

year. We use the data, a component of the index of leading economic indicators, to estimate the number of housing units started, completed, and sold, if single-family. The Census Bureau also uses these data to select samples for its demographic surveys. Policymakers, planners, businessmen/women, and others use the detailed geographic data collected from state and local officials on new residential construction authorized by building permits to monitor growth and plan for local services, and to develop production and marketing plans. The BPS is the only source of statistics on residential construction for states and smaller geographic areas.

Affected Public: State, local or tribal government.

Frequency: Monthly and annually.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13, United States Code, Section 182.

OMB Desk Officer: Brian Harris-Kojetin, (202) 395-7314.

Copies of the above information collection proposal can be obtained by calling or writing Diana Hynek, Departmental Paperwork Clearance Officer, (202) 482-0266, Department of Commerce, room 6625, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at dhynek@doc.gov).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to Brian Harris-Kojetin, OMB Desk Officer either by fax (202-395-7245) or e-mail (bharrisk@omb.eop.gov).

Dated: January 31, 2007.

Gwellnar Banks,

Management Analyst, Office of the Chief Information Officer.

BILLING CODE 3510-07-P

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: U.S. Census Bureau.

Title: 2004 Panel of the Survey of Program Participation, Waves 10, 11, and 12.

Form Number(s): SIPP 241005(L) Director's Letter; SIPP/CAPI Automated Instrument; SIPP 24003 Reminder Card.

Agency Approval Number: 0607-0905.

Type of Request: Extension of a currently approved collection.

Burden: 44,799.

Number of Respondents: 44,713.

Average Hours Per Response: 30 minutes.

Needs and Uses: The U.S. Census Bureau requests authorization from the Office of Management and Budget (OMB) to extend the expiration date for the 2004 Panel of the Survey of Income and Program Participation (SIPP) to February 28, 2008.

This will provide the time necessary to conduct the Wave 10, 11, and 12 interviews for the 2004 Panel of the SIPP. The interviews will include the core SIPP, which has already been approved by OMB under Authorization No. 0607-0905. Due to budget constraints, there are no topical modules for the Wave 10, 11, and 12 interviews.

The SIPP represents a source of information for a wide variety of topics and allows information for separate topics to be integrated to form a single and unified database so that the interaction between tax, transfer, and other government and private policies can be examined. Government domestic policy formulators depend heavily upon the SIPP information concerning the distribution of income received directly as money or indirectly as in-kind benefits and the effect of tax and transfer programs on this distribution. They also need improved and expanded data on the income and general economic and financial situation of the U.S. population. The SIPP has provided these kinds of data on a continuing basis since 1983, permitting levels of economic well-being and changes in these levels to be measured over time.

The survey is molded around a central "core" of labor force and income questions that remain fixed throughout the life of a panel.

The SIPP is designed as a continuing series of national panels of interviewed households that are introduced every few years, with each panel having durations of 3 to 4 years. The 2004 Panel is scheduled for 4 years and will include 12 waves which began on February 1, 2004. All household members 15 years old or over are interviewed using regular proxy-respondent rules. They are interviewed a total of 12 times (12 waves), at 4-month intervals, making the SIPP a longitudinal survey. Sample people (all household members present at the time of the first interview) who move within the country and reasonably close to a SIPP primary sampling unit will be

followed and interviewed at their new address. Individuals 15 years old or over who enter the household after Wave 1 will be interviewed; however, if these people move, they are not followed unless they happen to move along with a Wave 1 sample individual.

Data provided by the SIPP are being used by economic policymakers, the Congress, state and local governments, and federal agencies that administer social welfare or transfer payment programs, such as the Department of Health and Human Services and the Department of Agriculture.

Affected Public: Individuals or households.

Frequency: Every 4 months.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13 U.S.C., Section 182.

OMB Desk Officer: Brian Harris-Kojetin, (202) 395-7314.

Copies of the above information collection proposal can be obtained by calling or writing Diana Hynek, Departmental Paperwork Clearance Officer, (202) 482-0266, Department of Commerce, room 6625, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at dhynek@doc.gov).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to Brian Harris-Kojetin, OMB Desk Officer either by fax (202-395-7245) or e-mail (bharrisk@omb.eop.gov).

Dated: January 31, 2007.

Gwellnar Banks,

Office of the Chief Information Officer.

International Trade Administration

Pure Magnesium in Granular Form from the People's Republic of China: Final Results of the Expedited Sunset Review of the Antidumping Duty Order

A-570-864

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On October 2, 2006, the Department of Commerce ("the Department") initiated a sunset review of the antidumping duty order on pure magnesium in granular form from the People's Republic of China ("PRC") pursuant to section 751(c) of the Tariff Act of 1930, as amended ("the Act"). On the basis of a notice of intent to participate and an adequate substantive

response filed on behalf of domestic interested parties and inadequate response from respondent interested parties, the Department conducted an expedited (120-day) sunset review. As a result of this sunset review, the Department finds that revocation of the antidumping duty order would be likely to lead to continuation or recurrence of dumping. The dumping margins are identified in the *Final Results of Review* section of this notice.

EFFECTIVE DATE: February 6, 2007.

FOR FURTHER INFORMATION CONTACT:

Hilary E. Sadler, Esq., or Juanita Chen, AD/CVD Operations, Office 8, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street & Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-4340, or (202) 482-1904, respectively.

SUPPLEMENTARY INFORMATION:

Background

On October 2, 2006, the Department published the notice of initiation of the second sunset review of the antidumping duty order on pure magnesium in granular form from the PRC pursuant to section 751(c) of the Act. *See Initiation of Five-year ("Sunset") Reviews*, 71 FR 57921 (October 2, 2006). The Department received the Notice of Intent to Participate from US Magnesium LLC¹ ("US Magnesium"), the domestic party, within the deadline specified in section 351.218(d)(1)(i) of the Department's regulations ("Sunset Regulations"). US Magnesium claimed interested party status under section 771(9)(C) of the Act, as a domestic producer of pure magnesium in granular form. The Department received a complete substantive response only from US Magnesium within the 30-day deadline specified in section 351.218(d)(3)(i) of the Department's regulations. The Department received no responses from the respondent interested parties. As a result, pursuant to section 751(c)(5)(A) of the Act and section 351.218(e)(1)(ii)(C)(2) of the Department's regulations, the Department conducted an expedited (120-day) sunset review of this order.

Scope of the Order

There is an existing antidumping duty order on pure magnesium from the People's Republic of China (PRC). *See Notice of Antidumping Duty Orders: Pure Magnesium From the People's*

Republic of China, the Russian Federation and Ukraine; Notice of Amended Final Determination of Sales at Less Than Fair Value: Antidumping Duty Investigation of Pure Magnesium From the Russian Federation, 60 FR 25691 (May 12, 1995). The scope of this order excludes pure magnesium that is already covered by the existing order on pure magnesium in ingot form and currently classifiable under item numbers 8104.11.00 and 8104.19.00 of the Harmonized Tariff Schedule of the United States (HTSUS). The scope of this order includes imports of pure magnesium products, regardless of chemistry, including, without limitation, raspings, granules, turnings, chips, powder, and briquettes, except as noted above. Pure magnesium includes: (1) Products that contain at least 99.95 percent primary magnesium, by weight (generally referred to as "ultra-pure" magnesium); (2) products that contain less than 99.95 percent but not less than 99.8 percent primary magnesium, by weight (generally referred to as "pure" magnesium); (3) chemical combinations of pure magnesium and other material(s) in which the pure magnesium content is 50 percent or greater, but less than 99.8 percent, by weight that do not conform to an "ASTM Specification for Magnesium Alloy"² (generally referred to as "off-specification pure" magnesium); and (4) physical mixtures of pure magnesium and other material(s) in which the pure magnesium content is 50 percent or greater, but less than 99.8 percent, by weight. Excluded from this order are mixtures containing 90 percent or less pure magnesium by weight and one or more of certain non-magnesium granular materials to make magnesium-based reagent mixtures. The non-magnesium granular materials of which the Department is aware used to make such excluded reagents are: Lime, calcium metal, calcium silicon, calcium carbide, calcium carbonate, carbon, slag coagulants, fluorspar, nepheline syenite, feldspar, aluminum, alumina (Al₂O₃), calcium aluminate, soda ash, hydrocarbons, graphite, coke, silicon, rare earth metals/mischmetal, cryolite, silica/fly ash, magnesium oxide, periclase, ferroalloys, dolomitic lime, and colemanite. A party importing a magnesium-based reagent which includes one or more materials not on this list is required to seek a scope clarification from the Department before

such a mixture may be imported free of antidumping duties.

The merchandise subject to this order is currently classifiable under item 8104.30.00 of the HTSUS. Although the HTSUS subheading is provided for convenience and customs purposes, the written description of the scope of this order is dispositive.

Analysis of Comments Received

All issues raised in this review is addressed in the "Issues and Decision Memorandum" ("Decision Memo") from Stephen J. Claeys, Deputy Assistant Secretary for Import Administration, to David M. Spooner, Assistant Secretary for Import Administration, dated January 30, 2007, which is hereby adopted by this notice. The issues discussed in the Decision Memo include the likelihood of continuation or recurrence of dumping and the magnitude of the margins likely to prevail if the order were to be revoked. Parties can find a complete discussion of all issues raised in this review and the corresponding recommendations in this public memorandum which is on file in room B-099 of the main Commerce Building.

In addition, a complete version of the Decision Memo can be accessed directly on the Web at <http://ia.ita.doc.gov/frn>, under the heading "February 2007." The paper copy and electronic versions of the Decision Memo are identical in content.

Final Results of Review

We determine that revocation of the antidumping duty order on pure magnesium in granular form from the PRC would be likely to lead to continuation or recurrence of dumping at the following weighted-average percentage margins:

Manufacturers/Exporters/Producers	Weighted-Average Margin (percent)
Minmetals	24.67
PRC-wide Rate	305.56

We are issuing and publishing the results and notice in accordance with sections 751(c), 752, and 777(i)(1) of the Act.

Dated: January 30, 2007.

David M. Spooner,

Assistant Secretary for Import Administration.
