## NUCLEAR REGULATORY COMMISSION

### Supplement 1 to Revision 9 of NUREG-1021, "Operator Licensing Examination Standards for Power Reactors," and Supplement 1 to Revision 2 of NUREG-1122 [and -1123], "Knowledge and Abilities Catalog for Nuclear Power Plant Operators: Pressurized [Boiling] Water Reactors"

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Notice of availability.

**SUMMARY:** The Nuclear Regulatory Commission (NRC) has issued Supplement 1 to Revision 9 of NUREG-1021, "Operator Licensing Examination Standards for Power Reactors," and Supplement 1 to Revision 2 of NUREG-1122 [and -1123] "Knowledge and Abilities Catalog for Nuclear Power Plant Operators: Pressurized [Boiling] Water Reactors." These NUREGs provide policy and guidance for the development, administration, and grading of examinations used for licensing operators at nuclear power plants pursuant to the Commission's regulations in 10 CFR part 55, "Operators' Licenses." NUREG-1021 also provides guidance for maintaining operators' licenses and for the NRC to conduct requalification examinations, when necessary.

These NUREGs have been revised to implement a number of clarifications and enhancements that have been identified since Revision 9 to NUREG-1021 was published in July 2004 and Revision 2 to NUREG-1122 [and -1123] was published in June 1998. A draft of each of the Supplements was issued for comment on May 22, 2007 (72 FR 28728).

A summary of the comments received regarding the draft Supplements, and the NRC staff's response to those comments is available in the NRC's Public Electronic Reading Room (<http://www.nrc.gov/reading-rm/adams.html>), at accession number ML072600319. From this site, you can access the NRC's Agencywide Document Access and Management System (ADAMS), which provides text and image files of the NRC's public documents.

Supplement 1 to NUREG-1021 includes a number of minor changes that: (1) Clarify licensed operator medical requirements, including the use of prescription medications; (2) clarify the use of surrogate operators during dynamic simulator scenarios; (3) clarify the selection process for generic knowledge and ability (K/A) statements; (4) qualify the NRC review of post-examination comments; (5) provide additional guidance for maintaining an active license (watchstander proficiency) and license reactivation; and (6) conform with Supplement 1 to Revision 2 of NUREG-1122 [and -1123], which rewords and reorganizes Section 2, "Generic Knowledge and Abilities," and adds a new K/A topic for generator voltage and electric grid disturbances.

**Availability:** Copies of the three NUREG Supplements are being mailed to the plant or site manager at each nuclear power facility regulated by the NRC. The Supplements are also available electronically via the NRC's Public Electronic Reading Room (<http://www.nrc.gov/reading-rm/doc-collections/nuregs/>) and in the NRC's Public Document Room located at 11555 Rockville Pike, Rockville, Maryland. If you do not have electronic access to NRC documents, single copies of the Supplements are available, to the extent of supply, and may be requested by writing to the Office of Information Services, Information and Records Services, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

**DATES:** Supplement 1 to Revision 9 of NUREG-1021 and Supplement 1 to Revision 2 of NUREG-1122 [and -1123] will become effective for examinations that are confirmed 60 or more days after the date of this notice by issuance of an official corporate notification letter or at an earlier date agreed upon by the facility licensee and its NRC Regional Office. After the effective date, NRC initial operator licensing examinations are expected to be prepared and administered in accordance with the NUREG Supplements.

## OFFICE OF PERSONNEL MANAGEMENT

### Federal Prevailing Rate Advisory Committee; Open Committee Meetings

According to the provisions of section 10 of the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given that meetings of the Federal Prevailing Rate Advisory Committee will be held on—

Thursday, November 15, 2007,  
Thursday, December 13, 2007,  
Thursday, January 17, 2008.

The meetings will start at 10 a.m. and will be held in Room 5A06A, U.S. Office of Personnel Management Building, 1900 E Street, NW., Washington, DC.

The Federal Prevailing Rate Advisory Committee is composed of a Chair, five representatives from labor unions holding exclusive bargaining rights for Federal blue-collar employees, and five representatives from Federal agencies. Entitlement to membership on the Committee is provided for in 5 U.S.C. 5347.

The Committee's primary responsibility is to review the Prevailing Rate System and other matters pertinent to establishing prevailing rates under subchapter IV, chapter 53, 5 U.S.C., as amended, and from time to time advise the U.S. Office of Personnel Management.

These scheduled meetings will start in open session with both labor and management representatives attending. During the meetings either the labor members or the management members may caucus separately with the Chair to devise strategy and formulate positions. Premature disclosure of the matters discussed in these caucuses would unacceptably impair the ability of the Committee to reach a consensus on the matters being considered and would disrupt substantially the disposition of its business. Therefore, these caucuses will be closed to the public because of a determination made by the Director of the U.S. Office of Personnel Management under the provisions of section 10(d) of the Federal Advisory Committee Act (Pub. L. 92-463) and 5 U.S.C. 552b(c)(9)(B). These caucuses may, depending on the issues involved,
