

Applicants: National Grid USA.
Description: Amendment to and Notice of Partial Withdrawal of Application for Authorization to Issue Securities Under Section 204 of the Federal Power Act, and Motion for Waiver of 15-Day Waiting Period Under Commission Rule 216 of National Grid USA.

Filed Date: 10/15/2007.

Accession Number: 20071015-5140.

Comment Date: 5 p.m. Eastern Time on Monday, November 5, 2007.

Take notice that the Commission received the following open access transmission tariff filings:

Docket Numbers: OA07-90-001.

Applicants: MidAmerican Energy Company.

Description: Mid American Energy's substitute tariff sheet to reflect the correct methodology for calculation of transmission reserve margin in its Open Access Transmission Tariff—Attachment C filed September 11, 2007.

Filed Date: 10/16/2007.

Accession Number: 20071016-5040.

Comment Date: 5 p.m. Eastern Time on Tuesday, November 6, 2007.

Any person desiring to intervene or to protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) on or before 5 p.m. Eastern time on the specified comment date. It is not necessary to separately intervene again in a subdocket related to a compliance filing if you have previously intervened in the same docket. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. In reference to filings initiating a new proceeding, interventions or protests submitted on or before the comment deadline need not be served on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the

Federal Energy Regulatory Commission, 888 First St. NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Nathaniel J. Davis, Sr.,

Acting Deputy Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. PF07-15-000]

Algonquin Gas Transmission, LLC; Notice of Intent To Prepare an Environmental Impact Statement for the Proposed East to West Hubline Expansion Project, Request for Comments on Environmental Issues, and Notice of Public Scoping Meetings

October 16, 2007.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental impact statement (EIS) that will identify and address the environmental impacts that could result from the construction and operation of the East to West Hubline Expansion Project (E2W Project or Project). The E2W Project is proposed by Algonquin Gas Transmission, LLC (Algonquin), which is an indirect wholly owned subsidiary of Spectra Energy Corp. The Commission will use the EIS in its decision-making process to determine whether or not to authorize the Project. This notice describes the proposed Project facilities and explains the scoping process that will be used to gather input from the public and interested agencies on the Project. Your input will help determine the issues that need to be evaluated in the EIS. Please note that the scoping period for the Project will close on November 21, 2007.

Comments on the Project may be submitted in written form or verbally. In lieu of or in addition to sending written comments, you are invited to attend the public scoping meetings that have been scheduled in the Project area. These meetings are scheduled for November 5, 2007 in Randolph, Massachusetts; November 7, 2007 in North Andover, Massachusetts; and November 8, 2007 in Norwich, Connecticut. Further instructions on how to submit comments and additional details of the public scoping meetings are provided in the Public Participation section of this notice.

The FERC will be the lead federal agency for the preparation of the EIS and will prepare the document to satisfy the requirements of the National Environmental Policy Act (NEPA). The document will be used by the FERC to consider the environmental impacts that could result if it authorizes Algonquin's Project by issuing a Certificate of Public Convenience and Necessity under section 7 of the Natural Gas Act. It is the FERC's goal that other federal agencies

will participate in the environmental review process as cooperating agencies to satisfy their respective NEPA responsibilities.

The Project must also undergo an environmental review pursuant to the Massachusetts Environmental Policy Act (MEPA). The Massachusetts Executive Office of Energy and Environmental Affairs (MEEA) is the lead state agency with responsibility for ensuring compliance with the MEPA regulations for interstate natural gas pipeline projects. The MEPA regulations allow use of a Special Review Procedure that would establish a coordinated review of the Project by the FERC and the MEEA. Establishment of a coordinated review would enable the NEPA EIS (plus an addendum document) to serve as the Environmental Impact Report (EIR) required by MEPA. It is anticipated that the FERC and the MEEA will conduct a coordinated NEPA/MEPA review of the E2W Project to the maximum extent feasible.

The Massachusetts Energy Facility Siting Board (MEFSB) is an independent board that licenses major energy facilities in Massachusetts and is charged with ensuring a reliable energy supply for the Commonwealth with a minimum impact on the environment at the lowest possible cost. The MEFSB has no authority over the siting of interstate natural gas facilities; however, it represents the citizens of Massachusetts before the FERC on cases involving the construction of applicable energy infrastructure in Massachusetts. The two Massachusetts public scoping meetings announced in this notice will be joint scoping meetings with participation by the MEFSB.

The Connecticut Siting Council (CSC) is an independent board that licenses major energy facilities in Connecticut. The CSC regulates facility siting to balance the need for adequate and reliable public services at the lowest reasonable cost to consumers with the need to protect the environment and ecology of the state. Similar to the MEFSB, the CSC has no authority over the siting of interstate natural gas facilities; however, it may become a party before the FERC on cases involving the construction of applicable energy infrastructure in Connecticut. The CSC will participate in the FERC's Connecticut scoping meeting and will announce independent hearings at a later date.
