Needs and Uses: The Commission adopted on February 19, 2008, a Report and Order, *In the Matter DTV Consumer Education Initiative*, MB Docket 07-148, FCC 08-56. As the Nation transitions from analog broadcast television service to digital broadcast television service, the Commission has been committed to working with representatives from industry, public interest groups, and Congress to make the significant benefits of digital broadcasting available to the public. The digital transition will make valuable spectrum available for both public safety uses and expanded wireless competition and innovation. By compressing television broadcasting into a smaller amount of the available spectrum, the digital transition has allowed the Commission to make valuable 700 MHz spectrum available for sale and use by wireless companies and public safety organizations. The transition will also provide consumers with better quality television picture and sound, and make new services available through multicasting. These innovations, however, are dependent upon widespread consumer understanding of the benefits and mechanics of the transition. The

Congressional decision to establish a hard deadline of February 17, 2009, for the end of full-power analog broadcasting has made consumer awareness even more critical.

In this Order, the Commission imposes the following information and disclosure requirements:

(a) Broadcaster Education and Reporting (47 CFR 73.674).

(i) On-air Education. Broadcasters must provide on-air DTV Transition consumer education information (e.g., via Public Service Announcements (PSAs) or information crawls) to their viewers. Broadcasters must comply with one of three alternative sets of rules as provided in the Report and Order.

(ii) DTV Consumer Education Quarterly Activity Report, FCC Form 388. Broadcasters must electronically file a report about its DTV Transition consumer education efforts to the Commission on a quarterly basis. Broadcasters must begin filing these quarterly reports no later than April 10, 2008. In addition, if the broadcaster has a public Web site, they must post these reports on that Web site.

(b) Multichannel Video Programming Distributor (MVPD) Customer Bill Notices (47 CFR 76.1630). MVPDs, which include, for example (and are not limited to), cable operators, direct broadcast satellite (DBS) carriers, open video system operators, and private cable operators, must provide monthly notices about the DTV transition in their customer billing statements.

(c) Consumer Electronics Manufacturer Notices (47 CFR 15.124). Parties that manufacture, import, or ship interstate television receivers and devices designed to work with television receivers must provide notice to consumers of the transition's impact on that equipment. This information must be included with all devices shipped, beginning on the effective date of these rules, until March 31, 2009.

(d) DTV.gov Partner Consumer Education Reporting. DTV.gov Transition Partners must report their consumer education efforts, as a condition of continuing Partner status. They must begin filing these quarterly reports no later than April 10, 2008.

(e) Eligible telecommunications carriers (ETCs) Federal Universal Service Low-Income Program Participant Notices (47 CFR 54.418). ETCs that receive federal universal service funds must provide monthly notice of the transition to their low income customers and potential customers. This information must be provided beginning on the effective date of these rules, until March 31, 2009.

(f) 700 MHz Auction Winner Consumer Education Reporting (47 CFR 27.20). Winners of the 700 MHz spectrum auction must report their consumer education efforts to the Commission on a quarterly basis. These parties must file the first by the tenth day of the first calendar quarter following the initial grant of the license authorization that the entity holds.

OMB Control Number: 3060-0214.

Title: Sections 73.3526 and 73.3527, Local Public Inspection Files; Sections 76.1701 and 73.1943, Political Files.

Form Number: Not applicable.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities; Not for-profit institutions.

Number of Respondent: 52,285 respondents.

Estimated time per Response: 2.5-109 hours.

Frequency of Response: Recordkeeping requirement; Third party disclosure requirement.

Obligation to Respond: Required to obtain benefits—Statutory authority for this collection of information is contained in sections 154(i), 303 and 308 of the Communications Act of 1934, as amended.

Total Annual Burden: 1,831,706 hours.

Total Annual Cost: None.

Nature of Response: Required to obtain or retain benefits.

Confidentiality: No need for confidentiality required.

Privacy Impact Assessment: No impact(s).

Needs and Uses: The Commission adopted on February 19, 2008, a Report and Order, *In the Matter DTV Consumer Education Initiative*, MB Docket 07-148, FCC 08-56. The Report and Order adds a new recordkeeping requirement for full-power commercial and noncommercial educational TV broadcast stations (both analog and digital) for the contents of their public inspection files. Specifically, the rule requires these stations to retain in their public inspection file a copy of their DTV Consumer Education Quarterly Activity Report, FCC Form 388, on a quarterly basis. The Report for each quarter is to be placed in the public inspection file by the tenth day of the succeeding calendar quarter. These Reports shall be retained in the public inspection file for one year. Broadcasters shall publicize in an appropriate manner the existence and location of these Reports.
