Background

The Department of Homeland Security (DHS), through the United States Coast Guard and the Transportation Security Administration (TSA), issued a joint final rule (72 FR 3492; January 25, 2007) pursuant to the Maritime Transportation Security Act (MTSA), Public Law 107–295, 116 Stat. 2064 (November 25, 2002), and the Security and Accountability for Every

Port Act of 2006 (SAFE Port Act), Public Law 109–347 (October 13, 2006). This rule requires all credentialed merchant mariners and individuals with unescorted access to secure areas of a regulated facility or vessel to obtain a TWIC. In this final rule, on page 3510, TSA and Coast Guard stated that a phased enrollment approach based upon risk assessment and cost/benefit would be used to implement the program nationwide, and that TSA would publish a notice in the **Federal Register** indicating when enrollment at a specific location will begin and when it is expected to terminate.

This notice provides the start date for TWIC initial enrollment at the Ports of Honolulu, HI; Baton Rouge, LA; Tacoma, WA; Beaumont, TX, and Oakland, CA only. Enrollment in Honolulu, Baton Rouge, and Tacoma will begin on November 7, 2007. Enrollment in Beaumont and Oakland will begin on November 8, 2007. The Coast Guard will publish a separate notice in the **Federal Register** indicating when facilities within the Captain of the Port Zone Honolulu, including those in the Port of Honolulu, HI; Captain of the Port Zone Baton Rouge, including those in the Port of Baton Rouge, LA; Captain of the Port Zone Puget Sound, including those in the Port of Tacoma, WA; Captain of the Port Zone Port Arthur, including those in the Port of Beaumont, TX; and Captain of the Port Zone San Francisco Bay, including those in the Port of Oakland, CA must comply with the portions of the final rule requiring TWIC to be used as an access control measure. That notice will be published at least 90 days before compliance is required.

To obtain information on the pre-enrollment and enrollment process, and enrollment locations, visit TSA's TWIC Web site at <http://www.tsa.gov/twic>.

Issued in Arlington, Virginia, on November 1, 2007.

This Notice is soliciting comments from members of the public and affected agencies concerning the proposed collection of information to: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (3) Enhance the quality, utility, and clarity of the

information to be collected; and (4) Minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

This Notice also lists the following information:

Title of Proposal: Application for Healthy Homes and Lead Hazard Control Grant Programs and Quality Assurance Plans.

OMB Control Number, if applicable: 2539-0015.

Description of the need for the information and proposed use:

This information collection is required in conjunction with the issuance of Notices of Funding Availability for approximately \$150,000,000 for Healthy Homes and Lead Hazard Control Programs that are authorized under Title X of the Housing and Community Development Act of 1992, Public Law 102-550, section 1011, and other legislation.

After the award of grants, HUD's Office of Healthy Homes and Lead Hazard Control requires its Healthy Homes Demonstration, Healthy Homes Technical Studies grantees, and Lead Hazard Control grantees which are conducting research or significant evaluation activities, to submit a *Quality Assurance Plan (QAP)* to the Office for approval before they initiate data collection. This requirement also applies to Office of Healthy Homes and Lead Hazard Control contractors who conduct such research or evaluation activities. This requirement has been established because quality assurance procedures ensure the accuracy and validity of data. The use of quality assurance plan templates helps to ensure that quality assurance activities are well planned and thorough, and standardizes the formatting of the plans, which aids both the respondents in plan development and HUD staff in their review. The use of different templates for technical studies and demonstration projects was designed to reduce respondent burden by requiring more detailed information only for the technical studies (research) projects, consistent with their more rigorous quality assurance requirements.

Agency form numbers, if applicable: HUD 96008, 96012, 96013, 960014, 96015, and standard grant forms.

Total Burden Estimate (annual):

Application Development: Number of respondents: 330; frequency of responses: 1; hours per response: 25; burden hours: 8250.
