

commerce. Therefore, FMCSA concludes that extending the exemption for each renewal applicant for a period of two years is likely to achieve a level of safety equal to that existing without the exemption.

Request for Comments

FMCSA will review comments received at any time concerning a particular driver's safety record and determine if the continuation of the exemption is consistent with the requirements at 49 U.S.C. 31136(e) and 31315. However, FMCSA requests that interested parties with specific data concerning the safety records of these drivers submit comments by December 17, 2007.

FMCSA believes that the requirements for a renewal of an exemption under 49 U.S.C. 31136(e) and 31315 can be satisfied by initially granting the renewal and then requesting and evaluating, if needed, subsequent comments submitted by interested parties. As indicated above, the Agency previously published notices of final disposition announcing its decision to exempt these 27 individuals from the vision requirement in 49 CFR 391.41(b)(10). The final decision to grant an exemption to each of these individuals was based on the merits of each case and only after careful consideration of the comments received to its notices of applications. The notices of applications stated in detail the qualifications, experience, and medical condition of each applicant for an exemption from the vision requirements. That information is available by consulting the above cited **Federal Register** publications.

Interested parties or organizations possessing information that would otherwise show that any, or all of these drivers, are not currently achieving the statutory level of safety should immediately notify FMCSA. The Agency will evaluate any adverse evidence submitted and, if safety is being compromised or if continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136(e) and 31315, FMCSA will take immediate steps to revoke the exemption of a driver.

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

[U.S. DOT Docket Number NHTSA-2007-0035 Draft ID 0001]

Reports, Forms, and Recordkeeping Requirements

AGENCY: National Highway Traffic Safety Administration (NHTSA), DOT.

ACTION: Request for public comment on proposed collection of information.

SUMMARY: Before a Federal agency can collect certain information from the public, it must receive approval from the Office of Management and Budget (OMB). Under procedures established by the Paperwork Reduction Act of 1995, before seeking OMB approval, Federal agencies must solicit public comment on proposed collections of information, including extensions and reinstatement of previously approved collections.

This document describes the collection of information under the Early Warning Reporting requirements enacted by the Transportation Recall Effectiveness, Accountability, and Documentation (TREAD) Act, Pub. L. 106-414, for which NHTSA, intends to seek OMB approval.

DATES: Comments must be received on or before January 14, 2008.

ADDRESSES: Comments must refer to the docket and notice numbers cited at the beginning of this notice and be submitted to Docket Management, Room W12-140, 1200 New Jersey Avenue, SE., Washington, DC 20590. Please identify the proposed collection of information for which a comment is provided, by referencing its OMB Clearance Number. It is requested, but not required, that 2 copies of the comment be provided. The section is open on weekdays from 10 a.m. to 5 p.m.

FOR FURTHER INFORMATION CONTACT: Complete copies of each request for collection of information may be obtained at no charge from Mr. Paul Simmons, Office of Defects Investigation, NHTSA, 1200 New Jersey Avenue, SE., Washington, DC 20590. Mr. Simmons can be contacted at (202) 366-2315. Please identify the relevant collection of information by referring to its OMB Control Number.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995, before an agency submits a proposed collection of information to OMB for approval, it must first publish a document in the **Federal Register** providing a 60-day comment period and

otherwise consult with members of the public and affected agencies concerning each proposed collection of information. The OMB has promulgated regulations describing what must be included in such a document. Under OMB's regulation (at 5 CFR 1320.8(d)), an agency must ask for public comment on the following:

(i) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(ii) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) How to enhance the quality, utility, and clarity of the information to be collected;

(iv) How to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g. permitting electronic submission of responses.

In compliance with these requirements, NHTSA asks for public comments on the following proposed collections of information:

(1) *Title:* Reporting of Information and Documents about Potential Defects—49 CFR part 579.

OMB Control Number: 2127-0616

Affected Public: Manufacturers of motor vehicles and motor vehicle equipment.

Abstract: Under Chapter 301 of the Title 49 of the United States Code, manufacturers of motor vehicles and items of motor vehicle equipment are periodically required to submit certain information to NHTSA, including information about claims and notices about deaths and serious injury, property damage data, communications to customers and others, and information on Safety Recalls and Campaigns in foreign countries covering vehicles or equipment that are identical or substantially similar to vehicles or equipment sold or offered for sale in the United States. The statute also authorized NHTSA to require the submission of other data that may assist in the identification of safety-related defects in vehicles and equipment. Review of the documents submitted is intended to provide NHTSA with "early warning" of potential safety-related defects in motor vehicles and motor vehicle equipment. NHTSA will rely on the information provided (as well as other relevant information) in deciding

whether to open safety defect investigations.

Estimated Annual Burden: The annual burden is estimated to be 84,218 hours. The estimated annual cost is \$8,105,551.

Number of Respondents: 542.

Comments are invited on: Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimate of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

DEPARTMENT OF TRANSPORTATION

Surface Transportation Board

[STB Finance Docket No. 35102]

Patriot Rail, LLC, Patriot Rail Holdings, LLC, and Patriot Rail Corp.—Control Exemption—Utah Central Railway Company

Patriot Rail, LLC (PRL) and its subsidiaries, Patriot Rail Holdings, LLC (PRH) and Patriot Rail Corp. (Patriot) (collectively, applicants), jointly have filed a verified notice of exemption to permit PRL, PRH, and Patriot to acquire control of Utah Central Railway Company (Utah Central) through Patriot's acquisition of 100% of the outstanding stock of Utah Central, pursuant to a Stock Purchase Agreement dated October 29, 2007 (Agreement).¹

PRL is a noncarrier limited liability company that owns 51% of the stock of PRH. PRH is a noncarrier limited liability company that owns 100% of the stock of Patriot. Patriot is a noncarrier holding company that owns 100% of the stock of the Tennessee Southern Railroad Company, a Class III rail carrier, operating in Tennessee and Alabama, and 100% of the stock of Patriot Rarus Acquisition Corp., which owns 100% of the outstanding stock of

Rarus Railway Company, a Class III rail carrier, operating in Montana.² Pursuant to the Agreement, Patriot will acquire direct control of Utah Central. PRL, through its control of PRH, and PRH, through its control of Patriot, will acquire indirect control of Utah Central. Utah Central is a Class III rail carrier that leases and operates a line of railroad from Union Pacific Railroad Company in the Ogden, UT area.³ The trackage encompasses the former Denver, Rio Grande & Western Railroad main line trackage and appurtenances. Utah Central also acquired approximately 15 miles of trackage in the Ogden area.⁴

The transaction is scheduled to be consummated on or after the date that this notice becomes effective (which will occur on November 29, 2007).

Applicants state that: (i) The rail lines involved in this transaction do not connect with any rail lines now controlled, directly or indirectly, by PRL, PRH, or Patriot; (ii) the acquisition of control of Utah Central by PRL, PRH, and Patriot is not part of a series of anticipated transactions that would connect any of these railroads with each other or any railroad in their corporate family; and (iii) this transaction does not involve a Class I carrier. Therefore, this transaction is exempt from the prior approval requirements of 49 U.S.C. 11323. See 49 CFR 1180.2(d)(2).

Under 49 U.S.C. 10502(g), the Board may not use its exemption authority to relieve a rail carrier of its statutory obligation to protect the interests of its employees. Section 11326(c), however, does not provide for labor protection for transactions under sections 11324 and 11325 that involve only Class III rail carriers. Accordingly, the Board may not impose labor protective conditions here, because all of the carriers involved are Class III rail carriers.

If the verified notice contains false or misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the effectiveness of the exemption. Petitions for stay must
