

maintenance reports and records. All reports are sent to the delegated state or local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA regional office. This information is being collected to assure compliance with 40 CFR part 60, subpart QQQ, as authorized in section 112 and 114(a) of the Clean Air Act. The required information consists of emissions data and other information that have been determined to be private.

An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. The OMB Control Number for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15, and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 34 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Petroleum refinery wastewater systems.
Estimated Number of Respondents: 135.

Frequency of Response: Initially, on occasion, quarterly, and semiannually.
Estimated Total Annual Hour Burden: 9,237.

Estimated Total Annual Cost: \$840,360, which includes \$0 annualized capital Start Up costs, \$17,550 annualized Operating and Maintenance costs (O&M), and \$822,810 annualized Labor costs.

Changes in the Estimates: There is no change in the labor hours in this ICR compared to the previous ICR. This is due to two considerations. First, the regulations have not changed over the past three years and are not anticipated to change over the next three years. Secondly, the growth rate for the

industry is very low, negative or non-existent, so there is no significant change in the overall labor hours.

There is however, a change in the cost estimate. The previous ICR used a cost figure that was rounded-up (\$18,000). This ICR uses the exact cost figure (\$17,550) resulting in a small cost decrease.

Since there are no changes in the regulatory requirements and there is not significant industry growth, the labor hours in the previous ICR are used in this ICR and there is no change in the labor hours to industry.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-8480-5]

Notice of Government-Owned Invention's Availability for Exclusive License: Biomass Concentrator Reactor

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA hereby gives notice of the option to exclusively license an invention for a specific field of use. Such a license would be royalty-bearing, revocable, and limited to a field of use associated with the invention described and claimed in the patent listed below, all U.S. patents issuing therefrom, and all reexamined and reissued patents granted in the United States in connection with such patent. The patent is: U.S. Patent No. 6,821,425, entitled "Biomass Concentrator Reactor," issued November 23, 2004.

DATES: EPA may execute one or more exclusive license(s) beginning November 26, 2007, and following a second notice indicating the EPA's intent to grant exclusive license(s), identifying the specific invention and the prospective licensee(s).

ADDRESSES: Comments to this notice must be submitted to Laura Scalise, Patent Attorney, Office of General Counsel (Mail Code 2377A), U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT: Laura Scalise, (202) 564-8303.

SUPPLEMENTARY INFORMATION: This notice is issued pursuant to 37 CFR 404.7(a)(1), which requires an agency to issue both a notice of availability of an invention for exclusive licensing, as well as a notice of intent to grant an exclusive license. Pursuant to 35 U.S.C. 207, EPA is authorized to grant licenses on federally-owned inventions, in exchange for royalties and other considerations.

The proposed exclusive license will contain appropriate terms, limitations, and conditions in accordance with the limitations and conditions of 35 U.S.C. 209 and 37 CFR 404.5 and 404.7 of the U.S. Government patent licensing regulations.

Interested parties should submit to EPA, at the address below, written interest in a license or written objections to license grants, together with supporting documentation. The documentation from interested parties or from objecting parties having an interest in practicing the above patent application should include an application for an exclusive or nonexclusive license with the information set forth in 37 CFR 404.8, including the license applicant's plan for development or marketing of the invention. The EPA Patent Counsel and other EPA officials will review all written responses and then make recommendations on a final decision to the Director of the National Risk Management Research Laboratory, who has been delegated the authority to issue patent licenses under EPA Delegation 1-55.

Dated: September 27, 2007.

Robert A. Friedrich,

Acting Associate General Counsel, General Law Office, Office of General Counsel.
