Foreign-Trade Zones Board

[Docket 15-2008]

Foreign-Trade Zone 122—Corpus Christi, TX; Application for Subzone; Baker Hughes, Inc. (Barite Grinding and Milling); Corpus Christi, TX

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the Port of Corpus Christi Authority, grantee of Foreign-Trade Zone (FTZ) 122, requesting special-purpose subzone status for the barite grinding and milling facility of Baker Hughes, Inc. (Baker Hughes) located in Corpus Christi, Texas. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR Part 400). It was formally filed by the Board on February 25, 2008.

The Baker Hughes facility (11 acres, 12 employees) is located at 322 Manning Road, in Corpus Christi, within the Corpus Christi Customs and Border Protection port of entry. The facility is used for manufacturing, warehousing and distribution activities related to the processing of raw barite (HTSUS 2511.10.50) into ground barite (HTSUS 2511.10.10) (up to 350,000 tons annually). Ground barite is used in the production of drilling fluids (drilling mud) and various specialty chemicals for use by the oil and natural gas exploration industry. Baker Hughes sources the majority of its raw

barite from abroad. The duty rate on the raw barite is \$1.25 per metric ton.

This application requests authority for Baker Hughes to conduct the activity under FTZ procedures, which would exempt the company from Customs duty payments on the imported barite used in export production. Less than one percent of production is exported. On domestic sales, the company could choose the lower duty rate (duty-free) for the imported raw barite used in manufacturing that applies to the finished product. The majority of FTZ-related savings will come from the elimination of the duty on the finished product. Baker Hughes will also realize additional savings on the elimination of duties on materials that become scrap/waste during manufacturing. The application indicates that the FTZ-related savings would improve the plant's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ staff has been designated examiner to investigate the application and report to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address listed below. The closing period for their receipt is May 12, 2008. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period May 27, 2008.

A copy of the application and accompanying exhibits will be available at each of the following addresses: the Port of Corpus Christi Authority, 222 Power Street, Corpus Christi, TX 78403; and, Office of the Executive Secretary, Foreign-Trade Zones Board, Room 2111, U.S. Department of Commerce, 1401 Constitution Avenue, NW., Washington, DC, 20230. Purified Carboxymethylcellulose from Finland: Extension of Time Limits for Preliminary Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: (March 11, 2008.)

FOR FURTHER INFORMATION CONTACT: Tyler Weinhold or Robert James, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington DC 20230; telephone: (202) 482-1121 and (202) 482-0649, respectively.

SUPPLEMENTARY INFORMATION:

Background

At the request of interested parties, on August 24, 2007, the Department published in the **Federal Register** a notice of initiation of this antidumping duty administrative review. See *Initiation of Antidumping and Countervailing Duty Administrative Reviews and Requests for Revocation in Part*, 72 FR 48613, August 24, 2007. The review covers the period July 1, 2006, through June 30, 2007. The preliminary results for these administrative reviews are currently due no later than April 1, 2008.

Extension of Time Limits for Preliminary Results

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), requires the Department to complete the preliminary results of an administrative review within 245 days after the last day of the anniversary month of an order for which a review is requested. However, if it is not practicable to complete the review within these time periods, section 751(a)(3)(A) of the Act allows the Department to extend the 245 day time period for the preliminary results to 365 days.

The Department has determined it is not practicable to complete this review within the statutory time limit because we require additional time to conduct a sales below-cost investigation in this administrative review and to collect and analyze other information needed for our preliminary results. Accordingly, the Department is extending the time limits for completion of the preliminary results of this administrative review until no later than July 30, 2008, which is 365 days from the last day of the anniversary month of these orders. We intend to issue the final results in this review no later than 120 days after publication of the preliminary results.

This notice is issued and published in accordance with sections 751(a)(3)(A) and 777(i)(1) of the Act.

Dated: March 4, 2008.

Stephen Claeys,
Deputy Assistant Secretary for Import Administration.
