

DEPARTMENT OF HOMELAND SECURITY**Coast Guard****33 CFR Part 165****[Docket No. USCG–2008–0219]****RIN 1625–AA00****Safety Zones: Annual Events Requiring Safety Zones in the Captain of the Port Buffalo Zone****AGENCY:** Coast Guard, DHS.**ACTION:** Notice of Proposed Rulemaking.

SUMMARY: The Coast Guard proposes establishment of safety zones for annual events in the Captain of the Port Buffalo zone. This proposed rule consolidates current regulations establishing safety zones for annual fireworks events in the former Captain of the Port Cleveland Zone and the former Captain of the Port Buffalo Zone. In addition, it adds events not previously published in Coast Guard regulations. These safety zones are necessary to protect spectators, participants, and vessels from the hazards associated with fireworks displays or other events.

SUPPLEMENTARY INFORMATION:**Public Meeting**

We do not now plan to hold a public meeting. But you may submit a request for a meeting by writing to Commander, Coast Guard Sector Buffalo, at the address under **ADDRESSES** explaining why one would be beneficial. If we determine that one would aid this rulemaking, we will hold one at a time and place announced by a later notice in the **Federal Register**.

Background and Purpose

On July 22, 2005, the Coast Guard consolidated the Captain of the Port Cleveland zone and the Captain of the Port Buffalo zone into one zone re-defining the Captain of the Port Buffalo zone. This proposed rule will consolidate the regulations found in 33 CFR 165.202, Safety Zones; Annual Fireworks Events in the Captain of the Port Cleveland Zone, the regulations found in 33 CFR 165.914, Safety Zones; Annual Fireworks Events in the Captain of the Port Buffalo Zone so that all the annual fireworks events in the current Captain of the Port Buffalo Zone are found in one CFR section. In addition this proposal adds events not previously published in the CFR.

These safety zones are necessary to protect vessels and people from the hazards associated with fireworks displays or other events. Such hazards include obstructions to the waterway that may cause marine casualties and the explosive danger of fireworks and debris falling into the water that may cause death or serious bodily harm.

Discussion of Proposed Rule

The proposed rule and associated safety zones are necessary to ensure the safety of vessels and people during annual firework events in the Captain of the Port Buffalo area of responsibility that may pose a hazard to the public. This proposal consolidates the events listed in §§ 165.202 and 165.914 into a new section 165.939. This new section unites all the annual Firework events in the recently consolidated COTP Buffalo zone into one section of the CFR. In addition, there are several events that are added and some events that have been deleted in this new section.

The proposed safety zones will be enforced only immediately before, during, and after events that pose

hazard to the public, and only upon notice by the Captain of the Port.

The Captain of the Port Buffalo will notify the public that the zones in this proposal are or will be enforced by all appropriate means to the affected segments of the public including publication in the **Federal Register** as practicable, in accordance with 33 CFR 165.7(a). Such means of notification may also include, but are not limited to, Broadcast Notice to Mariners or Local Notice to Mariners. The Captain of the Port will issue a Broadcast Notice to Mariners notifying the public when enforcement of the safety zone established by this section is cancelled.

All persons and vessels shall comply with the instructions of the Coast Guard Captain of the Port or the designated representative. Entry into, transiting, or anchoring within the safety zone is prohibited unless authorized by the Captain of the Port Buffalo, or his designated representative. The Captain of the Port or his designated representative may be contacted via VHF Channel 16.

Regulatory Evaluation

This proposed rule is not a "significant regulatory action" under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order.

We expect the economic impact of this proposed rule to be so minimal that a full Regulatory Evaluation is unnecessary.

The Coast Guard's use of these safety zones will be periodic, of short duration, and designed to minimize the impact on navigable waters. These safety zones will only be enforced immediately before, during, and after the time the events occur. Furthermore, these safety zones have been designed to allow vessels to transit unrestricted to portions of the waterways not affected by the safety zones. The Coast Guard expects insignificant adverse impact to mariners from the activation of these safety zones.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601–612), we have considered whether this proposed rule would have a significant economic impact on a substantial number of small entities. The term "small entities" comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and

governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this proposed rule would not have a significant economic impact on a substantial number of small entities.

This proposed rule would affect the following entities, some of which might be small entities: The owners of operators of vessels intending to transit or anchor in the areas designated as safety zones in subparagraphs (1) through (28) during the dates and times the safety zones are being enforced.

These safety zones would not have a significant economic impact on a substantial number of small entities for the following reasons: This proposed rule would be in effect for short periods of time, and only once per year, per zone. The safety zones have been designed to allow traffic to pass safely around the zone whenever possible and vessels will be allowed to pass through the zones with the permission of the Captain of the Port.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this proposed rule would have a significant economic impact on it, please submit a comment (see **ADDRESSES**) explaining why you think it qualifies and how and to what degree this proposed rule would economically affect it.

Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this proposed rule so that they can better evaluate its effects on them and participate in the rulemaking. If the proposed rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact CDR Joseph Boudrow, Prevention Department, Coast Guard Sector Buffalo, Buffalo, NY, at (716) 843–9572. The Coast Guard will not retaliate against small entities that question or complain about this proposed rule or any policy or action of the Coast Guard.

Collection of Information

This proposed rule calls for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct

effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this proposed rule under that Order and have determined that it does not have implications for federalism.

Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 or more in any one year. Though this proposed rule will not result in such expenditure, we nevertheless discuss its effects elsewhere in this preamble.

Taking of Private Property

This proposed rule will not effect the taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This proposed rule meets applicable standards in sections 3(a) and 3(b) (2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this proposed rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This proposed rule is not an economically significant rule and does not create an environmental risk to health or risk to safety that may disproportionately affect children.

Indian Tribal Governments

The Coast Guard recognizes the treaty rights of Native American Tribes. Moreover, the Coast Guard is committed to working with Tribal Governments to implement local policies and to mitigate tribal concerns. We have determined that these safety zones and fishing rights protection need not be incompatible. We have also determined that this proposed rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes,

or on the distribution of power and responsibilities between the Federal Government and Indian tribes. Nevertheless, Indian Tribes that have questions concerning the provisions of this proposed rule or options for compliance are encouraged to contact the point of contact listed under **FOR FURTHER INFORMATION CONTACT**.

Energy Effects

We have analyzed this proposed rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a "significant energy action" under that order because it is not a "significant regulatory action" under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Technical Standards

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standards bodies.

This proposed rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

Environment

We have analyzed this proposed rule under Commandant Instruction M16475.ID which guides the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have made a preliminary determination that this section is not likely to have a significant effect on the human environment.

A preliminary "Environmental Analysis Check List" supporting this preliminary determination is available in the docket where indicated under **ADDRESSES**.
