SUPPLEMENTARY INFORMATION:

Description

The information collection submitted for OMB review contains the following:

1. *Collection of Information:* FERC 542 "Gas Pipeline Rates: Rate Tracking".
2. *Sponsor:* Federal Energy Regulatory Commission.
3. *Control No.:* 1902-0070.

The Commission is now requesting that OMB approve and extend the expiration date for an additional three years with no changes to the existing collection. The information filed with the Commission is mandatory.

4. *Necessity of the Collection of Information:* Submission of the information is necessary for the Commission to carry out its responsibilities in implementing the statutory provisions of the sections 4, 5 and 16 of the Natural Gas Act (NGA) (15

U.S.C. 717-717w). These statutes empower the Commission to collect natural gas transmission cost information from interstate natural gas transporters for the purpose of verifying that these costs, which are passed on to pipeline customers, are just and reasonable.

Interstate natural gas pipeline companies are required by the Commission to track their transportation associated costs to allow for the Commission's review and where appropriate, approval of the pass-through of these costs to pipeline customers. Most of these FERC-542 tracking filings are monthly accountings of the cost of fuel or electric power necessary to operate compressor stations. Others track the costs of (1) annual charges of various types and (2) other types of rate adjustments.

Tracking filings may be submitted at any time or on a regularly scheduled basis in accordance with the pipeline company's tariff. Filings may be either: (1) Accepted; (2) suspended and set for hearing; (3) suspended, but not set for hearing; or (4) suspended for further review, such as technical conference or another type of Commission action.

The Commission implements these filing requirements in the Code of Federal Regulations (CFR) under 18 CFR part 154, §§ 154.4, 154.7, 154.101, 154.201, 154.207-.209, 154.307 and 154.401-.403.

5. *Respondent Description:* The respondent universe currently comprises 95 companies (on average) subject to the Commission's jurisdiction.

6. *Estimated Burden:* 13,300 total hours, 95 respondents (average), 3.5 responses per respondent, and 40 hours per response (rounded off and average time).

7. *Estimated Cost Burden to Respondents:* 13,300 hours/2080 hours per year × \$122,137 per year = \$ 780,972. The cost per respondent is equal to \$8,221.

Statutory Authority: Statutory provisions of sections 4, 5 and 16 of the Natural Gas Act (NGA) (15 U.S.C. 717-717w).

Secretary.
