**AGENCY:** Federal Emergency  
Management Agency, DHS.

**ACTION:** Final rule.

**SUMMARY:** Base (1% annual chance) Flood Elevations (BFEs) and modified BFEs are made final for the communities listed below. The BFEs and modified BFEs are the basis for the floodplain management measures that each community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

**DATES:** The date of issuance of the Flood Insurance Rate Map (FIRM) showing BFEs and modified BFEs for each community. This date may be obtained by contacting the office where the maps

are available for inspection as indicated on the table below.

**ADDRESSES:** The final BFEs for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the table below.

**FOR FURTHER INFORMATION CONTACT:** William R. Blanton, Jr., Engineering Management Section, Mitigation Directorate, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646-3151.

**SUPPLEMENTARY INFORMATION:** The Federal Emergency Management Agency (FEMA) makes the final determinations listed below for the modified BFEs for each community listed. These modified elevations have been published in newspapers of local circulation and ninety (90) days have elapsed since that publication. The Mitigation Division Director of FEMA has resolved any appeals resulting from this notification.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR part 67. FEMA has developed criteria for floodplain management in floodprone areas in accordance with 44 CFR part 60.

Interested lessees and owners of real property are encouraged to review the proof Flood Insurance Study and FIRM available at the address cited below for each community. The BFEs and modified BFEs are made final in the communities listed below. Elevations at selected locations in each community are shown.

*National Environmental Policy Act.* This final rule is categorically excluded from the requirements of 44 CFR part 10, Environmental Consideration. An environmental impact assessment has not been prepared.

*Regulatory Flexibility Act.* As flood elevation determinations are not within the scope of the Regulatory Flexibility Act, 5 U.S.C. 601-612, a regulatory flexibility analysis is not required.

*Regulatory Classification.* This final rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

## FEDERAL COMMUNICATIONS COMMISSION

### 47 CFR Part 73

[DA 07-2650; MB Docket No. 05-282; RM-11229; RM-11333; RM-11337]

**Radio Broadcasting Services;  
Anderson, SC; Aragon, GA;  
Chattanooga, Decatur, Harrison and  
Lynchburg, TN; Ringgold and  
Rockmart, GA; Spring City and  
Wartrace, TN**

**AGENCY:** Federal Communications  
Commission.

**ACTION:** Final rule.

**SUMMARY:** The Media Bureau, at the request of Woman's World Broadcasting, Inc., deletes vacant Channel 296A at Lynchburg, Tennessee, from the FM Table of Allotments, and allots Channel 230A at Lynchburg, Tennessee, as a vacant channel in the FM Table of Allotments. The purpose of this channel substitution is to accommodate a change of community for FM Station WTSH, which is moving from Rockmart to Aragon, Georgia. The reference coordinates for Channel 230A at Lynchburg, Tennessee, are 35-21-58 NL and 86-17-18 WL, at a site 12.1 km (7.5 miles) northeast of Lynchburg. The Media Bureau also dismisses a

counterproposal filed by Bart Walker to allot Channel 230A to Wartrace, Tennessee, as a first local aural service. See **SUPPLEMENTARY INFORMATION.**

**DATES:** This rule is effective October 17, 2007.

**ADDRESSES:** Secretary, Federal Communications Commission, 445 12th Street, SW., Washington, DC 20554.

**FOR FURTHER INFORMATION CONTACT:**

Deborah A. Dupont, Media Bureau, (202) 418-2180.

**SUPPLEMENTARY INFORMATION:** This is a synopsis of the Commission's *Report and Order*, MB Docket No. 05-282, adopted June 13, 2007, and released June 15, 2007. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Reference Information Center (Room CY-A257), 445 12th Street, SW., Washington, DC 20554. The complete text of this decision may also be purchased from the Commission's copy contractor, Best Copy and Printing, Inc., Portals II, 445 12th Street, SW., Room CY-B402, Washington, DC 20554, telephone 1-800-378-3160 or <http://www.BCPIWEB.com>. The Commission will send a copy of this Report and Order in a report to be sent to Congress and the Government Accountability Office pursuant to the Congressional Review Act, see 5 U.S.C. 801(a)(1)(A).

Every FM channel change set forth in the Report and Order formerly required rule changes to Section 73.202(b), the FM Table of Allotments. See 70 FR 66329 (November 2, 2005). As a result of changes to the Commission's processing rules, modifications of FM channels for existing stations are no longer listed in Section 73.202(b) and are instead reflected in the Media Bureau's Consolidated Data Base System

(CDBS). See *Revision of Procedures Governing Amendments to FM Table of Allotments and Changes of Community of License in the Radio Broadcast Services, Report and Order*, 21 FCC Rcd 14212 (December 20, 2006). Only the substitution of Channel 230A for vacant Channel 296A at Lynchburg, Tennessee, which involves an amendment to Section 73.202(b), is summarized and published in the **Federal Register**. Although the *Report and Order*, as revised, sets forth an effective date of October 8, 2007, the amendment to the FM Table of Allotments and the specified FM license modifications will be effective 30 days after publication of this summary in the **Federal Register** in compliance with Sections 1.427 and 1.429 of the Commission's rules.
