The HICCAC is in the public interest and supports EPA in performing its duties and responsibilities.

The primary responsibility of the HICCAC is to conduct an expert peer review of the external review draft report entitled: "Synthesis and Assessment Product 4.6: Analyses of the effects of global change on human health and welfare and human systems," (SAP 4.6). The HICCAC will provide advice to the EPA Administrator on the conduct of this study, and within the context of the basic study plan, the HICCAC will advise on: (1) The specific issues to be addressed; (2) appropriate technical approaches; (3) the usefulness of information provided to decision makers; (4) the quality of the content of the final report; (5) compliance with the Information Quality Act; and (6) other matters important to the successful achievement of the objectives of the study. Additionally, once the Agency

completes all responses to comments received from the HICCAC and the public, the HICCAC will review the Agency's responses.

EPA has already released the external draft SAP 4.6 report for public review. The **Federal Register** notice (FR72 39798) announcing a forty-five day public comment period was posted on the U.S. Climate Change Science Program (CCSP) Web site (<http://www.climatechange.gov>) on July 20, 2007.
