SUPPLEMENTARY INFORMATION:

Background and Purpose of Amendments

The SRBC adopted final rulemaking on December 5, 2006, published at 71 FR 78570, December 29, 2006 establishing: (1) The scope and procedures for review and approval of projects under Section 3.10 of the Susquehanna River Basin Compact, Pub. L. 91-575; 83 Stat. 1509 *et seq.* (the compact); (2) special standards under Section 3.4(2) of the compact governing water withdrawals, consumptive use of water; diversions of the basin's waters, water conservation, and water use registration; and (3) procedures for hearings and enforcement actions.

The December 2006 rulemaking made extensive revisions to project review regulations that were promulgated in May 1995. Since 1995, SRBC has continued to suspend the application of its consumptive use regulation to agricultural water uses pending the implementation of a mitigation method that is more suited to agriculture's unique circumstances.

The Commission's member states have taken definitive steps to support projects that will provide storage and release of water to mitigate agricultural water use in their jurisdictions and thus satisfy the standards for consumptive use mitigation set forth in 18 CFR 806.22. The proposed rulemaking would amend 18 CFR 806.4(a)(1) to provide an exception for agricultural water use projects from the consumptive use review and approval requirements of 18 CFR 806.4(a)(1) and (3), unless water is diverted for use beyond lands that are at least partially in the basin, and provided the Commission makes a determination that the state-sponsored projects are sufficient to meet the consumptive use mitigation standards contained in 18 CFR 806.22.

A second amendment clarifies the definition of "agricultural water use" in 18 CFR 806.3, 806.4 and 806.6 by inserting the word "products" after the word "turf." This will clarify that the maintenance of turf grass as part of a project or facility, such as a golf course, does not constitute an agricultural water use. Only the raising of turf products for sale such as sod would constitute an

agricultural water use with this clarification.

A third amendment corrects an error made as part of the December 5, 2006 rulemaking in the "Authority" citation to Part 808 by replacing the erroneous Sec. 3.5(9) with the correct Sec. 3.4(9).

Provided the commission

determines that low flow augmentation projects sponsored by the commission's member states provide sufficient mitigation for agricultural water use to meet the standards set forth in § 806.22, and except as otherwise provided below, agricultural water use projects shall not be subject to the requirements of this paragraph (a)(1).

Notwithstanding the foregoing, an agricultural water use project involving a diversion of the waters of the basin shall be subject to such requirements unless the property, or contiguous parcels of property, upon which the agricultural water use project occurs is located at least partially within the basin.

Dated: September 21, 2007.
