NUCLEAR REGULATORY COMMISSION

Public Meeting Notice of Nuclear Energy Institute/U.S. Nuclear Regulatory Commission Working Groups

AGENCY: Nuclear Regulatory Commission.

ACTION: Solicitation of interest in working group participation.

DATES: August 23, 2007.

Time: 8 a.m.

Location: U.S. Nuclear Regulatory Commission, Executive Boulevard Building, 6003 Executive Boulevard, Rooms, EBB-1-B13 and EBB-1-B15, Rockville, MD 20852.

FOR FURTHER INFORMATION CONTACT:

James Smith, Project Manager, Technical Support Branch, Special Projects and Technical Support Directorate, Division of Fuel Cycle Safety and Safeguards, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, MS EBB2-C40M, Washington, DC 20555-0001. Telephone: (301) 492-3234; fax number: (301) 492-6521; e-mail: jas4@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The Nuclear Regulatory Commission (NRC) held a public workshop with the Nuclear Energy Institute and other stakeholders on June 14, 2007, to discuss certain implementation issues related to the implementation of subpart H of 10 CFR part 70: (1) Part 70, Appendix A Reporting, (2) refinement of the definition of Uranium Solubility under part 70, (3) the use of Digital Instrumentation and Control in safety and process settings, (4) the § 70.72 Facility Change Process, and (5) the possible Enforcement Policy Revisions.

Of the path forward for each of these five issues, four included a short term resolution to address the problem via small working groups comprised of industry and NRC representatives producing a product (white paper) which would ultimately be reviewed/approved by management representatives from both NRC and NEI and/or Industry representative management with an opportunity for members of the public to participate if desired. The exception to this small working group approach was the resolution of the issues associated with the use of Digital Instrumentation and Control in safety and process settings. Since this issue was far reaching, that could impact other nuclear arenas, some already addressing this area already pursuing research in this area, it was proposed that industry participate in the current steering committees involved in addressing these issues and NRC will facilitate interested industry members admission/seating on these committees so that their interests can be heard.

In addition to the small working group approach, for Enforcement Policy Revisions, a multiple day public workshop in Region II with participation by the NRC's Offices of Enforcement and General Counsel should be held to establish the limits to what can be changed in the Enforcement Policy by the small working group.

II. Summary

The purpose of this notice is to provide notice of the date and location of the first kickoff meeting of these small working groups as these white papers are developed. The number of persons participating in these groups will be limited to one or two; therefore, the first one or two person expressing interest in a particular group will have priority for participation in the working group; however, all meetings of these groups will be noticed and open to the public. Please contact the staff contact listed above to express your interest in participating in one or more of these working groups.

Dated at Rockville, Maryland, this 14th day of August 2007.

For the Nuclear Regulatory Commission.

Deborah A. Jackson,

Chief, Technical Support Branch, Special Projects and Technical Support Directorate, Division of Fuel Cycle Safety and Safeguards, Office of Nuclear Material Safety and Safeguards.

RAILROAD RETIREMENT BOARD

Proposed Collection; Comment Request

Summary: In accordance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 which provides opportunity for public comment on new or revised data collections, the Railroad Retirement Board (RRB) will publish periodic summaries of proposed data collections.

Comments are invited on: (a) Whether the proposed information collection is necessary for the proper performance of the functions of the agency, including whether the information has practical utility; (b) the accuracy of the RRB's estimate of the burden of the collection of the information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden related to the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

Title and Purpose of Information Collection

Application and Claim for Unemployment Benefits and Employment Service, OMB 3220-0022. Section 2 of the Railroad

Unemployment Insurance Act (RUIA), provides unemployment benefits for qualified railroad employees. These benefits are generally payable for each day of unemployment in excess of four during a registration period (normally a period of 14 days).

Section 12 of the RUIA provides that the RRB establish, maintain and operate free employment facilities directed toward the reemployment of railroad employees. The procedures for applying for the unemployment benefits and employment service and for registering and claiming the benefits are prescribed in 20 CFR part 325.

The RRB utilizes the following forms to collect the information necessary to pay unemployment benefits: Form UI-1 (or its Internet equivalent, Form UI-1 (Internet), *Application for Unemployment Benefits and Employment Service*, is completed by a claimant for unemployment benefits once in a benefit year, at the time of first registration. Completion of Form UI-1 or UI-1 (Internet) also registers an unemployment claimant for the RRB's employment service. The RRB proposes no changes to Form UI-1 or UI-1 (Internet).

The RRB also utilizes Form UI-3, (or its Internet equivalent Form UI-3 (Internet) *Claim for Unemployment Benefits* for use in claiming unemployment benefits for days of unemployment in a particular registration period, normally a period of 14 days. The RRB proposes no changes to Form UI-3 or UI-3 (Internet).

Completion of Forms UI-1, UI-1 (Internet), UI-3 and UI-3 (Internet) is required to obtain or retain benefits. The number of responses required of each claimant varies, depending on their period of unemployment. The RRB estimates that approximately 9,977 Form UI-1's (9257 paper and 720 Internet) will be filed annually. Completion time for Form UI-1 and UI-1 (Internet) is estimated at 10 minutes. The RRB estimates that approximately 74,326 Form UI-3's (65,035 manual and 9,291 Internet) will be filed annually. Completion time for Form UI-3 and the UI-3 (Internet) is estimated at 6 minutes.

Additional Information or Comments: To request more information or to obtain a copy of the information collection justification, forms, and/or supporting material, please call the RRB Clearance Officer at (312) 751-3363 or send an e-mail request to Charles.Mierzwa@RRB.GOV. Comments regarding the information collection should be addressed to Ronald J. Hodapp, Railroad Retirement Board, 844 North Rush Street, Chicago, Illinois
