II. Background

The Office of Pesticide Programs is entrusted with the responsibility to help ensure the safety of the American food supply, the education and protection from unreasonable risk of those who apply or are exposed to pesticides

occupationally or through use of products, and general protection of the environment and special ecosystems from potential risks posed by pesticides.

The Charter for EPA's Pesticide Program Dialogue Committee (PPDC) was established under the Federal Advisory Committee Act (FACA), Public Law 92-463, in September 1995, and has been renewed every 2 years since that time. PPDC's Charter was renewed November 5, 2005, for another 2-year period. Currently, EPA is in the process of renewing the PPDC Charter for another 2-year term until November 2009. The purpose of PPDC is to provide advice and recommendations to the EPA Administrator on issues associated with pesticide regulatory development and reform initiatives, evolving public policy and program implementation issues, and science issues associated with evaluating and reducing risks from use of pesticides. It is determined that PPDC is in the public interest in connection with the performance of duties imposed on the Agency by law. The following sectors are represented on the PPDC: Pesticide industry and trade associations; environmental/public interest, consumer, and animal rights groups; farm worker organizations; pesticide user, grower, and commodity groups; Federal and State/local/Tribal governments; the general public; academia; and public health organizations.

Copies of the PPDC Charter are filed with appropriate committees of Congress and the Library of Congress and are available upon request.

III. How Can I Request to Participate in this Meeting?

PPDC meetings are open to the public and seating is available on a first-come basis. Persons interested in attending do not need to register in advance of the meeting.

SUPPLEMENTARY INFORMATION: Pursuant to the Federal Advisory Committee Act, Public Law 92-463, notice is hereby given that the SAB Panel for the Review of EPA's 2007 Report on the Environment will hold a public teleconference to discuss a draft advisory report on EPA's Report on the Environment 2007: Science Report. The SAB was established by 42 U.S.C. 4365 to provide independent scientific and technical advice to the Administrator on the technical basis for Agency positions and regulations. The SAB is a Federal Advisory Committee chartered under the Federal Advisory Committee Act (FACA), as amended, 5 U.S.C., App. The SAB will comply with the provisions of FACA and all appropriate SAB Staff Office procedural policies.

Background: In 2003, EPA issued a draft Report on the Environment describing the status of and trends in the environment and human health. The draft 2003 Report on the Environment

was reviewed by the SAB (see http://www.epa.gov/sab/pdf/sab_05_004.pdf). EPA used advice received from the SAB and comments from stakeholders to develop an improved and updated draft Report on the Environment 2007. The Report on the Environment 2007 consists of: a Science Report (ROE 2007 Science Report) containing detailed scientific and technical information, a Highlights Document written for concerned citizens, and an electronic document facilitating access to material in the reports. The ROE 2007 Science Report asks key questions about the current status of, and trends in, the condition of the environment and human health. These questions are intended to be relevant to EPA's current regulatory and programmatic activities and mission, and they have been answered using a suite of environmental and human health indicators.

EPA's Office of Research and Development requested that the SAB review the ROE 2007 Science Report. In response to EPA's request, the SAB Staff office formed the Panel for the Review of EPA's 2007 Report on the Environment. Background information on the Panel formation process was provided in a **Federal Register** notice published on May 25, 2006 (71 FR 30138). The Panel has previously held a teleconference and a face-to-face meeting (72 FR 29498). Information about the SAB Panel for the Review of EPA's 2007 Report on the Environment is available on the SAB Web site at: <http://www.epa.gov/sab>.

Availability of Meeting Materials: The draft Report on the Environment 2007: Science Report reviewed by the SAB Panel is available on the following EPA Office of Research and Development Web Site: <http://cfpub.epa.gov/ncea/cfm/recordisplay.cfm?deid=140917>. The agenda and other material for the upcoming public teleconference will be posted on the SAB Web Site at: <http://www.epa.gov/sab/> in advance of the teleconference.

Procedures for Providing Public Input: Interested members of the public may submit relevant written or oral information for the SAB Panel to consider during the advisory process. **Oral Statements:** In general, individuals or groups requesting an oral presentation at a public teleconference will be limited to three minutes per speaker, with no more than a total of 30 minutes for all speakers. Interested parties should contact Dr. Armitage, DFO, in writing (preferably via e-mail) at the contact information noted above, no later than October 17, 2007 to be placed on a list of public speakers for the teleconference. **Written Statements:**

Written statements should be received in the SAB Staff Office by October 17, 2007 so that the information may be made available to the SAB Panel members for their consideration. Written statements should be supplied to the DFO in the following formats: One hard copy with original signature, and one electronic copy via e-mail (acceptable file format: Adobe Acrobat PDF, WordPerfect, MS Word, MS PowerPoint, or Rich Text files in IBM-PC/Windows 98/2000/XP format).

Accessibility: For information on access or services for individuals with disabilities, please contact Dr. Armitage at the phone number or e-mail address noted above, preferably at least ten days prior to the meeting to give EPA as much time as possible to process your request.
