SUPPLEMENTARY INFORMATION:

Title: Noise Barriers Inventory Request.

Background: The Federal-aid highway program has always been based on a strong State-Federal partnership. At the core of that partnership is a philosophy of trust and flexibility, and a belief that the States are in the best position to make investment decisions that are based on the needs and priorities of their citizens. The FHWA noise regulations give each State highway agency flexibility in determining the reasonableness and feasibility of noise abatement and, thus, in balancing the benefits of noise abatement against the overall adverse social, economic, and environmental effects and costs of the noise abatement measures. The State highway agencies base their determination on the interest of the overall public good, keeping in mind all the elements of the highway program.

The flexibility in noise abatement decision-making is reflected by data indicating that not all States have built noise barriers. Through the end of 2004, 45 State Departments of Transportation (SDOT) and the Commonwealth of Puerto Rico have constructed over 2,205 linear miles of barriers at a cost of over \$2.6 billion (\$3.4 billion in 2004

dollars). Five States and the District of Columbia have not constructed noise barriers. Ten State highway agencies account for approximately 64 percent of total barrier length and 72 percent of total barrier cost. The previously distributed listing can be found at <http://www.fhwa.dot.gov/environment/noise/barrier/summary.htm>. This listing continues to be extremely useful in the management of the highway traffic noise program, in our technical assistance efforts for State highway agencies, and in responding to inquiries from congressional sources, Federal, State, and local agencies, and the general public. An updated listing of noise barriers will be distributed nationally for use in the highway traffic noise program. This collection request is for all noise barriers constructed by December 31, 2007. This would include all funding sources and material types. Although the collection concentrates on the 2005, 2006, and 2007 calendar years, a State highway agency may, after review of the "Summary of Noise Barriers Constructed by December 31, 2004" document, delete, modify or add information to any calendar year.

Respondents: Each of the 50 SDOTs, the District of Columbia, and the Commonwealth of Puerto Rico.

Frequency: Every 3 years.

Estimated Average Burden per Response: It is estimated that on average it would take 8 hours to respond to this request. The actual response time will be dependent on the number of noise barriers constructed, the availability of this information, and the collection method. For the SDOT that did not construct noise barriers within the time period, there is no burden.

Estimated Total Annual Burden Hours: It is estimated that the estimated total annual burden is 139 hours annually.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the FHWA's performance; (2) the accuracy of the estimated burdens; (3) ways for the FHWA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized, including the use of electronic technology, without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended; and 49 CFR 1.48.

Issued On: September 18, 2007.

Chief, Management Programs and Analysis Division.

ACTION: Notice of limitation on claims for judicial review of actions by FHWA and other Federal Agencies.

SUMMARY: This notice announces actions taken by the FHWA and other Federal agencies that are final within the meaning of 23 U.S.C. 139(I)(1). The actions relate to a proposed highway project, the Western Wake Freeway, which begins at NC 55 at Old Smithfield Road (SR 1172) between Apex and Holly Springs and ends at NC 55 near Alston Avenue north of Cary in Wake County. The Western Wake Freeway is also known as State Transportation Improvement Program Project R-2635. It is part of the Outer Wake Expressway, a circumferential freeway around Raleigh, North Carolina. Those actions grant licenses, permits, and approvals for the project.

DATES: By this notice, the FHWA is advising the public of final agency actions subject to 23 U.S.C. 139(I)(1). A claim seeking judicial review of the Federal agency actions on the highway project will be barred unless the claim is filed on or before March 25, 2008. If the Federal law that authorizes judicial review of a claim provides a time period of less than 180 days for filing such claim, then that shorter time period still applies.

The project is also known as State Transportation Improvement Program (STIP) Project R-2635. The project would run generally in a north-south direction, roughly parallel to and just west of the existing NC 55.

On the south, the project begins at NC 55 at Old Smithfield Road (SR 1172) between Apex and Holly Springs; on the north, it ends at NC 55 near Alston Avenue north of Cary in Wake County. The actions by the Federal agencies, and the laws under which such actions were taken, are described in the Final Environmental Impact Statement (FEIS) for the project, approved on January 21, 2004, in the FHWA Record of Decision (ROD) issued on April 30, 2004 approving the Western Wake Freeway project, and in a Reevaluation Report for Administrative Action issued on September 7, 2007 ("Reevaluation Report"), determining that a supplemental environmental impact statement is not required, and in other documents in the FHWA administrative record. The FEIS, ROD, Reevaluation Report and other documents in the FHWA administrative record file are available by contacting the FHWA or NCTA at the addresses provided above. The FHWA FEIS, ROD, and Reevaluation Report can be viewed at the offices of the North Carolina Turnpike Authority, 5400 Glenwood Avenue, Suite 400, Raleigh, North Carolina, 27612.
