Final Notice of Data Availability for EGU NO_x Annual and NO_x Ozone Season Allocations for the Clean Air Interstate Rule Federal Implementation Plan Trading Programs

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of data availability (NODA).

SUMMARY: On March 15, 2006, EPA promulgated Federal Implementation Plans (FIPs) for all States covered by the Clean Air Interstate Rule (CAIR). The CAIR FIPs will regulate electric generating units (EGUs) in the affected States and achieve the emission reductions required by CAIR until each affected State has an approved CAIR State Implementation Plan (SIP) to achieve the reductions. EPA will withdraw a State's FIP in coordination with approval of a full CAIR SIP implementing the requirements of CAIR.

The CAIR FIP indicates that the Administrator will determine by order the CAIR NO_x allowance allocations. In the CAIR FIP, EPA stated that it would publish a NODA with NO_x allowance allocations for 2009 through 2014, provide the public with the opportunity to object to the allocations and underlying data, and then publish a final NODA (adjusted if necessary). On August 4, 2006, EPA published a preliminary NODA in the **Federal Register** and accepted objections to the data through an electronic docket. This action constitutes the final NODA and indicates the existing units receiving CAIR NO_x allowances under the FIPs and the quantity of allowances to be allocated to each unit. These FIP allowances will only be recorded for sources located in States that do not have an approved SIP in place. Most States have an approved SIP in place, and the State determined allowances will be recorded for sources in these states.

In this NODA, the EPA is making available to the public the Agency's final determination of the NO_x annual and NO_x ozone season allocations under the CAIR FIPs that EPA is making
