SUPPLEMENTARY INFORMATION: *Title:* Importation of Fruits and Vegetables. *OMB Number:* 0579-0128.

Type of Request: Extension of approval of an information collection.

Abstract: As authorized by the Plant Protection Act (7 U.S.C. 7701 *et seq.*) (PPA), the Secretary of Agriculture may prohibit or restrict the importation, entry, exportation, or movement in interstate commerce of any plant, plant product, biological control organism, noxious weed, means of conveyance, or other article if the Secretary determines that the prohibition or restriction is necessary to prevent a plant pest or noxious weed from being introduced into or disseminated within the United States. This authority has been delegated to the Animal and Plant Health Inspection Service (APHIS), which administers regulations to implement the PPA.

The regulations in Subpart-Fruits and Vegetables (7 CFR 319.56 through 319.56-47) allow a number of fruits and vegetables to be imported into the United States, under specified conditions, from certain parts of the

world. Importation of papayas from certain regions of Brazil, Costa Rica, El Salvador, Guatemala, Honduras, Nicaragua, and Panama into the continental United States, Alaska, Puerto Rico, and the U.S. Virgin Islands requires the use of certain information collection activities, including phytosanitary certificates, maintaining fruit fly monitoring records, and marking the cartons.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning this information collection activity. These comments will help us:

(1) Evaluate whether the information collection is necessary for the proper performance of our agency's functions, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the information collection, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies, e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.9940 hours per response.

Respondents: Producers of papayas and plant health officials in regions of Brazil, Costa Rica, El Salvador, Guatemala, Honduras, Nicaragua, and Panama.

Estimated annual number of respondents: 50.

Estimated annual number of responses per respondent: 10.08.

Estimated annual number of responses: 500.

Estimated total annual burden on respondents: 501 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 19th day of September 2007.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.

SUPPLEMENTARY INFORMATION:

Title: Karnal Bunt; Importation of Wheat and Related Articles.

OMB Number: 0579-0240.

Type of Request: Extension of approval of an information collection.

Abstract: As authorized by the Plant Protection Act (7 U.S.C. 7701 *et seq.*) (PPA), the Secretary of Agriculture may prohibit or restrict the importation, entry, exportation, or movement in interstate commerce of any plant, plant product, biological control organism, noxious weed, means of conveyance, or other article if the Secretary determines that the prohibition or restriction is necessary to prevent a plant pest or noxious weed from being introduced into or disseminated within the United States. This authority has been delegated to the Animal and Plant Health Inspection Service (APHIS), which administers regulations to implement the PPA.

To prevent the introduction and spread of various wheat diseases, including Karnal bunt (a fungal disease), APHIS' regulations in Subpart-Wheat Diseases (7 CFR 319.59-1 through 319.59-4) prohibit the importation of wheat seed, straw, and other products into the United States from regions affected with Karnal bunt.

The regulations require that certain regulated articles imported from Karnal bunt-free areas within regions regulated for Karnal bunt be accompanied by a phytosanitary certificate that must be completed by an official of the national plant protection organization of the region of origin. The certificate must

include a declaration stating that the regulated articles originated in areas where Karnal bunt is not known to occur, as attested to either by survey results or by testing for bunted kernels or spores.

We are asking the Office of Management and Budget (OMB) to approve our use of this information collection activity for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning this information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the information collection, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the information collection on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies, e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 1.2 hours per response.

Respondents: Foreign national plant protection organization officials.

Estimated annual number of respondents: 500.

Estimated annual number of responses per respondent: 1.

Estimated annual number of responses: 504.

Estimated total annual burden on respondents: 600 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 19th day of September 2007.
