Needs and Uses: On November 27, 2007, the Commission adopted a *Report and Order* in MM Docket 00-168, *In the Matter of Standardized and Enhanced Disclosure Requirements for Television Broadcast Licensee Public Interest Obligations*. The *Report and Order* adopts a Standardized Television Disclosure Form, FCC Form 355, and also requires require television licensees and applicants to post a portion of the contents of its public inspection file on

its Web site, as proposed in the *Notice of Proposed Rulemaking* in MB Docket 00-168 in October 2000. Television broadcast stations and Class A television broadcast stations are both required to file FCC Form 355. The Standardized Television Disclosure Form, FCC Form 355, provides: (a) A consistent format for reporting by all licensees, and (b) documents the licensees efforts to determine the issues facing its community and the public interest programming aired during the preceding three month period in response to such issues.

47 CFR 73.3526 and 73.3527 require that licensees and permittees of commercial and noncommercial AM, FM and TV stations maintain a file for public inspection at its main studio or at another accessible location in its community of license. The contents of the file vary according to type of service and status. The contents include, but are not limited to, copies of certain applications tendered for filing, a statement concerning petitions to deny filed against such applications, copies of ownership reports, statements certifying compliance with filing announcements in connection with renewal applications, a list of donors supporting specific programs, and a list of community issues addressed by the station's programming. These rules also specify the length of time, which varies by document type, that each record must be retained in the public file. The public and FCC use the data to evaluate information about the licensee's performance and to ensure that station is addressing issues concerning the community to which it is licensed to serve.

47 CFR 73.1943 and 76.1701 require licensees of broadcast stations and cable television systems, respectively, to keep and permit public inspection of a complete record (political file) of all requests for broadcast time made by or on behalf of candidates for public office, together with an appropriate notation showing the disposition made by the licensee of such requests. The data is used by the public to assess money expended and time allotted to a political candidate and to ensure that equal access was afforded to other legally qualified candidates. Section 76.1701 also requires that, when an entity sponsors origination cablecasting material that concerns a political matter or a discussion of a controversial issue of public importance, a list must be maintained in the public file of the system that includes the sponsoring entity's chief executive officers, or members of its executive committee or of its board of directors.
