The applicant proposes to collect, necropsy, sample, and salvage dead shortnose sturgeon (*Acipenser brevirostrum*) found beached, sunken, floating etc., or taken legally during other authorized activities, for the purposes of education and scientific research. The purpose of the proposed research is to use the collected sturgeon to support past, ongoing, and anticipated research including, but not limited to, morphology, genetics, histopathology, contaminants, age and growth, food habits, and human impact/anthropogenic mortality. Additionally, this work would help promote the conservation of shortnose sturgeon by enabling educators to receive and maintain parts from deceased sturgeon. The number of fish collected annually would vary, but likely would not exceed 100 per year, unless there was a catastrophic event (e.g. oil spill, fish kill). Carcasses would be collected opportunistically throughout their range

(east coast and rivers of the United States in the northeast and southeast regions) for a period of five years.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Determination under the Textile and Apparel Commercial Availability Provision of the Dominican Republic-Central America-United States Free Trade Agreement (CAFTA-DR Agreement)

September 19, 2007.

AGENCY: The Committee for the Implementation of Textile Agreements (CITA).

ACTION: Determination to add a product in unrestricted quantities to Annex 3.25 of the CAFTA-DR Agreement.

EFFECTIVE DATE: September 26, 2007.

SUMMARY: The Committee for the Implementation of Textile Agreements (CITA) has determined that certain two-way stretch woven fabric of polyester, rayon, and elastomeric yarns, as specified below, are not available in commercial quantities in a timely manner in the CAFTA-DR countries. The product will be added to the list in Annex 3.25 of the CAFTA-DR Agreement in unrestricted quantities.

FOR FURTHER INFORMATION CONTACT: Richard Stetson, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482 2582.

FOR FURTHER INFORMATION ON-LINE: <http://web.ita.doc.gov/tacgi/CaftaReqTrack.nsf>. Reference number: 34.2007.08.20.Fabric.Alston&BirdforGlenRiverTrading.

SUPPLEMENTARY INFORMATION:

Authority: Section 203(o)(4) of the Dominican Republic-Central America-United States Free Trade Agreement Implementation Act (CAFTA-DR Act); the Statement of Administrative Action (SAA), accompanying the CAFTA-DR Act; Presidential Proclamations 7987 (February 28, 2006) and 7996 (March 31, 2006).

BACKGROUND:

The CAFTA-DR Agreement provides a list in Annex 3.25 for fabrics, yarns, and fibers that the Parties to the CAFTA-DR Agreement have determined are not available in commercial quantities in a

timely manner in the territory of any Party. The CAFTA-DR Agreement provides that this list may be modified pursuant to Article 3.25(4)-(5), when the President of the United States determines that a fabric, yarn, or fiber is not available in commercial quantities in a timely manner in the territory of any Party. See Annex 3.25, Note; see also section 203(o)(4)(C) of the Act.

The CAFTA-DR Act requires the President to establish procedures governing the submission of a request and providing opportunity for interested entities to submit comments and supporting evidence before a commercial availability determination is made. In Presidential Proclamations 7987 and 7996, the President delegated to CITA the authority under section 203(o)(4) of CAFTA-DR Act for

modifying the Annex 3.25 list. On March 21, 2007, CITA published final procedures it would follow in considering requests to modify the Annex 3.25 list (72 FR 13256).

On August 20, 2007, the Chairman of CITA received a commercial availability request from Alston & Bird, LLP, on behalf of Glen River Trading, for certain two-way stretch woven fabrics of polyester, rayon, and elastomeric yarns, of the specifications detailed below. On August 22, 2007, CITA notified interested parties of, and posted on its website, the accepted petition and requested that interested entities provide, by September 4, 2007, a response advising of its objection to the commercial availability request or its ability to supply the subject product. CITA also explained that rebuttals to

responses were due to CITA by September 10, 2007.

No interested entity filed a response advising of its objection to the request or its ability to supply the subject product.

In accordance with Section 203(o)(4)(C) of the CAFTA-DR Act, and its procedures, as no interested entity submitted a response objecting to the request or expressing an ability to supply the subject product, CITA has determined to add the specified fabrics to the list in Annex 3.25 of the CAFTA-DR Agreement.

The subject fabrics are added to the list in Annex 3.25 of the CAFTA-DR Agreement in unrestricted quantities.

	* NOTE:The designation "34/1 (English 20/1) or finer" describes a range of yarn specifications for yarn in its greige condition before dyeing and finishing of the yarn (if applicable) and before weaving, dyeing and finishing of the fabric. It is intended as a specification to be followed by the mill in sourcing yarn used to produce the fabric. Dyeing, finishing and weaving can alter the characteristic of the yarn as it appears in the finished fabric. This specification therefore includes yarns appearing in the finished fabric as coarser than 34/1 (English 20/1) provided that the coarser appearance occurs solely as the result of such processes.
