evaluate whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) evaluate the accuracy of the agency’s estimate of the

burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

Agencies must also estimate the “non-hour cost” burdens to respondents or recordkeepers resulting from the collection of information. Therefore, if you have costs to generate, maintain, and disclose this information, you should comment and provide your total capital and startup cost components or annual operation, maintenance, and purchase of service components. You should describe the methods you use to estimate major cost factors, including system and technology acquisition, expected useful life of capital equipment, discount rate(s), and the period over which you incur costs. Capital and startup costs include, among other items, computers and software you purchase to prepare for collecting information, monitoring, and record storage facilities. You should not include estimates for equipment or services purchased: (i) Before October 1, 1995; (ii) to comply with requirements not associated with the information collection; (iii) for reasons other than to provide information or keep records for the Government; or (iv) as part of customary and usual business or private practices.

We will summarize written responses to this notice and address them in our submission for OMB approval. As a result of your comments, we will make any necessary adjustments to the burden in our submission to OMB.

Public Comment Policy: Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Geological Survey

Scientific Earthquake Studies Advisory Committee

AGENCY: U.S. Geological Survey.

ACTION: Notice of meeting.

SUMMARY: Pursuant to Public Law 106–503, the Scientific Earthquake Studies Advisory Committee (SESC) will hold its 16th meeting. The meeting location is the Paso Robles Inn, 1103 Spring Street, Paso Robles, California 93446. The Committee is comprised of members from academia, industry, and State government. The Committee shall advise the Director of the U.S. Geological Survey (USGS) on matters relating to the USGS’s participation in the National Earthquake Hazards Reduction Program.

The Committee will receive updates and provide guidance on Earthquake Hazards Program activities and the status of teams supported by the Program, as well as a report from the Advanced National Seismic System steering committee.

Meetings of the Scientific Earthquake Studies Advisory Committee are open to the public.

DATES: September 5, 2007, commencing at 8:30 a.m. and adjourning at 5 p.m.

Contact: Dr. William S. Leith, U.S. Geological Survey, MS 905, 12201 Sunrise Valley Drive, Reston, Virginia 20192, (703) 648–6786, wleith@usgs.gov.

Dated: August 14, 2007.

David Applegate,

Acting Associate Director for Geology.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[ID–304–2821–HU–DU8G]

Notice of closure; emergency/safety, Idaho

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of closure—emergency/safety, Idaho.

SUMMARY: The Bureau of Land Management, in coordination with the Salmon-Challis National Forest, has closed the Darling Creek road and associated connecting roads and trails while the agencies fight the Shower Bath Fire, approximately 10 miles north of Challis, Idaho.

DATES: The closure is effective immediately, and will remain in place through the duration of the Shower Bath Fire, or until such time as the Authorized Officer determines the roads are again safe for public use.

ADDRESSES: The address of the BLM Authorized Officer is: Field Manager, Challis Field Office (CFO), 801 Blue Mountain Road, Challis, Idaho 83226.

FOR FURTHER INFORMATION CONTACT: David Rosenkrance, BLM Challis Field Manager, (208) 879-6206.

Authority: This emergency closure notice is issued under the authority of 43 CFR 8364.1(a). Violations of this closure are punishable by a fine not to exceed \$1,000 or imprisonment not to exceed 12 months. Persons who are administratively exempt from the closure include any Federal, State, or local officer or employee acting within the scope of their duties, members of any organized rescue or fire-fighting force in the performance of an official duty, or any person holding written permission from the BLM.

Dated: August 15, 2007.

David Rosenkrance,
Challis Field Manager.

Bureau of Land Management

[AK-930-5420-FR-L042; AA-085787]

Notice of Application for a Recordable Disclaimer of Interest for Lands Underlying the Stikine River in Alaska

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The State of Alaska (State) has filed an application for a Recordable Disclaimer of Interest from the United States in those lands underlying the Stikine River, located in Southeast Alaska. The State asserts that the Stikine River was navigable and unreserved at the time of statehood; therefore, title to the submerged lands passed to the State at the time of statehood (1959). The lands included in the application are within the exterior boundary of the Tongass National Forest, created by Presidential Proclamation of February 16, 1909, and administered by the U.S. Forest Service in the Department of Agriculture.

DATES: Comments on the State of Alaska's application should be submitted on or before November 20, 2007. The Bureau of Land Management (BLM) has prepared a Draft Summary Report. Comments on the Draft

Summary Report should be submitted on or before October 22, 2007. The State's application and the BLM Draft Summary Report will be posted on the BLM-Alaska Web site: <http://www.blm.gov/ak/ak930/rdi/index.html>

ADDRESSES: Comments on the State of Alaska's application or the BLM Draft Summary Report should be sent to the Chief, Branch of Survey Planning and Preparation (AK-927), Division of Cadastral Survey, BLM Alaska State Office, 222 West 7th Avenue, #13, Anchorage, Alaska 99513-7599.

FOR FURTHER INFORMATION CONTACT: Mike Brown at (907) 271-3602 or Mike_C_Brown@ak.blm.gov or visit the BLM-Alaska Web site <http://www.blm.gov/ak/ak930/rdi/index.html>.

SUPPLEMENTARY INFORMATION: On February 17, 2005, the State of Alaska (State) filed an application for a Recordable Disclaimer of Interest pursuant to Section 315 of the Federal Land Policy and Management Act and the regulations contained in 43 CFR Subpart 1864 for those lands underlying the Stikine River (AA-085787). A Recordable Disclaimer of Interest, if issued, will confirm the United States has no valid interest in the subject lands. The notice is intended to notify the public of the pending application and the State's grounds for supporting it. The State asserts that the Stikine River is navigable and unreserved; therefore, under the Equal Footing Doctrine and Submerged Lands Act of 1953, ownership of these lands automatically passed from the United States to the State at the time of statehood in 1959. The State did not identify any known adverse claimant or occupant of the affected lands. The applied for lands are within the exterior boundary of the Tongass National Forest, created by Presidential Proclamation of February 16, 1909, and administered by the U.S. Forest Service in the Department of Agriculture.

A final decision on the merits of the application will not be made before November 20, 2007. During the ninety (90) day notice period, interested parties may comment upon the State's application (AA-085787) and supporting evidence. Interested parties may also comment on the evidence presented in the BLM Draft Summary Report within sixty (60) days of the date of this notice. The State's application and the BLM Draft Summary Report will be posted on the BLM-Alaska Web site: <http://www.blm.gov/ak/ak930/rdi/index.html>.

Comments, including names and street addresses of the commenters, will be available for public review at the

Alaska State Office (see address above), during regular business hours 7:30 a.m. to 4:30 p.m., Monday through Friday, except Federal holidays. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Authority: 43 CFR 1864.2(a)).

Dated: June 28, 2007.

Craig Frichtl,

Chief, Branch of Survey Planning and Preparation.

Notice of Applications for Recordable Disclaimers of Interest for Lands Underlying Little Scottie Creek and Scottie Creek in Alaska

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The State of Alaska (State) has filed applications for Recordable Disclaimers of Interest from the United States in those lands underlying Little Scottie Creek and Scottie Creek, located in the Tanana River region in Interior, Alaska. The State asserts that Scottie Creek and Little Scottie Creek were navigable and unreserved at the time of statehood; therefore, title to the submerged lands passed to the State at the time of statehood (1959). A portion of these lands are within the Tetlin National Wildlife Refuge, administered by the United States Fish and Wildlife Service.

DATES: Comments on the State of Alaska's applications should be submitted on or before November 20, 2007. The Bureau of Land Management (BLM) has prepared two Draft Summary Reports, one for each water body. Comments on the Draft Summary Reports should be submitted on or before October 22, 2007. The State's applications and the BLM Draft Summary Reports will be posted on the
