

and (d) and 21 CFR 10.40(d) and (e), the agency finds good cause to dispense with notice and public procedure and to proceed to an immediately effective regulation. Such notice and procedures are unnecessary and are not in the public interest, because the final rule is merely codifying the new name and expanded function of the advisory committee to reflect the current committee charter.

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

44 CFR Part 67

[Docket No. FEMA–B–7456]

Withdrawal of Final Flood Elevation Determination for Lexington/Fayette County, Kentucky and Incorporated Areas

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Final rule; withdrawal.

SUMMARY: The Federal Emergency Management Agency (FEMA) withdraws the final flood elevation determination published in 71 FR 60865, October 17, 2006 for the Lexington/Fayette County, Kentucky and Incorporated Areas, hereafter referred to as “LFC”. A final flood elevation determination will be made at a later date.

DATES: *Effective Date:* This rule is effective March 5, 2007.

FOR FURTHER INFORMATION CONTACT:

William R. Blanton, Jr., Engineering Management Section, Mitigation Division, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646–3151.

SUPPLEMENTARY INFORMATION: On July 17, 2006, FEMA issued a letter to LFC finalizing the flood elevation determinations. In addition, the July 17, 2006 letter established a January 17, 2007 effective date for the Flood Insurance Study (FIS) and Flood Insurance Rate Map (FIRM) for the listed community. The reason for this rescission is to allow FEMA to complete a thorough review and revision of the preliminary maps in light of recent identification of potential errors in the FIRMs. Contradictions have been identified in some areas between the printed maps and the digital data base that supports the maps. There are also questions concerning the locations of stream cross sections on the maps. These discrepancies could lead to incorrect interpretation of the flood risk portrayed in the maps, or even incorrect flood insurance determinations. Due to these issues, it is prudent for FEMA to

complete a review and revision of these maps prior to them becoming effective.

Until FEMA completes their review and revision of the aforementioned FIRMs, and digital data base, the final flood elevation published in 71 FR 60865, October 17, 2006 for the listed community is hereby withdrawn in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104. Until further notice, the release of the FIS and FIRM for the listed communities has been postponed.

National Environmental Policy Act

This rule is categorically excluded from the requirements of 44 CFR part 10, Environmental Consideration. No environmental impact assessment has been prepared.

Regulatory Flexibility Act

As flood elevation determinations are not within the scope of the Regulatory Flexibility Act, 5 U.S.C. 601–612, a regulatory flexibility analysis is not required.

Regulatory Classification

This final rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 13132, Federalism

This rule involves no policies that have federalism implications under Executive Order 13132.

Executive Order 12988, Civil Justice Reform

This rule meets the applicable standards of Executive Order 12988.

List of Subjects in 44 CFR Part 67

Administrative practice and procedure, Flood insurance, Reporting and recordkeeping requirements.

■ Accordingly, 44 CFR part 67 is amended as follows:

§ 67.11 [Amended]

Fisheries of the Exclusive Economic Zone Off Alaska; Pollock in Statistical Area 630 of the Gulf of Alaska

Commerce.

ACTION: Temporary rule; modification of
a closure.

SUMMARY: NMFS is reopening directed
fishing for pollock in Statistical Area
630 of the Gulf of Alaska (GOA) for 24

total allowable catch (TAC) of pollock
specified for Statistical Area 630 of the
GOA.

FOR FURTHER INFORMATION CONTACT: Josh
Keaton, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS
manages the groundfish fishery in the
GOA exclusive economic zone
according to the Fishery Management
Plan for Groundfish of the Gulf of
Alaska (FMP) prepared by the North
Pacific Fishery Management Council
under authority of the Magnuson-
Stevens Fishery Conservation and
Management Act. Regulations governing
fishing by U.S. vessels in accordance
with the FMP appear at subpart H of 50
CFR part 600 and 50 CFR part 679.

NMFS closed the directed fishery for
pollock in Statistical Area 630 of the
GOA under § 679.20(d)(1)(iii) on
January 22, 2007 (72 FR 2793, January
23, 2007). The fishery was subsequently
reopened on February 6, 2007 and
closed on February 8, 2007 (72 FR 5346,
February 6, 2007), reopened on
February 12, 2007 and closed on
February 14, 2007 (72 FR 7353,
February 15, 2007), and reopened on
February 20, 2007 and closed on
February 22, 2007 (72 FR 8132,
February 23, 2007).

NMFS has determined that
approximately 2,850 mt of pollock
remain in the directed fishing allowance
in Statistical Area 630 of the GOA.
Therefore, in accordance with
§ 679.25(a)(1)(i), (a)(2)(i)(C) and
(a)(2)(iii)(D), and to fully utilize the A
season allowance of the 2007 TAC of
pollock in Statistical Area 630, NMFS is
terminating the previous closure and is
reopening directed fishing for pollock in
Statistical Area 630 of the GOA. In
accordance with § 679.20(d)(1)(iii), the
Regional Administrator finds that this
directed fishing allowance will be
reached after 24 hours. Consequently,
NMFS is prohibiting directed fishing for
pollock in Statistical Area 630 of the
GOA after the 24 hours, effective 1200
hrs, A.l.t., March 2, 2007.

Classification

This action responds to the best
available information recently obtained
from the fishery. The Assistant
Administrator for Fisheries, NOAA
(AA), finds good cause to waive the
requirement to provide prior notice and
opportunity for public comment
pursuant to the authority set forth at 5
U.S.C. 553(b)(B) and 679.25(c)(1)(ii) as
such requirement is impracticable and
contrary to the public interest. This
requirement is impracticable and
contrary to the public interest as it
would prevent NMFS from responding
to the most recent fisheries data in a
timely fashion and would delay the
opening of pollock in Statistical Area
630 of the GOA. NMFS was unable to
publish a notice providing time for
public comment because the most

recent, relevant data only became
available as of February 27, 2007.

The AA also finds good cause to
waive the 30-day delay in the effective
date of this action under 5 U.S.C.
553(d)(3). This finding is based upon
the reasons provided above for waiver of
prior notice and opportunity for public
comment.

Without this inseason adjustment,
NMFS could not allow the fishery for
pollock in Statistical Area 630 of the
GOA to be harvested in an expedient
manner and in accordance with the
regulatory schedule. Under
§ 679.25(c)(2), interested persons are
invited to submit written comments on
this action to the above address until
March 15, 2007.

This action is required by § 679.25
and § 679.20 and is exempt from review
under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: February 28, 2007.

Fisheries, National Marine Fisheries Service.*

AGENCY: National Marine Fisheries
Service (NMFS), National Oceanic and

Commerce.

ACTION: Final rule; closures.

SUMMARY: NMFS announces 2007 and
2008 final harvest specifications,
reserves and apportionments thereof,
Pacific halibut prohibited species catch
(PSC) limits, and associated

(GOA). This action is necessary to

during the 2007 and 2008 fishing years
