

should also be transmitted to the Secretary of the Commission either by e-mail addressed to the Office of the Secretary, U.S. Nuclear Regulatory Commission, HEARINGDOCKET@nrc.gov, or by facsimile transmission addressed to the Office of the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC, Attention: Rulemakings and Adjudications Staff at 301-415-1101 (the verification number is 301-415-1966).

A copy of the request for hearing and petition for leave to intervene must also be sent to the Director, Office of Nuclear Reactor Regulation and to the Assistant General Counsel for Operating Reactors and High Level Waste Programs, Office of the General Counsel, with both copies addressed to the U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. The NRC further requests that copies be transmitted either by facsimile transmission to 301-415-3725 or by e-mail to OGCMAILCENTER@nrc.gov.

If a person other than the Licensee requests a hearing, he or she shall set forth with particularity the manner in which his or her interest is adversely affected by this Order and shall address the criteria set forth in 10 CFR 2.309, "Hearing Requests, Petitions to Intervene, Requirements for Standing, and Contentions."

If a hearing is requested by the Licensee or a person whose interest is adversely affected, the Commission will issue an order designating the time and place of any hearing. If a hearing is held, the issue to be considered at such hearing shall be whether this Order should be sustained.

In the absence of any request for a hearing or written approval of an extension of time in which to request a hearing, the provisions specified in Section IV above shall be effective and final 30 days from the date of publication of this Order in the **Federal Register** without further order or proceedings. If an extension of time for requesting a hearing has been approved, the provisions specified in Section IV shall be final when the extension expires if a hearing request has not been received.

In accordance with 10 CFR 51.10(d), this Order is not subject to Section 102(2) of the National Environmental Policy Act, as amended. The NRC staff notes, however, that with respect to environmental impacts associated with the changes imposed by this Order as described in the safety evaluation, the changes would, if imposed by other than an Order, meet the definition of a categorical exclusion in accordance

with 10 CFR 51.22(c)(14)(v). Thus, pursuant to either 10 CFR 51.10(d) or 10 CFR 51.22(c)(14)(v), neither an environmental assessment nor an environmental impact statement is required.

For further information, see the application from the Licensee dated March 31, 2004 (Agencywide Documents Access Management System (ADAMS) Accession No. ML041040772), available for public inspection at the Commission's Public Document Room (PDR), located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike (first floor), Rockville, MD. Publicly available records will be accessible electronically from the ADAMS Public Electronic Reading Room on the Internet at the NRC Web site, <http://www.nrc.gov/reading-rm/adams.html>. SUPPLEMENTARY INFORMATION:

I. Introduction

The Nuclear Regulatory Commission (NRC) is considering issuance of a

license amendment to Source Material License No. STC-133 issued to the Defense Logistics Agency (the Licensee), to authorize decommissioning of its Hammond Depot (the Facility) in Hammond, Indiana under the Licensee's Decommissioning Plan (DP).

An NRC administrative review, documented in a letter to the Defense Logistics Agency dated October 19, 2006, found the DP acceptable to begin a technical review.

If the NRC approves the DP, the approval will be documented in an amendment to NRC License No. STC-133. However, before approving the proposed amendment, the NRC will need to make the findings required by the Atomic Energy Act of 1954, as amended, and NRC's regulations. These findings will be documented in a Safety Evaluation Report and an Environmental Assessment and/or an Environmental Impact Statement. The license will be amended to authorize release of the Facility for unrestricted use if this amendment is approved following completion of decommissioning activities and verification by the NRC that the radiological criteria for license termination have been met.

II. Opportunity to Request a Hearing

The NRC hereby provides notice that this is a proceeding on an application for a license amendment regarding decommissioning of the Facility located in Hammond, Indiana. In accordance with the general requirements in subpart C of 10 CFR part 2, as amended on January 14, 2004 (69 FR 2182), any person whose interest may be affected by this proceeding and who desires to participate as a party must file a written request for a hearing and a specification of the contentions which the person seeks to have litigated in the hearing.

In accordance with 10 CFR 2.302(a), a request for a hearing must be filed with the Commission either by:

In accordance with 10 CFR 2.302(b), all documents offered for filing must be accompanied by proof of service on all parties to the proceeding or their attorneys of record as required by law or by rule or order of the Commission, including:

1. The applicant, Defense Logistics Agency, Defense National Stockpile Center, 8725 John J. Kingman Road, Suite 3229, Fort Belvoir, Virginia, 22060-6223, *Attention:* Michael Pecullan, Radiation Safety Officer; and
2. The NRC staff, by delivery to the Office of the General Counsel, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852, or by mail addressed to the Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Hearing requests should also be transmitted to the Office of the General Counsel, either by means of facsimile transmission to (301) 415-3725, or by e-mail to ogcmailcenter@nrc.gov.

The formal requirements for documents contained in 10 CFR 2.304 (b), (c), (d), and (e), must be met. In accordance with 10 CFR 2.304(f), a document filed by electronic mail or facsimile transmission need not comply with the formal requirements of 10 CFR 2.304 (b), (c), and (d), as long as an original and two (2) copies otherwise complying with all of the requirements of 10 CFR 2.304 (b), (c), and (d) are mailed within two (2) days thereafter to the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, *Attention:* Rulemakings and Adjudications Staff.

In accordance with 10 CFR 2.309(b), a request for a hearing must be filed by April 2, 2007.

In addition to meeting other applicable requirements of 10 CFR 2.309, the general requirements involving a request for a hearing filed by a person other than an applicant must state:

1. The name, address, and telephone number of the requester;
2. The nature of the requester's right under the Act to be made a party to the proceeding;
3. The nature and extent of the requester's property, financial or other interest in the proceeding;
4. The possible effect of any decision or order that may be issued in the proceeding on the requester's interest; and

5. The circumstances establishing that the request for a hearing is timely in accordance with 10 CFR 2.309(b).

In accordance with 10 CFR 2.309 (f)(1), a request for hearing or petitions for leave to intervene must set forth with particularity the contentions sought to be raised. For each contention, the request or petition must:

1. Provide a specific statement of the issue of law or fact to be raised or controverted;
2. Provide a brief explanation of the basis for the contention;
3. Demonstrate that the issue raised in the contention is within the scope of the proceeding;
4. Demonstrate that the issue raised in the contention is material to the findings that the NRC must make to support the action that is involved in the proceeding;
5. Provide a concise statement of the alleged facts or expert opinions which support the requester's/petitioner's position on the issue and on which the requester/petitioner intends to rely to support its position on the issue; and
6. Provide sufficient information to show that a genuine dispute exists with the applicant on a material issue of law or fact. This information must include references to specific portions of the application (including the applicant's environmental report and safety report) that the requester/petitioner disputes and the supporting reasons for each dispute, or, if the requester/petitioner believes the application fails to contain information on a relevant matter as required by law, the identification of each failure and the supporting reasons for the requester's/petitioner's belief.

In addition, in accordance with 10 CFR 2.309(f)(2), contentions must be based on documents or other information available at the time the petition is to be filed, such as the application, supporting safety analysis report, environmental report or other supporting document filed by an applicant or licensee, or otherwise available to the petitioner. On issues arising under the National Environmental Policy Act, the requester/petitioner shall file contentions based on the applicant's environmental report. The requester/petitioner may amend those contentions or file new contentions if there are data or conclusions in the NRC draft, or final environmental impact statement, environmental assessment, or any supplements relating thereto, that differ significantly from the data or conclusions in the applicant's documents. Otherwise, contentions may be amended or new contentions filed

after the initial filing only with leave of the presiding officer.

Each contention shall be given a separate numeric or alpha designation within one of the following groups:

1. Technical—primarily concerns issues relating to matters discussed or referenced in the Safety Evaluation Report for the proposed action.
2. Environmental—primarily concerns issues relating to matters discussed or referenced in the Environmental Report for the proposed action.
3. Emergency Planning—primarily concerns issues relating to matters discussed or referenced in the Emergency Plan as it relates to the proposed action.
4. Physical Security—primarily concerns issues relating to matters discussed or referenced in the Physical Security Plan as it relates to the proposed action.
5. Miscellaneous—does not fall into one of the categories outlined above.

If the requester/petitioner believes a contention raises issues that cannot be classified as primarily falling into one of these categories, the requester/petitioner must set forth the contention and supporting basis, in full, separately for each category into which the requester/petitioner asserts the contention belongs with a separate designation for that category.

Requesters/petitioners should, when possible, consult with each other in preparing contentions and combine similar subject matter concerns into a joint contention, for which one of the co-sponsoring requesters/petitioners is designated the lead representative. Further, in accordance with 10 CFR 2.309(f)(3), any requester/petitioner that wishes to adopt a contention proposed by another requester/petitioner must do so in writing within ten days of the date the contention is filed, and designate a representative who shall have the authority to act for the requester/petitioner.

In accordance with 10 CFR 2.309(g), a request for hearing and/or petition for leave to intervene may also address the selection of the hearing procedures, taking into account the provisions of 10 CFR 2.310.
