DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

[Docket No. FHWA-2007-0009]

Agency Information Collection Activities: Notice of Request for Renewal of a Previously Approved Information Collection

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice and request for comments.

SUMMARY: The FHWA invites public comments about our intention to request the Office of Management and Budget's (OMB) approval for renewal of a previously approved information collection that is summarized below under SUPPLEMENTARY INFORMATION. We are required to publish this notice in the Federal Register by the Paperwork Reduction Act of 1995.

DATES: Please submit comments by December 28, 2007.

ADDRESSES: You may submit comments identified by Docket ID Number FHWA-2007-0009 by any of the following methods:

Web Site: For access to the docket to read background documents or comments received, go to the Federal

eRulemaking Portal: <http://www.regulations.gov>. Follow the online instructions for submitting comments.

Fax: 1-202-493-2251.

Mail: Docket Management Facility, U.S. Department of Transportation, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue, SE., Washington, DC 20590.

Hand Delivery or Courier: U.S.

Department of Transportation, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue, SE., Washington, DC 20590, between 9 a.m. and 5 p.m. ET, Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Ann Shemaka, 202-366-1575, Federal Highway Administration, 1200 New Jersey Avenue, SE., Office of Bridge Technology, HIBT-30, Washington, DC 20590, between 7:30 a.m. to 4:30 p.m., Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION:

Title: Highway Bridge and National Bridge Inspection Programs previously titled National Bridge Inspection Standards.

OMB Control #: 2125-0501.

Background: The Highway Bridge and National Bridge Inspection Programs require bridge inspection and reporting at regular intervals for all highway bridges greater than 20 feet in length located on public roads. Title 23, U.S.C., Section 144 defines the Highway Bridge Program. Title 23, U.S.C., Section 151 defines the National Bridge Inspection Program. They are further defined in regulation, 23 CFR 650 C, National Bridge Inspection Standards, and 23 CFR 650 D, Highway Bridge Program.

Inspections of fracture critical bridges and underwater inspections are also required at prescribed intervals. The bridge inspection information that is provided to the FHWA on an annual basis is summarized on the Structure Inventory and Appraisal (SI&A) Sheet. The inspection information is used for multiple purposes, including: (1) The determination of the condition of the Nation's bridges; (2) as a basis for setting initial priorities for the replacement or rehabilitation of bridges under the Highway Bridge Program (HBP); and (3) for apportioning HBP funds to the States for bridge replacement or rehabilitation. In order to apportion funds for the HBP, the law requires that a cost to replace or rehabilitate each bridge needs to be determined. In order to determine that cost, the FHWA collects data on new and replaced bridges from the States annually. In addition, the information is used for strategic national defense needs and for preparing an annual report to Congress on the status of the Nation's highway bridges.

Respondents: 52 State highway agencies including the District of Columbia and Puerto Rico, and Federal agencies.

Estimated Average Burden per Response: The estimated average burden for each inspection is 8 hours. The estimated average burden for each cost collection report is 90 hours.

Estimated Total Annual Burden Hours: The annual burden associated with the inspection is 2,289,600 hours. The annual burden associated with the cost report is 4,680 hours for a combined annual burden of 2,294,280 hours.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the FHWA's performance; (2) the accuracy of the estimated burdens; (3) ways for the FHWA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized, including the use of electronic technology, without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended; and 49 CFR 1.48.

Issued on: October 23, 2007.

James R. Kabel,

Chief, Management Programs and Analysis Division.

BILLING CODE 4910-22-P

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Notice of Intent (for NEPA EIS); Environmental Impact Statement: Erie County, NY

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of Intent.

SUMMARY: The FHWA is issuing this notice to advise the public that an environmental impact statement will be prepared for proposed highway project: NYS Route 198 (Scajaquada Expressway) Corridor, PIN 5470.22, I-190 to NYS Route 33, City of Buffalo, Erie County, New York.

FOR FURTHER INFORMATION CONTACT:

Alan E. Taylor, Regional Director, NYSDOT Region 5; 100 Seneca Street, Buffalo NY 14203, Telephone: 716-847-3238; or Amy Jackson-Grove, Acting Division Administrator, Federal Highway Administration, New York division, Leo W. O'Brien Federal Building, 9th Floor, Clinton Avenue and North Pearl Street, Albany, New York 12207, Telephone: (518) 431-4127.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the New York State Department of Transportation (NYSDOT) will prepare an environmental impact statement (EIS) on a proposal to improve NYS Route 198 in Erie County, New York. The proposed improvement would involve the rehabilitation or reconstruction of the existing route

between Interstate 190 and NYS Route 33 in the City of Buffalo for a distance of about 3.3 miles.

NYS Route 198 (the Scajaquada Expressway) is an Urban Principal Arterial Expressway on the National Highway System connecting Interstate 190 and NYS Route 33 with traffic volumes between 34,000 and 54,000 vehicles per day, a design speed of 55 mph, and grade separated interchanges. The expressway is subject to congestion (a poor Level of Service at several intersections) and accidents (higher than expected rates), with a portion of the corridor identified as having "severe safety needs." There are also areas of poor pavement conditions and failing drainage systems. The expressway facility is at odds with the context of the surrounding culturally rich community resources, including a nationally renowned art gallery, an historic Olmsted-designed park, an historic cemetery, historic buildings, higher education institutions and residential neighborhoods. The expressway acts as a barrier, dividing the park and hindering the use of these resources by the community including pedestrians and bicyclists. A transportation facility is needed that balances the need to be in harmony with the surrounding community character with the need to provide safe and efficient transportation service for all modes of transportation through the affected area.

The range of alternatives will include no action and give consideration to design components derived from a previous study that investigated changing the expressway character of the existing facility by eliminating grade separated interchanges and providing design elements appropriate to an arterial including at-grade intersections with signals or roundabouts. Alternatives studied may include rehabilitation of the existing roadway, as well as full reconstruction including new curbs, highway drainage, sidewalks, bicycle paths and shared-use facilities, improved highway lighting and signing, and landscape enhancements. Areas of concern emphasized in the study will include potential environmental impacts upon the adjacent neighborhoods, parks, cultural resources, air quality and surface waters from construction, traffic and traffic noise. Additional input from Participating and Cooperating Agencies, and from the public, will be necessary before a final decision will be made regarding the full range of alternatives to be studied.

Letters describing the proposed action and soliciting comments will be sent to appropriate Federal, State, and local

agencies, and to private organizations and citizens who have previously expressed interest in this proposal. A series of public information meetings will be held in the City of Buffalo between November 2007 and February 2010. In addition, a public hearing will be held. Public notice will be given of the time and place of the meetings and hearings. The draft EIS will be available for public and agency review and comment. A formal NEPA scoping meeting will be held in the lecture hall of the main building at Medaille College, 18 Agassiz Circle, Buffalo, NY 14214 on November 28 at 6 p.m.

To ensure that the full range of issues related to this proposed action are addressed and all significant issues identified, comments and suggestions are invited from all interested parties. Comments or questions concerning this proposed action and the EIS should be directed to the NYSDOT or FHWA at the addresses provided above.

(Catalog of Federal Domestic Assistance Program Number 20.205, Highway Research, Planning and Construction. The regulations implementing Executive Order 12372 regarding intergovernmental consultation on Federal programs and activities apply to this program.)

Authority: 23 U.S.C. 315; U.S.C. 771.123.

Issued on: October 17, 2007.

Amy Jackson-Grove,

Acting Division Administrator, Federal Highway Administration, Albany, New York.

Notice of Final Federal Agency Actions on Proposed Highway in North Carolina

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of limitation on claims for judicial review of actions by FHWA and other federal agencies.

SUMMARY: This notice announces actions taken by the FHWA and other Federal agencies that are final within the meaning of 23 U.S.C. 139 (I)(1). The actions relate to a proposed highway project, Wilmington Bypass, from U.S. 17 to U.S. 421 in New Hanover and Brunswick Counties, Wilmington, North Carolina. Those actions grant licenses, permits, and approvals for the project.

DATES: By this notice, the FHWA is advising the public of final agency actions subject to 23 U.S.C. 139 (I)(1). A claim seeking judicial review of the
